McCroskey & Bro.'s Drug Store.

A BITING FROST.

Cherry Blossoms Wiped Out of Existence—Other Fruit Injured.

A frost, a biting frost, passed over this part of the Palouse country last Saturday and Sunday nights. People got up each morning not only to find the ground white with frost, but in many cases to find ice half an inch thick in pails and basins where water had been left. These conditions are unusual for this season of the year, but the unusual has to be reckoned with now in dealing with climatic conditions. We are told by old timers that late spring frosts were quite common in the early settlement of the country, but that these conditions have been gradually wearing away until at this date tender fruit blossoms are rarely touched.

The late frosts have killed the blossoms on every cherry tree, and greatly damaged those on peach, apricot and pear trees. Apple blossoms are not injured. The government thermometer Saturday morning showed that it was 17 degrees above zero and Sunday morning it was 20 above.

George Reudy, the Colfax nurseryman, confirmed the conditions above given. We will probably have to look elsewhere for our cherries, and cannot count on more than half a crop of peaches, apricots and pears. Apples, always the home stand by and known as the king of fruits, give promise of a big yield, which is some recompense for the loss sustained in other directions.

On Snake river the conditions are but little different. W. L. La Follette, the large fruit grower of Penawawa, was called by telephone and reported the damage to his crop as follows: Cherries, 75 per cent; pears, 75 per cent; plums, 80 per cent. Apricots are but little damaged, while peaches and strawberries are badly damaged. He estimates the damage to his whole crop at 50 per cent.

The fields across the river are hurt to a considerable extent, but up the river at Kelly's and O'Dell's on Bishop's bar, but little damage was done.

At Culesac, Idaho, the fruit crop has been completely wiped out. Walla Walla reports the fruit crop destroyed, fruit growers feeling greatly disheartened.

Wenatchee seems to have escaped the biting frost, but reports a heavy fall of snow Saturday at the time it fell here.

THE TROLLEY LEAGUE.

Rosalia Defeats Colfax -- Palouse and Moscow One Game Each.

At Rosalia Saturday Rosalia won its second game of the Trolley League schedule, defeating Colfax by a score of 4 to 3. The game went 14 innings and was one of the finest games of ball ever seen in the Palouse country. Fast fielding and superb pitching sent the fans in motion and the crowds to yelling.

Rosalia again defeated Colfax Sunday at Rosalia by a score of 5 to 2. The game was fast and kept the large crowd of fans excited until the last man was out.

The game at Palouse Saturday between Moscow and Palouse was won by the former by a score of 7 to 5. The weather was cold and chilly, which seemed to affect the enthusiasm of baseball.

Sunday's game at Palouse between the Palouse and Moscow teams was a ragged exhibition of baseball, but the fans had plenty of yelling to do in spite of the score. Palouse won the game by a score of 12 to 8, the losers putting up a hard fight toward the finish. Eight hundred people attended the game, the gate receipts amounting to \$200. Several citizens of Colfax were present. The local band played several pieces.

Coming Events.

Saturday and Sunday Palouse and Colfax will play here, and Tuesday the John W. Graham team of Spokane will arrive. All will be interesting games, the contest promising to be close and hard fought.

North Ward Entertainment.

Last Tuesday evening the pupils of the North Ward school did themselves proud in an entertainment given at the school building. An interesting program, in the rendition of which the pupils reflected great credit on their teachers for the careful training given, was rendered and heartily enjoyed by all. The room in which the exercises were held was packed, many being compelled to stand. The receipts for the evening were \$25.20, which, after deducting the expenses, left \$5.30 for each room, which will be used for the purchase of library books and beautifying the rooms.

Teachers' Examination.

The regular examination for teachers will be held at the High school building in Colfax on May 9, 10, 11. First grade certificates may be presented to the State Board of Education after May 16, and made first grade life certificates, provided that sufficient evidence is furnished that the applicant has taught successfully for the required time.

GOFF, INSURANCE.

WHEAT, OATS, BARLEY

Acreeage of Whitman County Estimated at 775,000.

Yield Per Acre Will Be Greater Than Last Year--Prices Promise Also To Range Higher.

Well informed grain men estimate that the acreage in wheat, oats and barley in Whitman county will be about the same as last year, although the yield per acre, owing to the thorough soaking the soil received from the snows of winter and the late spring rains, will be slightly in excess of that of last year. In the southwest portion of the county the acreage is increased, much new land being brought under cultivation, while in the northeast section the acreage will be less, farmers devoting more of the land to raising potatoes and sugar beets, which promise to be profitable crops.

The total acreage this season to grain is estimated at 775,000 acres, divided as follows: Oats, 100,000 acres; barley, 5,000 acres; summer fallow, 220,000; spring wheat, 225,000; fall wheat, 225,000.

The yield of bushels per acre is estimated to be: Fall wheat, 27 1-2; spring wheat, 22 1-2; oats, 75; barley, 50.

Prices will also be good, many contracts, so it is reported, having been made for the coming crops at 60 cents. This insures a good profit for the farmer. Our wheat, either as such or manufactured into flour, is in demand over seas, and the large amount of railroad construction creates a home demand for all the oats and barley produced.

The cost of grain sacks has to be considered, the cost of jute and sacks being on the rising tide like almost everything else. The penitentiary cannot begin to supply the demand. Labor will also be high and in great demand. It will thus be seen that the farmer has his troubles as well as his joys.

THE SOCIAL SIDE.

Miss Elva Krause entertained a party of young ladies Saturday afternoon at luncheon, the affair being in honor of Miss Lacey Johnston of Washington, D. C. Covers were laid for 14, and the table decorations were in pink and white. The luncheon was followed by five hundred, Miss Stella Perkins receiving the prize for progressions. The affair was thoroughly enjoyed by all.

The Athenaeum Club entertained a large number of guests at its annual open meeting on Tuesday evening, in celebration of the twelfth anniversary of its organization. The meeting was at the home of Mr. and Mrs. A. J. Davis, and the house was beautifully decorated for the occasion with festoons of yellow and white, the club colors. There was a short musical and literary program, consisting of selections by the High school orchestra, violin duet by Miss James and Joe Urban, vocal solo by Mrs. Windus, and a paper on pioneer reminiscences by Mrs. Ivan Chase. The members of the club answered to roll call by giving humorous anecdotes. Refreshments were served, the table being beautifully decorated with yellow and white and dainty place cards assisting all to find partners. The club has recently elected a number of new members for the coming year and these ladies were the club's guests of honor for the evening.

Miss Dean Smith gave a chafing dish supper to the members of her art class in the studio on Monday evening. The affair was a most delightful one, the students, who meet once a week to work, entering heartily into the evening's enjoyment. Several persons from Pullman were present.

BORN.

Colfax, April 30, to Mr. and Mrs. Henry Larkin, a son.

"Swastika."

The word "Swastika" is derived from the Sanscrit, meaning of good fortune, well being, welfare. It is the oldest known symbol in the world and is found in prehistoric graves and mines in all quarters of the globe. It is carved upon the solid rock in the mountains of India and painted on the walls of the canyons of Arizona. It is dug out of the mines of ancient Greece, and from the graves of the Mound Builders Indians in Ohio. It is found on the Cliff Dwellers' pottery in North America, and on prehistoric pottery in Brazil. It is common in China and Japan. It appears on the forehead of gods in the temples and on the walls of the rock cut and carved temples of the Buddhas, and also on Brahmin monuments. It is placed on the breast of the dead in Tibet and ornaments the petticoats of the women of that country. It is shown in the ruins of Algeria and on the bronze ingots of aborigines in Ashantee. Many specimens have been obtained from the Indian burial mounds of the Mississippi valley and mounds of Tennessee and Georgia. At the present time some of the American Indians use the Swastika as a sacred symbol, as well as in ornament or ceremony; among them are the Kansas or Soc Indians and particularly the Navajos, Pimas and Pueblos. The Navajos weave it into their blankets and manufacture it from silver. Thus it is shown that in far as well as near countries, in modern as well as ancient times, the "Swastika" stood for blessing, as a charm or amulet, as a sign or benediction, long life, good fortune and good luck. A complete line of "Swastika" goods in brooches, scarf pins, belt pins, fobs, lockets, match safes and spoons, "at the sign of the street clock."

BASEBALL WEDNESDAY.

Colfax Beats W. S. C. of Pullman in Score of 9 to 5.

There was an enthusiastic game of ball Wednesday when Colfax and W. S. C. of Pullman measured lengths across the diamond in Colfax. The weather prevented the usual attendance, the wind springing up and threatening clouds appearing just before the time set for the game. However, it was more of a bluff than anything else, although that was not the case so far as the game was concerned. It ended in favor of Colfax by a score of 9 to 5.

The Pullman team is a bright aggregation of players. They are a muscular lot of young men, bright in intellect and a credit to the State College. They have defeated the University of Oregon team and are supposed to be the strongest college team in the state. Their line-up was as follows:

"Mack" McCully, pitcher.
"Slim" Yarrid, right field.
"Cap" Brown, captain, third base.
"Pat" Crane, first base.
"Bud" Beck, second base.
"Pud" Jones, short stop.
"Heine" Mayer, left field.
"Pop" Weller, center field.
"Shorty" Thompson, catcher.
"Bunch" Holm, pitcher.
J. R. Bender, coach.
"Blondy" Lund, manager.
"Nick" Riley, "Dud" Dudley, "Jack" McKenzie, "Mullie" Carper.

Brents Holdings Sold.

The last of what is generally known as the Brents land holdings in Whitman county was disposed of Wednesday through the real estate agency of Geo. W. Larue & Co. The land belonged to Judge Thomas H. Brents of Walla Walla and James L. Cowan of Portland, brothers-in-law. It consisted of 320 acres, unimproved, located near Mckenema, and brought \$14,000 spot cash. This is at the rate of a little less than \$45 an acre. Gottlieb Kroll was the purchaser. The land is said to be one of the choice pieces in Whitman county, every foot being capable of cultivation, the soil a heavy black loam. When unimproved land approaches the figure above given it shows that values are on the increase, and is a barometer of what the real estate market is sure to be.

The Automobile Fuel Problem.

The fuel problem is becoming a serious one for automobilists.
