SIX DISTRICTS ASK FOR VOTE ON UNION HIGH

Would Ballot December 3 on Question of Combining for Maintaining Advanced Work

Six districts have thus far submitted petitions to the county superintendent of schools asking for an election Dec. 3 to determine the formation of a union high school with Lynden as a center.

North Prairie, Northwood, Delta, Sunshine, Greenwood and Lynden compose the districts which have thus formally expressed a desire to vote on the plan. Timon, Riverside and Glendale, districts to which petitions were sent for circulation, have not gone ahead with the proposal yet.

The plan for several districts to combine to operate a high school while maintaining their lower school on a separate basis, is meeting with favor throughout the state. Skagit County has found it very successful, enabling the operation of the high schools with a minimum of cost. In this county, the Nooksack-Everson districts will also vote on the union high school plan Dec. 3.

A LYNDEN COOK-BOOK

Here are the prize-winning and favorite recipes of the best cooks of the Lynden district. Clip them out each week, paste them in a book, and you will soon have a valuable Lynden Cook Book.

Apple Jelly
(Mrs. L. K. Guy)
Wash and remove stem end from Gravenstein apples. Cut in coarse pieces; almost cover with cold water and boil. When juice is cooked from the apples place in jelly bag and allow to drip. Boil the juice for ten minutes, skimming occasionally. Add a scant cup of sugar to a cup of juice and boil until it drops from a clean spoon in a mass or from two points on the spoon. Place a leaf of Rose Geranium in the bottom of each glass and pour in the hot jelly.

Good Sponge Cake
(Mrs. George A. Wheeler)
4 standard eggs, 1 cup powdered sugar, 2 tablespoons lemon juice, 1 tablespoon grated lemon rind, ¾ cup bread flour, 1½ teaspoons baking powder, ½ teaspoon salt. Beat yolks of eggs thoroughly, add sugar gradually. Beat well after each addition. Add lemon juice and rind and beat again. Mix flour, baking powder and salt and sift three times, then add egg mixture and beat three minutes. Fold in whites of eggs which have been beaten to a stiff froth. Time of cooking, 55 minutes. Temperature of oven, 325 F.

Corn Meal Bread
(Mrs. D. Vander Griend)
Three level cups of corn meal, 1½ cups of flour, 1 hp. tablespoon of lard melted, ½ tablespoon salt, 1 hp. tablespoon of sugar, one egg, 1 teaspoon soda. Mix with sour milk to a thick batter.

Corn Bread
(Mrs. A. A. Wolfe)
1½ cups corn meal, ¾ cups flour, 4 teaspoons baking powder, 1 teaspoon salt, 1½ cups milk, 2 tablespoons shortening, 1 egg. Sift dry ingredients in a bowl; add milk, shortening and egg. Beat together well. Pour into well greased pans and bake about 25 minutes.

Pumpkin Pie
(Mrs. Millard Taylor)
To 2 cups "stewed down" pumpkin, after it is mashed add 2 cups milk and put through a sieve. Add ¼ cup brown sugar, 3 eggs, 1 tablespoon molasses, 1 tablespoon melted butter, 1 tablespoon ginger, 1 teaspoon of cinnamon, salt. It is well to have the batter scalding hot, stirring constantly until poured into the pie crust. Whipped cream spread on the top when cold is delicious.

Salt Rising Bread
(Mrs. Phoebe Judson)
(This is repeated because of an error last week.)
Add a heaping teaspoon of salt to one quart of water. Then add flour until it is a little thicker than pancake batter. Set in a kettle of warm water, cover closely, and keep at an even temperature until the bread rises. This will take eight or nine hours. Mix with a little more water into loaves. Let loaves rise again and bake. In this way the flavor of the wheat is not destroyed by the yeast.

The road extends from the Milwaukee tracks in Lynden to the state road below Sumas, a distance of more than nine miles, with a paved branch from the Depot road to the Guide Meridian.

The road is expected to handle the bulk of the through Bellingham-Sumas traffic, as the distance is considerably shorter via Lynden than through Nooksack.

Nov. 5, another new stretch of paving, between East Stanwood and Silvana, in Snohomish county, will be ready for use. That will eliminate about four miles of gravel from Florence to Silvana. With these two gaps closed, there will be virtually an unbroken paved road from Lynden to Seattle, over which the trip may be made in comfort in about four hours and within the speed limit.

STATE COLLEGE OFFERS SHORT COURSES TO LYNDEN FARMERS

High prices of land, labor, and tools; pests and diseases of plants and animals; marketing and other problems, all make it necessary that the man who is to succeed on the farm should have expert help in the way of special training for his work.

That is why the State College of Washington is offering the winter short courses in agriculture Jan. 2 to Feb. 24. Farmers' wives and daughters must also have help to meet their difficulties—problems of food and cookery, clothing and materials, home sanitation and furnishing. So the Home Economics Department of the college has three eminently practical courses for women at the same time.

There are no examinations for entrance. Anyone who can read and write and is over 16 years of age may go to college for the short course. Those who can not be away from home the entire eight weeks may take the work of either the first or last four weeks, and come back the next year for the work missed. The studies are so arranged that special work may be taken in the branch in which the student is most interested—fruit, cows, etc.

Ferndale Paving Completed

Paving crossing the G. N. tracks at the Ferndale station was thrown open to travel last week, and the detour over the tracks at Second street is no longer necessary. STRIKE WOULD AFFECT LYNDEN INDUSTRIES

Perishable Egg and Butter Output Could Be Taken Care of For Short Time

Lynden would suffer little if the railroad strike goes into effect Sunday, provided the walk-out is of short duration. In the event of an extended strike, the effects would be felt keenly here.

The Chicago Milwaukee railroad branch into Lynden would probably be closed down, as the train-crews are pledged to go out with the rest of the unions.

The auto truck and boat service will be the means of saving the big egg and butter output of the district for a short time, and will prove effective unless markets close by are flooded.

The Washington Egg and Poultry Association Lynden plant shipped out by express all goods on hand up to Monday evening, and accommodations are such that they can store a large amount of eggs and poultry.

Eggs and poultry can be shipped from Lynden to Seattle by truck, and from Seattle to California by boat. The Vancouver market at present is taking a large portion of Lynden's output, and this field will relieve the local situation, it is expected. In case the storage facilities of the Lynden plant are taxed, the Seattle and Bellingham plants may be able to handle the overflow. Most of the Association eggs and poultry have been shipped directly East in the past, but these goods can be kept in the cold storage here indefinitely.

The Lynden plant of the Whatcom County Dairymen's Association expects no trouble in case of a strike Sunday. At present two cars, or 600 barrels of powdered milk are ready for shipment, and these will go from Seattle by boat, by way of the Panama Canal, to New York. Butter can all be trucked from here to Bellingham, and to Seattle by boat, and disposed of there.

How to get in fuel will be the only problem of the Creamery, as this is coming by carloads from Bellingham. The Imperial Fir Lumber Company may be able to supply this demand, or the wood may be purchased from local farmers. The plant uses from 20 to 25 cords a day.
