

BE TRIED AT SPOKANE

Shawnee Wheat Cases Sent Out of This County.

Prosecution Was Badly Surprised By This Totally Unexpected Move.

Judge McDonald of the superior court sprung a great surprise Monday on the prosecution in the cases of Chas. De France and R. E. Elliott, charged with grand larceny of wheat from the Shawnee warehouse. With the opening of court the defense filed a number of affidavits alleging prejudice throughout the county against Mr. De France and Elliott, and setting forth the assertion that a fair and impartial trial could not be had in Whitman county. The affidavits were made by the defendants themselves, J. W. Higgins, Wm. Earl, Ben Manchester, George Hazzard, J. D. Elliott, G. C. Thatcher, C. E. Thompson, G. W. Ford, W. A. Maguire, F. W. Brickner, L. B. McKay and W. H. Price.

Special Prosecutor Reed combatted this step with affidavits by Wm. Hoare, G. B. Payne, John Hart, G. W. Barker, J. D. Ellis, E. T. Coman, Julius Lippitt, Frank Maguire, S. C. Armstrong, Alfred Coolidge and C. E. Scriber. Most of these gentlemen were charged in the affidavits for a change of venue with circulating the report that the defendants are guilty and thereby creating undue prejudice against them. These gentlemen denied the allegations and asserted that a fair trial could be had.

No argument of the matter was permitted and Judge McDonald granted a change of venue to Spokane county.

The move was a complete and confounding surprise to the prosecution, as these lawyers had been led into the belief that no change of venue would be granted, but that another judge would sit in the trials. Judge McDonald had applied, as they knew, to Governor Rogers for another judge. The governor sent Judge Kean of Tacoma, but just before his arrival Judge McDonald granted the change of venue.

The attorneys for the prosecution refuse to abide by the order of Judge McDonald granting the change of venue. Appeal has been taken to the supreme court, for two reasons—that the granting of the motion was an abuse of the discretion of the court, and that the court was disqualified from rendering a fair and impartial, or any, decision in the case.

Jury Found Insanity.

Upon his arrival Judge Kean opened the trial of Lark David of Palouse, charged with stealing a horse and saddle from Wm. Gribble. David is an adopted son of Mr. and Mrs. C. K. David of near Palouse. He was put upon trial under his true name of John H. Davis. He was defended by Trimble & Pattison. Since his arrest strong efforts have been made by his parents and friends to prove insanity. In a hearing had a few days before the trial David was pronounced sane by physicians. Nevertheless, his defense was based upon the plea of insanity, and a jury found him not guilty because of insanity. The jury hung out through Tuesday night and until Wednesday afternoon at 2 o'clock, standing at eleven for acquittal because of insanity to one for conviction. The evidence that he took the horse was conclusive.

David was immediately rearrested upon an Idaho warrant for grand larceny. The charge is one of selling several cords of wood not his. If he is not extradited upon this charge steps will probably be taken to send him to the Medical Lake asylum for insane, where the jury says he belongs.

Disposal of these cases brought an adjournment of the court Wednesday evening until Monday, when the murder case of Wong Yee, a Chinaman, is set down for trial. Judge Kean will remain and try the case.

Nessly Discharged.

The more or less celebrated case against J. E. Nessly, charged with improper conduct while a deputy sheriff during populist rule, over which he and Judge McDonald have been having so much trouble, was discharged from the docket Tuesday by Judge Kean. The motion for dismissal was made by Judge Hanna, Nessly's attorney, and seconded by Prosecutor Inman, who stated that he had been promised time and again convicting evidence in the case, but that it was not forthcoming and he had no other alternative than to agree to dismissal. Judge McDonald was rather furious.

Clifford As a Witness

W. H. Clifford, serving a sentence of three years for larceny of grain from the Shawnee warehouse, was brought up Sunday from the Walla Walla penitentiary by Sheriff Canutt. He was returned on an order from Judge McDonald to be used as a witness in the trials of Chas. De France and R. E. Elliott. But with the change of venue in these cases granted by the court there was no use for him and he was returned to the penitentiary Wednesday in charge of Deputy Sheriff Carter. Clifford is employed in the jail mill.

Forty Pound Fleece.

H. S. Hollingsworth returned a few days ago from Sacramento, California, with a band of blooded sheep. One French Merino buck, purchased by him for Phil Cox, furnished a wool fleece soon after arrival weighing 40 pounds. The average clip of Palouse sheep is ten to twelve pounds. Mr. Hollingsworth brought 93 head altogether, purchased from Glide, the famous California breeder.

Census of Colfax.

The census enumeration of Colfax is complete, but Enumerator Smith is not permitted by his instructions to give the result until tabulated and verified at headquarters. It is not probable, however, that the population of Colfax, as shown June 1, will reach 2500. June is a bad time to enumerate in Colfax, as hundreds who make the town their home during the winter months are absent then.

Fourth at Farmington.

Farmington celebrated the glorious Fourth in a betting and patriotic way. The News told the whole story, referring particularly to a Colfax lover of sports as follows: "The crowd then repaired to the baseball grounds where the most closely contested game of the season took place with about 700 people as witnesses the fun. The game was called

promptly at 3:15. George Donovan, of the Colfax nine, umpired the game, and he is deserving of special mention for the able and just manner which characterized his work throughout."

Released From Jail.

Ed. Ellis, who has spent three months at the county jail on a sentence of six months' imprisonment and \$500 fine for an assault upon Robert Crabtree, was released Tuesday by order of Judge McDonald. He left at once for the country, where he has employment.

THREE HUNDRED FIFTY LOSER

Fred Brown Out That Amount On Stolen Cattle.

Fred Brown, the stock buyer, was a few weeks ago beaten out of \$350 by a cattle thief who gave his name as E. A. Allen. The man telephoned Brown a day or two before the purchase of 14 head of cattle and was met at Moscow by Brown. Allen claimed to have brought the cattle from Leonard, Idaho. His business was transacted in daylight and Mr. Brown never suspected any irregularity. He bought the fourteen head for Carson Bros. of Seattle and gave Allen a check for \$350.

Two or three days later a stockman named J. W. Crea, and Sheriff McLean of Idaho county, Idaho, who had tracked the thief, appeared and took every hoof of them from Brown. They had been stolen from Crea at Camas prairie, Idaho. Mr. Brown had no recourse, as the thief had cashed his check and disappeared, but Sheriff McLean feels confident that he will soon be apprehended, as he is known to the Idaho officers.

A NEW SCIENCE.

Dr. Lillabelle Patterson, formerly of Minneapolis and a graduate of the Northern Institute of Osteopathy at that place, has been in Colfax for several days looking the city over with the view of opening an office here for the practice of her profession. Being favorably impressed with her inspection of the city, Dr. Patterson has concluded to locate here and has opened offices in the Hollingsworth cottage on Mill street, opposite the court house.

As there are many who do not yet understand the term "Osteopathy," or what can be accomplished by this method of treatment, Dr. Patterson gives the following brief explanation, together with a partial list of ailments in which the therapeutic system she represents has been particularly successful.

Osteopathy is the new science of curing disease without the use of drugs, knife or stimulants. Although Osteopathy is a drugless science, there is nothing miraculous or supernatural about it. Its apparently marvelous cures are effected by purely scientific methods and an advanced understanding of the laws of life. The Osteopath views the human body as a highly organized and perfectly constructed machine. Being equipped with a thorough and minute knowledge of anatomy and physiology, the Osteopath is enabled to trace the origin of all the ills of mankind to some abnormality of bone, muscle, tendon, artery, vein or nerve, and by the skillful readjustment of the parts, to restore harmony to the entire machine and thus enable nature to reestablish perfect health. In brief, Osteopathy is nothing more or less than an adjustment of the abnormal conditions of the human body. With all the members and parts of the body in their proper position, and performing their proper functions, we have a case of perfect health.

The following is a partial list of diseases, the causes of which are almost invariably discovered and removed by Osteopathy, thus ridding the patient of the ailment: Cystitis, Neurasthenia, Lumbago, Female Trouble, Constipation, Necrosis, Protrusion of Uterus, Infant Consumption, Tumors, Asthma, Rheumatism, Dropsy, Obesity, Heart Trouble, Dyspepsia, Enlarged Glands, Diabetes, Cancer, Hemorrhoids, Catarrh, Dementia, Hip Joint Disease, Gastritis, Myopia, Neuralgia, Bed Wetting, Impotence, Deafness, Curvature of Spine, Typhoid Fever, Conjunctivitis, Epilepsy, Gastralgia, Vermianation, Hernia, Bunions, Dislocated Joint, Sprained Joint, Astigmatism, Strabismus, Paresis, Locomotor Ataxy, Appendicitis, Polypus of Nose, Gout, Bronchitis, Varicocele, Leucoma, Chorea, Atrophy of Limbs, "Growing Pains," Varicose Veins, Lack of Assimilation, Eczema, Enlarged Testis, Tonsillitis, Gall Stones, Flux, Milk Leg, Insomnia, Pterygium, Granulated Eyelids, La Grippe.

Dr. Patterson makes no charge for consultation or examination, and will be pleased to explain more fully her system of treatment to any who care to investigate.
