

HORSE SHOW SATURDAY

The Parade Will Occur on Main Street at One O'Clock.

Gaily Comparisoned Horses and Long Eared Jacks Galore Will Be in Line.

Programs for the horse show Saturday are being printed and will be in the hands of all who so desire. Briefly stated, 25 entries of horses and jacks have been made at this writing, with the promise of at least 25 more before the final events.

The parade, which will take place at 1 o'clock p. m., will form at the court house, march south on Main street as far as the Hotel Whitman and return. After the march each individual owner will be expected to exhibit and exploit animals to suit his fancy.

C. L. Smith, industrial agent of the Spokane and Inland, will deliver an address on the policy of the new electric line when it gets to running. A large crowd may be expected, as many beautiful horses and wise-looking jacks will be in the parade.

STATE'S ACCREDITED LIST.

Professors Sisson and Timblin Making Second Examination.

Dr. Sisson of the University of Washington and Charles Timblin of the Washington State College arrived in town Monday, and, in company with County Superintendent N. D. Showalter, started on a tour of examination of the four-year high schools of the county for the purpose of putting them on the state's accredited list. This is the second and last examination. Monday afternoon was spent at the high school in Colfax. Tuesday they went to Palouse, Wednesday they were to appear at Oakesdale. Today (Friday) they are expected to be at Tekoa. At each place an evening meeting was held, which was addressed by the educators above named. The accredited list will include the names of those entitled to enter the State University or the Washington State College as they may elect.

VANDALISM RAMPANT.

Plate Glass Windows in Most of Stores Are Cut.

Malicious mischief of a serious nature has been going on in Colfax for several days this week. It is the cutting of the large plate glass windows in most of the stores on Main street, presumably with a diamond, although some claim it could be done with a sharp-pointed flint. Large plate glass is costly, many of the windows cut costing from \$100 to \$150 each. It will thus be seen that the damage done is great, as these windows can never be removed without breaking when cut, and in case of fire, when exposed to unusual heat, would fall to pieces immediately. Yesterday noon a lad about 13 years of age was caught cutting the large plate glass windows in the hardware store of Barroll & Mohney. The boy denied using a diamond, saying he did it with a knife. This is impossible, as the glass is clean cut, showing an edge, which only an instrument that can cut glass can do. This is a matter for the authorities to take in hand at once, that the vandalism may not be continued.

BASEBALL SEASON OPENS.

Saturday and Sunday Afternoons the Rooters Can Yell.

Saturday afternoon will witness the opening of the baseball season in Colfax. Work has been going on apace for several days getting the grounds in readiness, and from now on lovers of the national game will be entertained until the end of the season. Russ Hall's Butte team will be here and play with the Colfax boys Saturday afternoon. The Butte aggregation are on their way to Seattle, where they are billed to play. There will also be a game Sunday afternoon. The Nighthawks of the Spokane city league will be here to cross the diamond. The local baseball team has been strengthened by the arrival this week of Spillman and Clark from the Utah state league. The team is now complete with one exception (Johnson), who is expected to be here in time to play Saturday.

ESCAPED FROM DROWNING.

Heroic Deed of Margaret Cairns, 11-Year-Old Colfax Girl.

On Thursday afternoon as six-year-old Helen Owsley was crossing the bridge over Spring flat creek just north of James Cairns' residence, she fell into the stream, the water being quite deep, and was in imminent danger of drowning, when Margaret Cairns eleven-year-old daughter of J. W. Cairns went to the rescue. She kept her small companion's head above water until help in the person of Ed Lloyd came to assist the little girl from their perilous position. Among other things needed in Colfax is a railing on the bridge where this accident occurred.

Lost the Debate.

The Colfax High school debating team went down to defeat at Vancouver Friday night of last week, but it was not an ignominious defeat, and they came back not in the least disheartened. The decision made was two to one. They previously won in debates at Spokane, Prosser and Colfax, and their friends, of course, had high hopes that they would win in the next two finals and become the champions of the state. The debaters and Professor Nicholas, who accompanied them, report fair and honorable treatment at the hands of the Vancouverites, nothing being too good for them.

Johnston's squirrel poison is now conceded to be the best used in the Palouse country. For sale by C. H. Moore.

COME INTO MEETING.

Commercial Club Will Decide Important Matters Today.

A special meeting of the Commercial Club will be held at the office of Geo. H. Lennox this Friday afternoon at 4 o'clock to receive the report of the committee appointed to look up permanent quarters and consider plans for establishing a club home with social and athletic features. At this meeting the members will also be called upon to vote on the proposition of raising the initiation fee and dues to provide necessary funds. A full attendance is desired.

TEACHERS' SALARIES RAISED.

Graded Schools of Whitman County Paying Advance.

Most of the graded schools in Whitman county are employing teachers at a considerable advance in salaries. Garfield, for instance, now pays \$75. It looks as though teachers will be in demand. Those who receive the advance in salaries are almost sure to remain, hence the graded schools are accepting the inevitable and keeping their known and tried teachers. Teachers, with a few exceptions, have been an underpaid class of workers in most sections of the country. It requires special fitness and superior education for applicants to fill these positions, and the salaries usually paid have been out of proportion compared with professional fees received in other lines. Besides salaries and wages, as well as the cost of living, are on the advance wave, and the teachers should be in the swim.

Accidentally Shot.

Wilbur Conklin, a lad 14 years of age, who lives with Cleveland Martin six miles north of town, last Saturday accidentally sent a ball through the fleshy part of the left ring finger while handling a gun. It seems that Martin had taken the gun out in the field with a string tied around the stock and barrel so as to carry it over his shoulders. He stood it against the fence, and young Conklin, seeing a squirrel, was trying to remove this string when the gun went off, inflicting a slight wound. The boy came to town and the wound was dressed by Dr. Palamoustan.

Miss Maybelle Young is growing some beautiful flowers in pots in the telegraph office that are a delight to the eye. Among others are several tulips, one known as the parrot tulip, of a deep yellow with a few delicate spots of carmine, leaves fringed at the ends like the tuft on a parrot's head, hence its name. These add to the attractions of the telegraph office.

If the elements are not against us Saturday promises to be a red letter day in Colfax. The horse show, along with a red hot game of baseball in the afternoon, will prove a big attraction.

Coroner Crawford was called to Rosalia Thursday morning to examine into the case of a man found dead there. From what we can gather his identity is unknown, as well as the causes which led to his death. More will be given out after Mr. Crawford's return.

The grandmothers of the old Dutch Dunkard families of Western Pennsylvania have made and used "Hickory Bark Cough Remedy" and reared their families on it for a hundred years. Now you can buy it of your dealers. Ask for it, and use it, because it is pure, because it will stop your cough, because it is the best cough remedy made today. Try it. For sale by W. J.
