

BANNER WHEAT CROP

Whitman County Will Produce Over 10,000,000 Bushels.

One of the Most Wonderful Crops Ever Grown in the Palouse is Ready for Harvest.

Harvest time is at hand. Already the clink of the binder can be heard in the fields now turning from green to gold...

There is quite a contrast in climatic conditions between the northern and southern extremes of this county, and as a consequence, there is a great contrast in harvest scenes.

This season has been an exceptionally favorable one in the Palouse country. Crops have never looked better than they do at this time...
