ELBERTON PEOPLE ALIVE.

Ask Governor Hay to Call Conservation Meeting at Colfax.

At a meeting of the citizens of Elberton, Monday evening, Nov. 20th, 1911, the following letter was drafted and ordered transmitted to Governor Hay: "We note in the Spokesman-Review of November 19th, a letter from yourself to Secretary Fisher calling his attention to the necessity of completing the Palouse irrigation project.

"Permit us to say that we have been studying methods for conserving the waters of the Palouse river for the past two years; have gone so far as to have conferences with Senator Poindexter and Congressman LaFollette, outlining our ideas, both of whom took great interest in the move, especially Senator Poindexter who was very much impressed with our suggestions, and requested that we continue to push the subject as in his belief it would be a great benefit to the people. Now that we find that you have so vigorously championed the improvements we feel greatly encouraged.

"If it is proper, let us suggest that you call a meeting of the people interested, at a convenient point, say Colfax, where there is ample accommodations, or some other point that you might think better situated, at a date so fixed that you will be able to attend in person. We will be glad to send representatives to explain what our findings have been or to take up any other suggestions that may be offered."

Respectfully, A. R. METZ, Chairman.

WISE TURKEYS TRAINING DOWN FOR THANKSGIVING

If only turkey birds were wise they'd read the sporting pages, Discovering there the secret rare of lengthening out their ages. By training down instead of up they'd so reduce their meat That when Thanksgiving day comes round they'd not be fit to eat, And when the buyer came along to talk with Farmer Jones He'd say, "Why, I these birds can't buy---they're only skin and bones!"

THE VICTOR!

This is the time of the year when you are thinking of buying a "Talking Machine" or Phonograph. Now, just a word before you do buy one. It is a matter worthy of very thoughtful consideration. It is not worth while spending your money for an inferior machine.

Listen to the voice of the VICTOR, to the beautiful and exclusive singers of this marvelous instrument and you will quickly decide which talking machine you want to buy. Is it not enough to know that all of the great singers of our day are singing for the VICTOR exclusively? Would MELBA consent to have her voice recorded upon an inferior instrument and thus transmitted to the world in an imperfect condition? The VICTOR alone has reached that state of perfection at which the greatest singers will allow their singing to be recorded.

Is it not a great privilege for us all to have at our command the divine gift of these famous singers? Just come in the first opportunity and we will play that exquisite song, "Lo, Hear the Gentle Lark," by Melba - and others - as many as you want to hear. VICTOR machines at \$17.50 to \$100.00. VICTOR VICTROLAS at \$15.00 to \$250.00.
