Real Estate Valuation

Olympia, Wash., Aug. 15.—The county boards of equalization are advised by the state tax commission in an opinion written today that they can pass upon real estate values at this year's session. The commission says: "Some confusion has arisen from the fact that while the county views values and lists real property in even numbered years, using his best judgment as the basis of valuation, in odd numbered years he lists and values real property as equalized by the county board in the preceding year. This tax roll on real and personal property is then before the county board for its consideration in a quasi-judicial capacity. There is nothing inconsistent in the board reviewing anew its findings of the valuation of the preceding year. Errors in judgment will happen and changed conditions and surroundings will frequently materially affect values from one year to another."

WAR STILL CONTINUES

Russians Are Twice Repulsed by Mikado's Army

The Japanese, Believing That Peace Will Not Be Made, Fret Under Inaction.

Tokio, Aug. 16.—An official report says: Early on August 14, in the direction of Chang Tu, a Russian force, consisting of a battalion of infantry, two sections of cavalry, eight field guns and six machine guns, attacked our position at Ershihihpa, eight miles north of Chang Tu, but was immediately repulsed. Our casualties amounted to one, and the Russians lost 35. Simultaneously three companies of infantry and two squadrons of cavalry attacked us eight miles northwest of Chang Tu. This attack was repulsed and at 2:30 the Russians retreated northward, leaving 10 dead. The Russians also made an attack on Weiyanpoomen, which was repulsed.

London, Aug. 16.—The Times correspondent with General Noyes headquarters in the field, sends the following dated August 12, by way of Pusan:

"The Japanese army is anxious to commence operations. The higher officers do not believe that the military progress has been sufficient to justify the expectation that Russia will concede the terms necessarily required by Japan. If the war continues the nature of the country and of the conditions point to the likelihood that future operations will be restricted to the neighborhood of the railway. Wide ranging movements, as suggested in the European press, are not likely to be features of the campaign, nor is it possible that any great military results will ensue this year.

Dead Returns to Life.

Des Moines, Ia., Aug. 14.—Left for dead and stripped for post mortem examination, Louis Vieli, an Italian, fearfully stabbed by a negro, astounded the hospital corps today by coming to life. The heart had ceased beating and respiration had ceased when Dr. Wilbur Conkling inserted his hand in the wound which had been made by a razor, pinched the heart and awaited developments. Suddenly a shudder passed over the frame of the patient, the pale face became suffused with a swift flush of blood, and the veins and arteries began to pulsate. In five minutes the erstwhile dead was living and the physicians proceeded to sew the gaping wounds. Local doctors declare that this case has no parallel in the annals of medical science.

Millionaire's Poor Stomach

The worn out stomach of the over fed millionaire is often paraded in the public prints as a horrible example of the evils attendant on the possession of great wealth. But millionaires are not the only ones who are afflicted with bad stomachs. The proportion is far greater among the toilers. Dyspepsia and indigestion are rampant among these people and they suffer far worse tortures than the millionaire unless they avail themselves of a standard medicine like Green's August Flower, which has been a favorite household remedy for all stomach troubles for over thirty-five years. August Flower rouses the torpid liver, thus creating appetite and insuring perfect digestion. It tones and vitalizes the entire system and makes life worth living, no matter what your station.
