MATTER NOT SETTLED

Democrats May Have Candidate for Lieut. Governor.

May Even Nominate for Governor, but Republicans Will Prepare for Emergency.

Chairman J. H. Shively of the republican state central committee explains that the early meeting of the committee to fix a date for the state convention is for the purpose of enabling several counties that wish to have early conventions to work under a definite understanding. As to the state convention, Mr. Shively says he is strongly in favor of the late convention, and a short campaign on the grounds of economy.

The regular state ticket this year ordinarily would contain only the names of three candidates for congress and one candidate for judge of the supreme court. The succession of Lieutenant Governor McBride to the governorship through the death of Governor Rogers in January, however, aroused in the minds of some a question as to whether Governor McBride should serve our the full term of Governor Rogers or only until the next general election, and also the question as to whether the vacancy in the office of lieutenant governor should be filled by an election by the people this fall, or whether the senate should elect its presiding officer after convening. The subject was material for considerable discussion early in the year, but the opinion became generally prevalent that the law did not contemplate the election of either a lieutenant governor or governor this fall under existing circumstances.

The talk on the question had completely subsided until within the last few days, when a rumor was started that the leaders of the democratic party were planning to name a candidate for lieutenant governor, and possibly a candidate for governor, this fall. Mr. Shively said that he believed the rumor was well founded, and that the democrats would make nominations for those offices. Mr. Shively believes, however, that the secretary of state will refuse to place on the ticket the name of any candidate for lieutenant governor or governor. The probable action of the democrats in that event would be the taking to the supreme court of a mandatory proceeding to compel the secretary of state to take such action. Of course the action of the supreme court in the matter would be problematical, but Mr. Shively stated that the republicans would be prepared for any contingency; that they would not allow the democrats to run in candidates for the two offices while the republicans had none. It is probable that if no action has been taken in the matter by the time of the republican convention, the executive committee will be empowered to name candidates for governor and lieutenant governor, in the event the supreme court should decide that one or both of the officers should be elected this fall.

Henry Drum, chairman of the democratic state central committee, declines to discuss the question. He volunteered the information, however, that a number of very bright lawyers in the state held the view that there was a vacancy in this fall in one of the offices mentioned. Mr. Drum said that no day had been decided on for a meeting of the democratic state central committee.

Our Locomotives the Best.

The ten new locomotives recently sent to France have been found very satisfactory, and as this number is only the first shipment of an order for fifty of them, it shows that foreign people appreciate the value of American products. There is another American product that has become very prominent during the past fifty years, and that is Hoetter's Stomach Bitters, the standard medicine for stomach, liver and bowel complaints. Many people who have experimented for years with unknown remedies without finding relief, have been brought back to health by its use. Then this is surely the medicine for you. It will cure dyspepsia, indigestion, constipation, flatulency, and malaria, fever and ague. We urge you to try it. Our Private Stamp is over the neck of the bottle.

Eighty-four survivors at Bayan surrendered unconditionally this morning. Sultan Bayan, Raja Munda Bayan, Sultan Pandapattan and all the leading dattos are dead and many of their followers. The assault on the principal fort, which surrendered last night, was one of the most gallant performances for American arms. Colonel D. Baldwin and his regiment deserve all praise

for hand to hand struggles in four lines of ditches under the walls of the fort. These trenches are filled with Moro dead from rifle fire. I have never seen or heard of any performance excelling this gallant fight. It is my painful duty to report that the overthrow of Moro power was not accomplished without severe loss. One officer and seven enlisted men killed; four officers and thirty enlisted men wounded. It is impossible to state the number of Moros killed, many lying in tall grass. Some of the Moro wounded tried to stab soldiers trying to help them. The surrender saves us from a siege starving out the garrison. It was impossible to have carried works without scaling ladders, which were ready. In light of present knowledge we could have besieged the principal fort and in time forced the surrender, but by attacking them they have been completely crushed—the only kind of lesson these wild Moros seem to be able to profit by."

War Clouds Breaking Up.

Pretoria, May 6.—The peace situation is developing encouragingly. According to reliable information several of the nearer commandos have received the burger delegates in an amicable spirit. It is considered certain, adds the paper, that all the White Star vessels will be transferred to the American flag at the earliest possible moment.
