## LYNDEN HOLDS FAST TO TOP POSITION

### Turns Defeat into Victory in Custer Contest; To Play Ferndale Next

Lynden's wrecking crew turned a 7 to 1 defeat into an 8 to 7 victory over the fast Custer team last Sunday. It was one of the most exciting games seen on the local diamond this season, and was a bitter defeat for the visitors as they were confident of winning the game after securing five runs in the first inning and two more in the 3rd.

Dean, who started pitching for Lynden seemed unable to locate the plate and was yanked in the 3rd, in favor of Fullner, who held the Custerites to only two hits and no runs the balance of the game.

In the first inning the first four men hit safely scoring E. Meurer and filling the bases. Wolfe, next man up, hit a line drive over short which looked like a clean hit but Bruland jumped and caught it and touched making a double play unassisted and pulling the Custer pitcher out of a bad hole. Bateman grounded out to short. This ended Lynden's scoring until the 7th inning.

In this inning Bateman grounded out and Baldwin fled out to third, then Bill Meurer got a clean three bagger, Fullner advanced him by a single and they both scored when "Granny" Meurer made a home run off of one of the longest hits made on the local grounds over the right field fence. Yorkston reached first on an error and scored on Beeman's two bagger. Axling who had walked was cut off at the plate on Wolfe's grounder.

Jones, Custer's pitcher, was pretty wild at the opening of the 8th and after walking Beeman was relieved by Larson. Bateman took third on Baldwin's two-bagger, scored on B. Meurer's single. Baldwin was out at home when he tried to score on Fullner's grounder. Larson played safe by walking E. Meurer. B. Meurer was forced out at home when Yorkston grounded to Cressy.

Fullner and E. Meurer brought in the tying and winning scores on infield-errors. Yorkston made the last out at home, while trying to score on an overthrow at first.

While the score would indicate that it was Custer's game all the way through, it was only by fast fielding that the Custer team held Lynden down as long as they did. Jones got only one strike out and Larson none.

The box score and summary follow:

## BETTER DO YOUR REGISTERING EARLY!

### Books Close Soon Before Primary Election; Now Is The Time To Get Enrolled

Little time for registration remains for Lynden people who hope to participate in the September primaries.

Under the law the registration books close twenty days before the primaries on Sept. 12th, and none but a registered voter can express a choice on candidates.

The books will reopen Sept. 13th, but close again twenty days before the general election on Nov. 7th.

Electors residing in incorporated cities and towns must register this year. In country districts registration is good for four years so any voter who has registered since January, 1920 and who still resides in the same precinct is qualified to vote.

### Prizes Offered Young and Old Who Can Find Mistakes in Cartoons of Game

What do the baseball fans of Lynden, and the boys of the district, actually know about the fine points of the great American game?

On Page 5 will be found a series of cartoons, each illustrating some baseball error. To the thirty fans, big and little, who can pick out the most mistakes, prizes will be given, ranging from a genuine Louisville Slugger bat, to free admission tickets to the Liberty Theatre.

T. R. Burns, president of the Lynden Athletic Association, W. S. Baldwin, and Ernest Dean, will act as judges of the contest. ## CANADIAN TRAFFIC ON INCREASE HERE

### More Automobiles Cross at Lynden than at Sumas, Customs Reports Show

That Lynden is increasing rapidly as an important point of entry from Canada, is shown by the fact that more automobile traffic is now being handled at the Lynden customs office than at Sumas. In the fiscal year ending June 30, a total of 6,058 cars were cleared at Lynden.

Inspector Paul O. Dolstad expects 8,000 and more for this year, judging from the increase in traffic being received here now.

That it would be possible for Lynden to divert a good share of the Vancouver traffic now going through Blaine, by means of a vigorous advertising campaign, is conceded. Lynden offers a route that is shorter by several miles, with roads equally as good, and the same amount of pavement.

As a matter of fact, the worst part of the journey is the half-mile on the Guide Meridian just this side of the Boundary, which could be kept in shape with a minimum of effort.

## STRIKE WOULDN'T HURT FARMERS HERE

### Poultrymen and Dairymen Are Protected, Say Managers of Lynden's Plants

That Lynden poultry and dairy industries will not be seriously affected in the event of a general railroad strike, and may even actually benefit by advances in prices, is the opinion of Harry Beernink, Lynden manager for the Washington Co-operative Egg and Poultry Association, and J. T. Zylstra, manager of the Lynden Plant of the Whatcom County Dairymen's Association.

The Chicago, Milwaukee railroad is still accepting cars, but makes all shipments subject to strike delays, which is dangerous to shipments of dairy products. The Egg Association has therefore contracted for 25 carloads of space on the next refrigerator boat, going from Seattle East via the Panama Canal, which will mean a loss in freight to the railroads of some twenty thousand dollars.

The Egg Association has room to store 10,000 cases of eggs in Bellingham, and 20,000 more in its own plant at Seattle. Canadian, Seattle and California markets would take care of a large portion of the output as well.

"We have 25 cars of eggs in storage in New York," said Mr. Beernink today, "and these can undoubtedly be placed at a good profit. Prices may advance, so that local poultrymen would benefit. We can take care of all the output, so that there will be no danger of loss from deterioration in quality."

"The Dairy Association will be little affected in the event of a strike," said Mr. Zylstra. "We have been anticipating such an event, and have prepared for it. Our shipments go forward largely by boat, we use the railroad only for bringing in fuel, and we are taken care of in this direction."

## TO EXPLAIN NEW CARE FOR DISEASES OF BEES
