

PUBLIC PROSECUTOR SCORES ON ENEMIES

Electorate Urged to Examine
Facts, Weigh Evidence.

County Has Had Services of Eminent Attorneys Instead of Inexperienced Deputy, as Democratic Candidate Proposes to Employ.

In their frantic endeavor to defeat Charles L. Chamberlin, the present efficient prosecuting attorney, the democrats are sending out circulars and making newspaper attacks in their endeavor to show that his administration has been an expensive one for the taxpayers.

An examination of the records will show that aside from assistance employed in the cases arising from the failure of the Palouse State Bank the total amount paid out or to be paid out falls below the sum of \$2000. It is a well known fact that there have been a number of important cases tried, including seven road condemnation cases. No regular deputy has been employed, but some of the best lawyers in the county have been called in to assist and the county has had the services of able attorneys, instead of an inexperienced deputy, such as the democratic candidate proposes to employ. So as a matter of economy alone Mr. Chamberlin's plan saves money, for a deputy would have cost more up to the present time than having counsel in special cases. No one will contend in the cases growing out of the failure of the Palouse State Bank but what additional legal counsel was required, no matter who the incumbent of the office might have been.

The record of his office for the first year shows that he has been diligent. From January 11, 1909, to December 31, 1909, the date of the report required by law to be made to the governor, in the superior court and justice courts there were handled 243 cases, resulting in 174 convictions. Fines were collected exceeding \$3500, which is \$550 more than his predecessor collected during his entire first term. There is no reason to doubt but what his second year will show as favorable a report as the first year.

A comparative statement of cases in the superior court shows that his record compares favorably with his predecessors. During R. M. Hanna's term of two years he had 115 cases and 46 convictions; R. H. Kipp in four years had 223 cases and 88 convictions; Charles L. Chamberlin's first 19 months, 130 cases and 56 convictions. It is also to be remembered that 40 of the cases brought during Mr. Chamberlin's term were grand jury indictments, which, as is well known, only hear one side of the case and it is difficult to secure convictions in this class of cases.

The Gazette believes that Mr. Chamberlin's administration of the office has been economical and efficient and he should be re-elected.

LETTER FROM OLIVER HALL

Without Equivocation States His Position on Public Questions.

To the Voters of the Eighth Senatorial District, Whitman County:

I have been nominated by the republicans of the eighth senatorial district as their candidate for state senator. There are many questions not mentioned in the platform of the party in which the people are much interested, and while it would be a pleasure to meet you all personally and discuss these questions I have thought it best to state plainly in the public press my position on the leading questions in which the general public is interested.

I am in favor of election of United States senators by direct vote of the people, therefore, when I filed my declaration of candidacy I pledged myself, if elected, to vote for the party's choice for U. S. senator. If elected a member of the next state senate I will vote for Miles Poindexter.

Much interest seems to be taken in proposed amendments to the local option law. I never had any use for a saloon in any form, and never could see that they were of benefit to the individual or the community, and I believe that the people of this county should have the opportunity to decide whether intoxicating liquors should or should not be sold in the county; therefore I will vote to amend the local option law so that the county will be the unit. Furthermore, I will vote "dry" when voting in any district in which I may live, no matter what the size of the unit may be.

I have been asked my position on direct legislation—the initiative and referendum. The only way in which this question can come before the next legislature is as a proposed amendment to the constitution, permitting the people to decide at the next election whether they wish to adopt the change. I shall vote for a submission of that question to the people.

I am opposed to the present state aid road law.

At the republican convention I voted to place the selection of supreme court judges under the primary law. I am still in favor of selecting supreme court judges under a similar plan to that by which superior court judges are selected, and will so vote if elected a member of the senate.

I have left what seems to me to be the most important question for the last, and that is my position in regard to appropriations. It is very easy to say, "I am in favor of smaller appropriations, so that taxes may be lower," but the question is how to obtain results along these lines. I believe that every candidate from this county will be in favor of this, but who will be in a position to obtain the best results? I think all will concede that the next state senate will be republican, therefore republicans will be given the best committee assignments, and will have more influence in controlling appropriations than any democrat could possibly have.

I have had more experience in legislative bodies than any other man in Whitman county, and should have some knowledge of how to get results.

If there is anything I have not made plain I hope my attention will be called to it, as I wish to have the same platform from Uniontown to Hooper, whether it results in my election or defeat.

OLIVER HALL.

CARD FROM MR. LAWRENCE.

A Pioneer Citizen Who Offers Himself for Legislative Honors.

To the Voters of the Seventh Legislative District of Washington:

Having lived in Whitman county since 1876, and 33 years out of 42 years of my life having been spent here, and having been engaged in farming since 1889, and having learned something of farm life, and having been a taxpayer for 20 years, I believe that I am qualified to represent the farmer and taxpayer as a representative from the Seventh district.

Two years ago I moved to Colfax, bought a home, and am now engaged as special representative for Whitman county by The Trustee Company of Spokane.

I believe that the present road law has proved inadequate, and find that the farmers of the district do not like the present law, and as the farmer is the one vitally interested I favor a change, and a new law passed along the line of township organization.

I am opposed to excessive appropriations by the state legislature, and believe that the people's money should only be spent in a way that will bring the greatest good to the many. It is necessary that our institutions should be sustained in a way that will be of credit to the state, but in doing so appropriations should be cut down to a basis which is necessary for their proper maintenance and needed improvement, allowing a reasonable amount for advancement, and all in excess of that should be left in the hands of the people to whom it belongs.

Very truly yours,
G. H. LAWRENCE.

AGENT FOR HOT LAKE.

Sanatorium Receives Railway Recognition—Service Installed.

The O. R. & N. railway company has installed a ticket and freight agent at the Hot Lake Sanatorium. This addition to the departmental staff now gives that institution a complete list of public accommodations. The Hot Lake Sanatorium now has its own postoffice, telephone and telegraph office, express and ticket office and freight agent. The depot is thoroughly and comfortably equipped. This will be thoroughly appreciated by those who visit the sanatorium. Tickets may be purchased to any point in the United States and sleeping car reservations made for all trains. All trains continue to stop at Hot Lake. The installation was made necessary by the volume of business. During the year 1909 nearly ten thousand patients were treated at that institution, and the indications for this year are even better.

Cold Feet.

chilblains, frost bite and other cold weather troubles are instantly relieved when the affected parts are rubbed with Ballard's Snow Liniment. No household should be without this invaluable remedy—relieves aches, pains, cramp, stiffness, burns, scalds, rheumatism and neuralgia. Sold by V. T. McCroskey.
