

ALL ALONG THE LINE.

Republicans Will Again Take the Reins of Government.

THE SOLID SOUTH BROKEN.

A Republican President and Republican Majority in Both Houses of Congress.

Later returns have not materially changed the national vote from that given last week. The official count stands Harrison 239 and Cleveland 162 votes in the electoral college, counting West Virginia's six votes for Harrison, though the official count may give them to Cleveland.

In the territory John B. Allen, delegate to congress, is ahead by about 6000, it is thought, when complete returns are in. So far as reported, up to the time of going to press, only five counties have given Voorhees a majority, and these majorities give a total of not much more than a hundred.

WHITMAN COUNTY.

Uniontown is still the democratic stronghold, the party vote being about four to one. The republican majority in Whitman county, as shown by the vote for military officers, is about 295. In 1886 it was 255.

The phenomenal majority of 1249 for the republican candidate for probate judge exceeds the total vote cast for the democratic candidate.

For coroner the democrats had no regular candidate, the convention nominee declining to run. Fourteen persons received votes for coroner.

Ed. Jones, republican candidate for sheep commissioner, was re-elected by a handsome plurality over the 27 persons who received votes for the office.

Clinton is the banner republican precinct, casting its entire 33 votes for Allen. The political complexion of the precinct, as shown by the vote for other officers, is 29 republican to 4 democratic.

The prohibitionists polled less than one-half the number of votes claimed by them before the election, Roger S. Green, candidate for delegate, receiving 113 in the county. The highest prohibition vote was for C. M. Kincaid, candidate for prosecuting attorney, who received 157.

The prohibition vote being so small and scattering it is omitted from the table.

COUNTY OFFICERS ELECT.

- Prosecuting attorney... L. H. Plattor Auditor... J. J. Larwood Sheriff... John McLean Treasurer... James Clark Probate judge... W. N. Ruby Commissioners... William Lee School superintendent... O. W. Bean Assessor... H. M. Boone Surveyor... F. P. Mesick Coroner... J. S. Noble FUTURE LEGISLATORS. Councilman... T. J. Smith Representatives... J. V. O'Dell TERRITORIAL. Allen's majority in Okanogan county is 64. Asotin county gave Allen a majority of 54. Yakima county gave Allen 63 majority. Clarke county gives Allen 370 majority. Lincoln county gives Allen a majority of 209. The total delegate vote in Spokane county was 4396. The vote for delegate in Stevens county is reported to be a tie. Allen's majority over Voorhees in Pierce county is 826. The prohibition vote for delegate was 84. Voorhees had majorities in Columbia, Douglas, Franklin, Mason and Skamania counties, totalizing at something over 100. In Walla Walla county the republicans elected everything but probate judge and coroner, by majorities ranging from 7 to 438. It is just 24 years since the republicans elected a sheriff in Walla Walla county, says the Journal. The last

one that held the office was W. S. Gilliam.

IN THE STATES.

Cleveland's official majority in Georgia is 60,003. Harrison's plurality in Pennsylvania is 79,879. Blaine's plurality in 1884 was 81,019. Republicans gain one congressman in Kentucky, making two in the delegation.

New York and Indiana, with their 51 electoral votes, marched out of the "doubtful" column in fine style. Ex-Senator Mahone, of Virginia, is confident that a fair canvass will give the state's electoral vote to Harrison.

The Chicago Tribune figures the next congress as follows: Senate—Republicans 38, democrats 37, with one state to hear from. House—Republicans 175, democrats 150.

The result of the election in Kings county, N. Y., was a surprise to the democratic leaders, who expected 23,000 plurality for Cleveland. The shrinkage is accounted for by the return of nagswaps and prohibitionists of four years ago to the republican party.

In Delaware the democrats have a movement on foot to unseat a republican elected to the legislature, which would make it a tie on joint ballot and prevent the election of a U. S. senator, thereby placing the appointment in the hands of the governor, who would be expected to name a democrat.

The latest tables on the complexion of the next national house of representatives show that the republicans have elected 25 members from the southern states, viz: Arkansas 2, Florida 1, Kentucky 2, Louisiana 1, Maryland 3, Missouri 4, North Carolina 4, Tennessee 3, Virginia 4, West Virginia 2. The house seems to be republican by about 15 majority.

In West Virginia the all important official count in the mountainous parts of the state is not complete, and until it is no one will know definitely whether the electoral ticket is republican or democratic. The majority cannot be more than 200 or 300 either way. The republican state committee has raised its estimate from 125 and 200 to the above figures, as it claims, while the democratic claim it from 400 to 500.

George William Curtis, chief nagswamp, accounts for Cleveland's defeat as follows: "I think the result was due chiefly to the presentation of a single issue which the president's party accepted but did not desire, which was new and unexpected to the country. Much is due also to disappointment with the president's administration of the civil service reform laws, to trading of votes, and to lack of personal popularity."

NEWS OF THE NORTHWEST.

A Week with our Exchanges—The Cream of Territorial and State News Briefly Given.

The M. E. university at Tacoma is to cost \$50,000. The Washington Central has reached Medical Lake.

Spokane Falls will soon have a corrugated iron factory. Walla Walla is to have a free delivery after January 1.

A six foot vein of good coal has been discovered near Rondo, Idaho. Ore has been found in the Pend d'Oreille district assaying \$150 per ton.

The cranberries raised in this territory are exceedingly fine flavored and very large. Two spans of the S. L. S. & E. bridge across the Snohomish river has been washed out.

The Rockford branch of the O. R. & N. system will reach Spokane Falls early next season. Miller, the murderer of Kohl at Spokane Falls who has been recaptured has confessed his crime.

The cable road between Seattle and Lake Washington has begun operations. The fare is 5 cents. The evangelist, D. L. Moody, who has been engaged in revival work on the sound, is now in Portland.

John Stanton, a woodchopper from Kamela, a frightful maniac, was committed to jail in Pendleton Thursday. The Republic notes the discovery of a fine line of coal and a large bed of lime some twenty five miles from Yakima.

The coal miners at Roslyn, unhampered by any Knights of Labor organization, are making from \$5 to \$7 a day. It is estimated that the expense of picking and drying the hop crop of King and Pierce counties this year was \$200,000.

The Oregonian states that the proposed through line of the O. R. & N. to the Missoula valley will be built without a doubt. The ore light has proved such a success at Walla Walla that the introduction of the incandescent principle is in contemplation.

A first class creamery is to be established at Silverton, Oregon. A chair factory has been put in operation and a cannery is wanted.

The German Immigration Society at Portland has sent out during the past month ten thousand circulars at an expense of \$100. Palouse City has more than doubled its population in the past year, notwithstanding almost the entire city has been destroyed by fire.—Boomerang.

The transactions in real estate in Portland thus far this year aggregate nearly \$1,500,000—over \$600,000 ahead of the corresponding period last year.

It is predicted that the Spokane & Palouse branch of the Northern Pacific will be extended to Julietta and possibly to Camas prairie in the early spring.

In Skagit county, W. T., several extensive ledges of marble have been found and thus another rich resource is discovered which will be developed at once.

Considerable eastern coin is being invested in Clatsop county timberland. The ruling rate is \$10 per acre. Ten years from now it will be worth \$100 per acre.

A pardon has been sent from Olympia by Governor Simple granting a pardon to John Wilson who is in the Walla Walla penitentiary for horse-stealing.

The Portland Daily News thinks that the O. R. & N. company will unite with the Manitoba road, and make Portland a terminal of the combined system.

Sturgeon packing at Columbia City has become quite an industry, and it is rumored that another firm is soon to engage in the business, shipping the pack to Germany.

The iron and steel company's works at Oswego, Oregon, are about commencing operations. The road from the ore beds to the stock house has been completed and ore is being dumped at the works.

The Samish lake telegraph operator named Mackay and a Mrs. Codlin have disappeared. The woman became enamored of the young operator and left a husband and five children to cope with him.

Whatcom is one of the towns that have been attracting much attention on Puget sound. Its foundations for prosperity have been laid in the shape of railroads, sawmills, docks and many other local enterprises.

The council at Walla Walla raised the license of auction houses to \$75 a quarter. This ordinance is the result of a petition of the merchants, and is calculated to curtail the business of auction establishments, creating considerable ill feeling.

A company has been formed for the purpose of manufacturing soap from a natural soap well at Buffalo Gap, D. T. The soap is skimmed from a boiling spring and hardened by exposure to the air. It is like soft clay and can be gathered with a shovel.

In payment of an election bet at Tacoma, City Attorney Thomas Carroll, democrat, bought a silk umbrella, trimmed it with American flags, draped himself in mourning and carried a flag made of a bandana at half mast, preceded by Constable Green beating a bass drum, led Capt. Thomas Brown, republican, the winner, through the principal streets, and finished by setting up dinner for Brown, Green and himself. Capt. Brown wore a Harrison hat with a crowing rooster perched on top. The affair created much amusement.

More wheat will be sown this fall in Walla Walla valley than ever before.

A certainty of a paying price next fall has stimulated every farmer to greater exertions. The surplus of the valley will keep both railroads fully employed next year. The big bore at Roslyn is now down about 700 feet. In going through a deep stratum of clay it closed down on the drill and fastened it, which caused temporary stoppage of the work. But the work is going on in the other bore, a half mile distant, which is now down about 300 feet. Work will be resumed in the first named as soon as the piping is received and the drill released.

The republican party will soon be back on its old camping grounds. It proved itself a very live corpse at the last election. It carried the day as with a rushing, mighty wind and the sound of many waters. The dead issues of free trade have been snowed under and dare not be brought to light for, these many years. The party which directed the ship of state through those years of awful commotion and bloodshed is again at her helm, and we feel assured that all will be well at Washington for four years more at least.

The mineral resources of Alaska, though hardly yet touched, are drawing tither the attention of a continent. She is being recognized, not only in her gold and silver interests, but in the possession of great coal fields, which promise at no distant day to rank first in importance on the Pacific coast. Large veins of excellent coal are said to have been discovered at different places along the coast, and a good grade of anthracite has been discovered at Lituga bay. Alaska coal will soon fill the present demand for British imported coal on the Pacific coast.

Washington territory now ranks sixteenth among the coal producing states and territories, and yet her coal has hardly been touched. At Clegham alone vast measures of the coal exist, and within two miles of the town vast mountains of iron of the finest quality have been exposed. The territory has more of both coal and iron than Pennsylvania has within the same area, and she has vastly more territory than the Keystone state. All that is needed in either Oregon or Washington to produce coal and iron enough for the world is capital, enterprise and operation to place these staple minerals upon the market.

Olympia was wild with republican enthusiasm Saturday night. At seven o'clock an immense parade started from Columbia hall and marched through the principal streets of the city. The houses along the line of march were brilliantly illuminated and presented a beautiful appearance. An army of small boys accompanied the procession with tin cans, horns and drums and made the night extremely hideous for democratic citizens. After the procession an immense public meeting was held in Columbia hall and addressed by many of the leading citizens. A well trained club, led by General R. G. O'Brien was present and did excellent service.

Miss Beatrice Sjoborg, a Danish lady of rank and refinement, who has been sojourning in Salem for some months had laid a wager with Mr. Isaac Scott, a fellow boarder at Mrs. Roddy's, to the effect that if Harrison was successful she would wheel him in a wheelbarrow from the boarding place to the postoffice, a distance of six blocks, he carrying an American flag and herring for Harrison and Morton. If Cleve land was elected the order was to be reversed. Having lost the bet Miss Sjoborg insisted upon paying it, and did so by wheeling him down through the crowded streets at 4 o'clock. The cavalcade was greeted with cheers of admiration of the clear grit displayed by the lady in redeeming her forfeit. She was placed in a handsomely decorated carriage after reaching the post office and driven home in triumph amid the hearty salutes of the crowds that lined the sidewalks.

BAPTISTS IN COUNCIL.—The Baptist convention of eastern Washington and north Idaho met in Colfax, W. T. November 8, at 7 p. m., when the annual sermon was preached by Rev. J. H. Bevan of Walla Walla, text, 1 Thes. 5:10, theme, "The disease of spiritual gifts." Friday the convention came to order with Vice-President Rev. Gen. Anns in the chair, and organized by electing him president, and J. H. Bevan for secretary and treasurer. The following ministers were enrolled as delegates and visitors: J. Cairns, E. T. Trimble, G. N. Anngs, J. H. Bevan, J. H. Teal, S. E. Stearns, E. G. Ogroat and T. G. Field. The general missionary reported six new members recently secured upon the field, and ten in all under appointment. These were supplying 21 stations and churches; whole number of church members 31; new houses of worship being built 2 amount of money being expended in missionary work \$3150; number of baptisms 40; total membership on the field 1200. No debt has been incurred and the state of the work is encouraging. When the invitation to unite with the "Northwest Convention" of western Washington came up the convention went into a committee of the whole, and after a full and fair discussion declined the invitation for the following reasons: First, the geographical nature of the country which will necessitate two agents. Second, the fact that only one convention could be held in two years in each field. Third, the inequality of financial ability of the two fields which would interfere with a just arrangement of pro rata. At 7:30 p. m. the sermon on education was preached by Rev. E. T. Trimble, from Isa. 54:2, and was an able presentation of the needs of an intellectual and moral education for the safety of government and the success of the church.

OFFICIAL VOTE OF WHITMAN COUNTY--1888.

Large table with columns for CANDIDATES and MAJORITY, listing names and vote counts for various offices.

Republicans marked r, democrats d. The precinct vote as given above is the highest total of republican and democratic vote for any office, but does not include the prohibition vote, which was 13 for delegate to congress. Adding this to the precinct vote would make the total vote in the county 2300. The republican majority in the county, as shown by the vote for military officers, is about 295, a gain of 40 over 1886.

THE GOVERNOR PROCLAIMS.

The governor of Washington territory has issued a brief but beautiful Thanksgiving proclamation. He says: "By authority of the established custom of this country, I hereby designate the last Thursday of November as Thanksgiving day for the year 1888. I recommend that on that day the people of Washington territory do assemble in their places of worship, in their school houses and society halls, in their loggers' camps and miners' cabins, on their ships and by the firesides of rich and poor, in city and country, and there give thanks to Almighty God for his infinite goodness-to us and all men. If any homeless ones be seen standing by the byways on that day, I trust that those who are more fortunate will care for them, that they may see the silver lining of the clouds and feel the sunshine of kindness for a moment, and so not despair of human nature. Such bread will return, in blessed form, to those who cast it upon the waters."

In Columbia county, Oregon, the officials are remarkably accommodating.

A special term of court was held recently at St. Helens for the purpose of granting a liquor license for the term of two years to Mr. Turner, who paid the expenses of the term.

The new warehouse being constructed in Portland will hold upwards of 1,000,000 of grain and is probably the largest on the Pacific coast. The foundation is on 1500 piles. Over 2000 tons of grain are now stored there, but it is not expected that the structure will be fully completed until February next.
