ALL OVER THE UNION

The Important News of a Week in Condensed Form.

Happenings and Matters of Interest Reported from All Sections of the Country.

Wednesday, October 8.

Unless President Mitchell's hurried visit to New York bears fruit, the end of the miners' strike seems a long way off and prospects of sufficient coal being mined to satisfy the demand is extremely poor. Every local union of the miners' organization throughout the hard coal belt have held special meetings and decided to remain on strike until the mine owners grant them some concession.

The attempt of the New Orleans Railway company to start cars on its lines which have been completely tied up for 11 days, precipitated a long impending conflict between the strikers and those who attempted to fill their places. Although a hundred shots were fired nobody was killed, but a number were wounded. The governor of Louisiana has been appealed to for military aid to quiet rioting.

The army transport Sherman, which left Manila 38 days ago, has arrived off quarantine at San Francisco. No communication with the troops is permitted, but a magaphone message conveyed the news that there had been no sickness on the Sherman since she tied up at Nagasaki, Japan. Her passengers may be landed, but the vessel will be held for fumigation.

Delegates to the Interstate conference on the coal situation called by Mayor Mayburp of Detroit and a special committee of the common council, are arriving in that city. It is expected that 500 delegates will be present. The conference will be held in the Masonic temple. No plan of action will be presented by the mayor or committee, everything being left to the delegates.

Thursday, October 9.

The situation as to Cuba at present is such as to give government officials in Washington great concern. It is feared that Cuba is drifting away, and the evidence is multiplying day by day to mark the growth of a spirit of indifference toward the cultivation of friendly commercial relations with the United States that almost borders on hostilities. The treaty whereby the terms of the Platt amendment might be entered into by the two governments, has neither been signed or rejected by Cuba.

Delegates representing 11 states in conference in Detroit have adopted strong resolutions urging the president to institute civil proceedings looking to the enforcement of the interstate commerce act against the coal companies and criminal proceedings against their officers, and petitioning the government to condemn all the coal carrying railroads and sufficient of the mines to supply the demands of the people.

The National Irrigation congress in session at Colorado Springs, has adjourned to meet next year at Ogden, Utah. Colonel Edwin F. Holmes of Salt Lake, was elected president; Governor Bradford of Santa Fe, vice president; Anson J. McKee of Denver, second vice president; E. H. Libby of Clarkston, Wash., third vice president; Colonel H. B. Maxon of Reno, Nev., secretary.

Telegrams have passed between the officials of the Western Federation of Miners and President Mitchell of the United Mine Workers looking to complete tieup of all bituminous coal mines in the United States and Canada. The telegram of President Mayer and Secretary Haywood of the Western Federation says: "Exigencies demand that coal be mined in the United States and Canada until the anthracite strike is won. The Western Federation of Miners will co-operate to this end."

Friday, October 10.

"What do you mean by politicians? I want you and all operators to understand that I am the governor of New York, the chosen representative of 7,000,000 people, and that I am here in this matter solely in that capacity, and to relieve, if possible, an intolerable situation. And what is more, I intend to use every power at my command to do it." Governor Odell of New York made this statement to President Baer of the Reading road in the presence of United States Senators Platt of New York and Quay and Penrose of Pennsylvania. It was the culmination of a heated interview in the office of Senator Baer. The firm stand of the governor brought forth an apology from President Baer.

The broncho busting contest for the championship belt offered by the Mountain & Plain Festival association at Denver, has been finished. M. Thad Sowder of Cheyenne, Wyo., was successful in defending his title to the belt.

Owing to the urgent need of naval officers, the navy department will hold a special examination for midshipmen at Washington city on November 12, under the supervision of the civil service commission. Each United States senator and member of congress is authorized to nominate a principal and five alternates. No candidate who has failed to pass any midshipmen examination this year can be nominated for November 12. Vacancies not filled at this examination must remain over to be filled by the fifty-eighth congress.

Saturday, October 11.

One hundred of the wealthiest families in New York City are "homeless," so to speak, unable to get into their Fifth avenue mansions, simply because one union of painters and decorators is fighting another union about the question as to whether they shall consolidate or not. This is the time of year when everyone in the "fashionable set" is supposed to return to their town house. They are now living at the hotels, some having gone back to their summer homes.

At a mass meeting held in Lynn, Mass., called for the purpose of aiding

the striking coal miners, Mayor Hurly of Salem created a sensation when he said that if he had his way he would string up President Baer and the other operators to the nearest tree. Resolutions of sympathy with the miners were adopted, and a large sum of money collected.

Henry Goldstein, bartender at Levin's Chicago Liquor house in Pueblo, Colo., was shot and killed by William Lawrence, a negro, in a quarrel over 15 cents. A mob formed and ransacked the jail but Lawrence had been removed by the officers to a place of safety, thus preventing a lynching.

The statement is made that Carrol D. Wright, commissioner of labor, will retire from office in two years. For 18 years Mr. Wright has been the chief of the bureau of labor. He is now engaged in some important investigations, the completion of which will occupy the two years he expects to remain at the head of the labor bureau.

Four hundred soldiers, all well armed and under perfect discipline, are patrolling New Orleans. Martial law has not yet been declared, but will be unless some means of settling the street car strike is forthcoming.

Sunday, October 12.

The four highwaymen who held up the Burlington train near Lincoln, Neb., have seemingly distanced their pursuers. Some of the detectives and police are of the opinion that the robbers are in hiding in Lincoln or close by. The robbers secured \$33,000.

Francis H. Clergue of the Canadian-Soo has announced at Detroit that plans have been perfected for supplying that city with electricity direct from the big plant he has just completed at Sault Ste Marie, and that barring accidents, the current will be turned on by next spring. The plan when complete will furnish Detroit with 200,000 horse power. Transforming stations along the line will supply smaller cities.

This is the beginning of the week which it is generally believed will put to a test the claim of the coal operators that they will be enabled to start up their collieries if given protection and the counter assertion as expressed recently in resolutions that the strikers will not return to work without concessions, even though the entire military force of the United States should be in Pennsylvania to protect them.

The strike of street railway employees in New Orleans, which has effectively blocked traffic in that city for two weeks is at an end. The general agreement is that the men go back to work at 20 cents per hour, for a 10 hour day.

Monday, October 13.

The coal operators have agreed to the appointment by the president of the United States of a commission, to which shall be referred all questions at issue between the companies and their own employees, whether they belong to a union or not, and the decision of the commission shall be accepted by the operators. The commission is to consist of an army or navy engineer officer, an expert mining engineer (not connected with the coal mining properties), one of the judges of the district of Pennsylvania, a sociologist, and a man who, by active participation in mining and selling coal, is familiar with the physical and commercial features of the business. The operators also make it a part of their proposition that the miners shall return to work as soon as the commission is constituted, and shall cease all interference with nonunion men. The commission is to name a date when its findings shall be effective and its decision is to govern conditions of employment between the companies and their own employees for at least three years. It is not known whether the United Mineworkers will accept the proposition of the operators or not.

Tuesday, October 14.

From a thorough canvass of the situation as it exists, there is every indication that the new arbitration plan proposed by the presidents of the coal companies for ending the miners' strike will not be accepted in its present form. There is a division of opinion among the strikers, but there is no doubt that a majority feel that the offer to have the president of the United States select an arbitration commission along the lines suggested by the operators is not fair, and that it unduly limits the board. The miners, it is safe to say, will abide by the advice of the national president, in whose judgment they have the most confidence. President Mitchell declines to say how he personally looks upon the proposition.

United States Circuit Judge Gilbert has rendered a decision on an appeal in the United States court of appeals, declaring the Washington Red Cedar Shingle Manufacturers association to be a trust. The decision was concurred in by Judges W. W. Morrow and E. M. Loss. The decision says that the association is an unlawful combination in restraint of trade, and has the effect of diminishing production, abolishing competition and enhancing prices. It was an action to recover damages under the Sherman anti-trust act and was instituted in the circuit court of Washington.

Why Take Any Chances

with some new and untried medicine for such serious troubles as diarrhoea, cramps, dysentery, when you should know that for over half a century Pain-killer has cured millions of cases? Look out for imitations, there is only one genuine, "Perry Davis."

"It Goes Right to the Spot"

When pain or irritation exists on any part of the body, the application of Ballard's Snow Liniment will give prompt relief. "It goes right to the spot," said an old man who was rubbing it in, to cure his rheumatism. C. R. Smith, Propr. Smith House, Tenaha, Texas, writes: "I have used Ballard's Snow Liniment in my family for several years, and have found it to be a fine remedy, for all aches and pains, and I recommend it for pains in the throat and chest." 25c, 50c and \$1.00 at Elk Drug Store, Colfax; Endicott Drug Co., Endicott.

Take your hides and furs to Willis Bros., Colfax.

GOV. M'BRIDE IS HERE

Will Speak to the People at the Court House Tonight.

Great Champion of the Railway Commission Will Encourage the Hosts to Victory.

Governor Henry McBride, the popular advocate of the demands of the people of Washington, accompanied by the Honorable Charles Dalton of Seattle, is in Colfax. Tonight Governor McBride and Mr. Dalton will address a meeting at the court house. The indications are that this will be a monster meeting. People from all over Whitman county have been flocking to Colfax for several days to attend the county fair and be here when Governor McBride speaks. There is probably no more popular man in the state of Washington than Governor Henry McBride. Ever since he assumed the office of governor, made vacant by the untimely death of Governor John R. Rogers, Henry McBride has been working steadily, faithfully, fearlessly, for a railway commission for this state. No man is in a better position to expound its principles and, probably, no man has given it more careful consideration. Don't fail to hear the governor and Mr. Dalton at the court house tonight.

PRECINCT ELECTION OFFICERS.

Names of the Men Who Will Have Charge at the Polls.

The board of county commissioners last week appointed election officers, according to law, for all of the voting precincts in Whitman county, to serve at the election on November 4, 1902. For the information of the reader the first name appearing in each precinct is designated as "inspector" and the other two as "judges."
