Record of Happenings of a Week in Pullman.

What People are Doing and how They are Doing it.

—The W. A. C. cadets went to Palouse Wednesday morning, over the Northern Pacific, where they have been in their annual encampment. The camp is called Camp Canfield, in honor of H. W. Canfield, president of the board of regents. This encampment will be a memorable one for the boys, as the Whitman County Veterans' Association has also been in encampment at Palouse.

—Dr. S. B. Nelson, state veterinarian, was called to Oakesdale Monday to look after a case of supposed glanders. On the farm of Mr. Hager, near Oakesdale, he found one horse already dead and two more so badly diseased with glanders that they were killed, and all other horses on the ranch were quarantined.

POINTERS ABOUT PAINT.

Devoe's ready paint is the best possible paint with present knowledge. There may be better next year; but no one knows how to make it this year. People are so accustomed to ranking white lead with a little color as best, that some paint makers, who know better, dare not admit that white lead is not the only essential to first-class paint; that zinc is essential too. We use them both. They are better together than either alone. But this is trenching on factory secrets.

Our business began in 1752, and has been continuous since. We have made and sold more paint than any other several firms in the business. We make good paint; have always made it; better now than ever before; but as good as anyone always. Else why has our business lasted these 145 years? And why have we now the largest trade in America? Have had always.

Our paint is safe to use. It is safe for the owner, safe for the painter, safe for us. But trouble happens, and nobody knows the cause. The paint is probably never to blame, but it pays us to stand the damages. We'd rather be known as paying for somebody else's mistakes than as thinking ourselves infallible. Devoe's paints are sold at Lindley's.
