

A NEW COMMISSIONER

Wm. Huntley of Endicott chosen in Hinchliff's Place.

Took Hold of the Work With a Grasp Which Shows His Competency.

The board of county commissioners was reorganized this week by the appointment by Commissioners Willard and Swank of Wm. Huntley of Endicott, to fill the vacancy created by the resignation of Chas. N. Hinchliff, elected as a populist, who, when he found he could no longer dominate and dictate, found it convenient to resign and accept a nomination for the same place from the democrats. He was among the first to realize the decadence and decay of the populist party, and only one man beat him in the mad race into the democratic slough of defeat and despond. That was Cass Crow, who itches to be state senator.

In the reorganization of the board Commissioners Willard becomes chairman. Next month, the first Monday in August, the commissioners will sit as a board of equalization, to adjust county taxes. Any complaints in regard to taxation must then be made.

Commissioners' proceedings for July 2, 3, 5 and 9, 1900.

The board of county commissioners met in regular session July 2nd, 1900.

Present, Commissioners Willard and Swank.

Miscellaneous.

William Huntley was appointed county commissioner for the Third commissioner's district, to fill the vacancy caused by the resignation of Chas. N. Hinchliff.

The resignation of F. E. Ellis, justice of the peace in precincts 44 and 52, was accepted and E. D. Kincaid was appointed to fill the vacancy.

The resignation of W. D. Marsh as justice of the peace, in and for precinct 15, was accepted and C. W. Shoup appointed to fill the vacancy.

A list of fifty warrants drawn six years ago and not called for were ordered cancelled.

The appointment of G. W. Davis as special deputy sheriff, without pay, was approved.

The employment of John F. Fuller, on Whitman county plat books was ordered discontinued.

The sum of \$50 was ordered transferred from the road and bridge fund to the credit of road district 54.

The appointment of P. H. Clark as special deputy sheriff was approved.

The bid of the Commercial Printing Co, for the doing of the county printing for the year ending June 30, 1901, for 25 cents per inch each insertion, was accepted, it being the only bid presented.

The certificate of S. C. Roberts, forming school district number 154, was approved.

On reapplication of G. A. R. Post No. 88, John W. Brim was made an allowance of \$10 per month.

On requisition of G. A. R. Post No. 19, Mrs. Thos. Williams was made an allowance of \$10 per month, for six months.

KAMIAK.

We had a hard rain on the Fourth, lasting nearly an hour. On that account some of the Kamiake people who pulled to Pullman, had to stay till the next day.

Louis Gupit, Ethel Skeen, and Linnie Hughes spent the morning of the Fourth at Palouse and attended a dance at Princeton at night.

Mrs. Mammie Loving of Guy visited Mrs. Whitney last week.

Neil Lyman and Mark Merton have gone to the mountains to fish.

Miss Ethel Berry was visiting her sister, Mrs. Will Torrey, last week.

Mrs. Hettie Robinson gave a basket dinner to Kamiake friends and neighbors on the Fourth.

Miss Laura Stevens was married on the Fourth to Otto Smith of Palouse. Their many friends wish them happiness and prosperity.

On the last day of school a basket dinner was given at the schoolhouse. Afterwards the following program was given:

Miss Leinberger has been the efficient teacher.

The Red Cross lodge met Tuesday night. It has a membership of twenty.

Rev. R. H. Parker was calling in this neighborhood Tuesday.

CLEAR CREEK.

Warm, dry and very dusty. Canning, preserving and drying fruits is the necessary work incumbent on the busy farm wife and help just now.

The recent rains were very much appreciated in this part of the moral vineyard.

Our idea of the food question is for every farmer to produce his own milk, butter, eggs and meat, and sell as much as possible, but never buy.

Wheat, oats, barley and grass look well.

The song of the reaper is heard in the land. Haying progressing finely.

Hiram Mitchell of Colfax was the guest of Mr. and Mrs. Cal. Short last week.

Mr. and Mrs. Badd Blackley are entertaining a daughter from Portland.

Rev. Howard P. Cromwell returned to his home in Tacoma Tuesday morning. One of the best campmeetings ever held under the auspices of the M. E. church, is now in session here on Clear creek.

Baker Miller is in Vineland this week superintending the erection of his house at that place.

Dick Hill has commenced the erection of a large barn. Carpenters from Guy are doing the work.

W. V. Ewing has a fine band of horses he expects to offer for sale in the near future.

Mr. and Mrs. Cal. Short will leave the last of the week for an outing on St. Joe lake.

Harry Hughes' threshing outfit is all in order for "biz" and the jobs spoken for indicate a long run.

W. A. C. SUMMER SCHOOL.

The ladies of the summer school gave a very enjoyable entertainment at Stevens hall last Friday evening, the chief part of which was a game called "Girls and Girls." The prize, a handsome pair of picture cards, was won by Miss Cass.

About a dozen of the young men of Ferry hall met Saturday evening on the balcony over the main entrance and gave a short vocal concert, which sounded extremely melodious in the calm evening air. Come again, boys, and stay longer.

About thirty of the students went with Prof. Spillman out to the experimental farm last Friday afternoon, and

the enlightenment he gave concerning plants and grasses would be of inestimable value to the Palouse farmer.

His talks and explanations were very interesting to his hearers, and by them the information will be carried to nearly all parts of the state.

Prof. Roberts of the W. A. C. gave quite an interesting talk on the "Science of Sanitation," Tuesday morning.

The enrollment for the summer school has now reached the gratifying number of 175, representing almost every county in eastern Washington.

Some interesting facts were revealed by the spelling drill given Monday. For instance, of 105 who wrote the list, 63 missed the word "sieve."

The class in "femininity" is increasing daily, or rather, nightly.

Christian Science Chapel.

The Christian Scientists of St. John held their first service Sunday, July 1, in their new chapel, built and neatly fitted up for their use by a zealous adherent, to express his gratitude for the healing of his wife through Christian Science. The service consisted of the usual devotional exercises, the regular lesson-sermon, composed of bible texts corroborating passages from "Science and Health, With Key to the Scriptures," by Mary Baker G. Eddy, which is the text book of that denomination. The church was decorated with many beautiful flowers and filled to the doors by an attentive audience.

Not a Word of Truth in It. Colfax, Wash., July 7.—I desire to say that a certain scandalous report being circulated on me by one Dave McNabb is a wilful and malicious lie, told for revengeful purposes, and not one word of truth in it. J. W. DAVIS.

Care of Sand Roads.

The more one improves the drainage of a sand road the more deplorable becomes its condition. Nothing will ruin one quicker than to dig a ditch on each side and drain all the water away. The best way to make such a road firm is to keep it constantly damp. Very bushy or shady trees alongside such roads prevent the evaporation of water.

The usual way of mending roads which run over loose, sandy soils is to cover the surface with tough clay or mix the clay and sand together. This is quite an expensive treatment if the clay has to be transported a great distance, but the expense may be reduced by improving only eight or ten feet or half of the roadway.

Wasting Public Money.

The building of macadam roads offers opportunities for manifold mistakes and for an enormous waste of public funds. If ever it be true that what is worth doing is worth doing well, it is emphatically true in the building of stone roads. If a macadam road cannot be built right from the start, it had better not be built at all to prevent a needless waste of money. Every good macadam road testifies to the value of durable highways, while every stone road improperly built throws a shadow of doubt upon the movement for better roads.—Otto Dornier.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful stomach and liver remedy, and he writes: "After taking two bottles I was wholly cured."

A trial proves its matchless merit for all stomach, liver and kidney troubles. Only 50c Sold by The Elk Drug Store, F. J. Stone, Prop'r.

Interesting to Lovers of the Dog.

If you want to make friends with a dog, you will find that there is nothing that this animal likes better than to have some one rub his ears. If you will take a dog's ears and curl them softly up in your hands and squeeze them very gently, you will make a canine friend very soon. If the dog wears a collar, you can add greatly to his comfort by scratching that part of his neck where the collar rests. These same methods are said to be used by dog stealers.

Household Brevities.

A silver polish can be made by mixing a few drops of ammonia with whitening and adding enough water to the whole to make it the consistency of cream. It can be bottled and if corked tightly will keep as long as desired. It cleans silver without hard rubbing.

When cut flowers become wilted, they may frequently be freshened by clipping off the ends and dipping the stems in hot water for a few moments.

Rubber heels for all shoes are highly spoken of by many women who first learned the advantage of them from wearing golf shoes. The heel is about half an inch in thickness, and its advocates say that its use lessens the jar of walking, especially upon city pavements.

If a little sweet oil be rubbed on knives which are to be laid away, they will not rust if rolled in tissue paper and kept in a dry place. Sometimes, too, if the rust be not too "fixed," it can be removed by careful rubbing with sweet oil, though coal oil is even better.

Was It a Miracle?

"The marvellous cure of Mrs. Rena J. Stout of consumption has created intense excitement in Cammack, Ind.," writes Marion Stuart, a leading druggist of Muncie, Ind. She only weighed 90 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 37 pounds in weight and was completely cured." It has cured thousands of hopeless cases, and is positively guaranteed to cure all throat, chest and lung diseases. 50c and \$1.00. Trial bottles free at The Elk Drug Store, F. J. Stone, Prop'r.

Dr. Buck's Celery, Sarsaparilla and Dandelion Compound, for that lazy feeling. Purifies the blood; makes one feel good. Sold only at The Elk Drug Store. Call on H. W. Goff for INSURANCE.

WATER BREAKS.

Proper Way to Prevent Washouts on Hillsides.

In order to prevent the washing out of earth roads on hills, it sometimes becomes necessary to construct water breaks—that is, broad, shallow ditches arranged so as to catch the surface water and carry it each way into the side ditches. Such ditches retard traffic to a certain extent and often result in overturning vehicles. Consequently they should never be used until all other means have failed to cause the water to flow into the side channels. Neither should they be allowed to cross the entire width of the road diagonally, but should be constructed in the shape of the letter V. This arrangement permits teams following the middle of the road to cross the ditch squarely and thus avoid the danger of overturning. These ditches should not be deeper than is absolutely necessary to throw the water off the surface, and the part in the center should be the shallowest.

Unfortunately farmers and road masters have a fixed idea that the one way to prevent hills, long and short, from washing is to heap upon them quantities of those original tumular obstructions known indifferently as "thank-you-ma-ams," "breaks" or "hump-mocks," and the number they can squeeze in upon a single hill is positively astonishing.

The more one improves the drainage of a sand road the more deplorable becomes its condition. Nothing will ruin one quicker than to dig a ditch on each side and drain all the water away. The best way to make such a road firm is to keep it constantly damp. Very bushy or shady trees alongside such roads prevent the evaporation of water.
