

The Pullman Herald.

VOLUME XII.

PULLMAN, WASHINGTON, SATURDAY, JULY 7, 1900.

NUMBER 38

THE NEWS OF A WEEK

RECORD OF LOCAL EVENTS

Messrs. Geo. and Bert Martin of Moscow celebrated in Pullman.

The United Artisans held a picnic in Reaney's Park Friday afternoon.

Miss Fannie Bragg, a former W. A. C. student, is visiting in Pullman.

Attorney Thos. Neill and family of Colfax spent the fourth and fifth in our city.

Mrs. G. E. Carlton and daughters of Oakesdale, spent the week with Mrs. L. A. Dunn of this city.

Billy Ferbache, a former well-known citizen of Pullman is now established as chief of the W. A. C. dormitory kitchen.

Rev. Mr. Dean of Spokane will preach at the Christian church Sunday morning and evening. Sunday school and Endeavor society at the usual time.

The Local Advisory Board of the Northwestern Home Finding association will meet with Mrs. Will Chambers. Monday, July 9th. at four o'clock.

Miss Jessie Hungate left the early part of the week for Chicago where she will join Mrs. C. V. Piper. They will then spend the summer in Illinois.

A bowery dance was held last evening in Reaney's Park. The small number present showed that Pullman people do not appreciate the charms of the bowery.

Tom Busbey leaves town today for a three days pleasure trip into the country. By way of diversion while on the trip he will set up ten binders for Plough & Waters.

The fall of rain during the evening of July 4th, was the heaviest that has visited this section of the country for sometime, over an inch of water falling in a period of about two hours time.

Miss Anna M. Grimes and her brother, Wm. Grimes, who have been visiting relatives in Pullman left yesterday for Palouse, where they will spend a few days with friends and relatives before returning to their home at Eugene, Ore.

A series of entertainments have been arranged for to be given at Stevens Hall each Friday evening during the summer school. Last evening Miss Dean Smith assisted by the Misses Fritz and Davis entertained in the name of the Whitman county teachers. A very enjoyable evening was spent and the male members of the school proved themselves to be well versed in girlology.

Haying will begin Monday in full blast and the wheat will be ready to harvest as soon as the farmers can get to it. The oat crop this year will be somewhat of a failure but as many of our farmers raise barley for feed this shortage in oats will not be a heavy loss. The summer fallow wheat is looking fine, a good yield being expected. The spring sown grain will be short in the straw but the rain of the Fourth and subsequent cool weather will aid the growth very materially.

The aeronaut who made the balloon ascension and parachute jump yesterday came near ending his earthly career by descending into the network of wires on Main street. There being but, little breeze, the balloon did not drift far, and the aeronaut cut loose with his parachute while directly over the First National Bank building. His feet caught on the edge of the building, but he overbalanced and fell toward the pavement. The parachute becoming entangled in the wires broke the force of his fall, however, he escaped with a bruised hip and the loss of a quantity of epidermis.

The following named teachers registered for the summer science school during the current week: James A. Wasson, Colfax; A. C. Smith, Latah; J. W. Howe, Spangle; Zoe McKenzie, Helene Delepine, Roy Williams, Mrs. Keeney, and J. L. Webb, Pullman; W. E. Jackson, Macy Fariss, Spokane; James H. Heal, Clayton; Daisy Booth, Malving Grant, and Amanda Moerder, Moscow; N. D. Schowalter, Farmington; Bertha Pelton, Garfield; Louise Lenenberger, Elberton; Arthur P. Hanley, Kendrick; Geo. F. Harvey, and L. Laughlin, Ritzville; Georgia and Alcya Gay, Oakesdale. The present enrollment of the school has 170 and every day brings in several new candidates for admission.

Celebration a Success.

The citizens of Pullman are to be congratulated upon the success of their three day celebration. Never in the entire history of Pullman has its citizens been rewarded with such a hearty appreciation of their efforts to entertain visitors on our national holiday.

A finer morning could not have greeted the small boy as he rolled out of bed at 5 o'clock to awaken the household and next door neighbors with his merry shout of "hurrah for the Fourth of July" re-enforced by innumerable bunches of firecrackers.

By 8 o'clock the roads leading into town were lined with teams and the well sprinkled streets were soon filled to overflowing with vehicles of every description. The signs of prosperity were painted plainly upon the persons of the multitude that thronged the sidewalks, men, women and children were dressed in their best in honor of our country's independence. White silk dresses and kid slippers were no uncommon sight. At about half past nine the trains on the Northern Pacific and O. R. & N. added their quota of several hundred people, coming from Moscow and surrounding country. The accommodations provided by the railroad companies not being sufficient several box cars were used as coaches, some of the passengers were even then compelled to ride on the tops of the cars.

A few minutes after ten o'clock the parade, headed by the band, following which were the G. A. R., the president of the day and speakers, the liberty car with Miss Ada Kruegel as goddess of liberty, calithumpians, and citizens in carriages,

left the opera-house and marched through the magnificently decorated streets to Reaney's Park. Here, after the people had seated themselves in the pavilion and on the grass near by, the exercises proper were opened by the band discoursing a selection or two of very charming music. President Bryan, president of the day, made a short, earnest speech of congratulation and then introduced the Rev. Mr. Mintzer, who gave the invocation; the Declaration of Independence was read by Attorney Kimball, following which was a recitation by Miss Etta Lane. Hon. H. S. Blandford of Walla Walla then delivered the address of the day. Senator Blandford opened his address by expatiating upon the glories of our greatest of national holidays and then showed by various and unique examples how Americans were, not only a liberty loving people at home, but spread the blessed precepts of freedom throughout the world. Wherever an American citizen is found there also liberty has its abode. Mr. Blandford is a thorough expansionist, believing in the policy of the United States government in protecting the weak and in advancing civilization. In part he said: "It is not in the fighting force that the Americans have astonished the world, but in the arts of peace. We have given the world a lesson in war, but a greater lesson in the art of living. Our wealth exceeds the wealth of any other country in the world. Our trade is more extensive than that of Great Britain or any other nation. The skill and inventive genius of our workman cannot be surpassed. Today we stand at the head of the industrial world save in our merchant marine, and of this we speak with reluctance.

In closing he said: "We have now come to the parting of the ways; there is a change, this is a time for seriousness. The results of the late war have committed to our care a race of beings who have not enjoyed the privileges of liberty and it is an opportunity and duty to teach them the arts of peace and impress upon them our matchless civilization."

Following the rendering of this part of the program came dinner and in quick succession the remaining events of the day's exercises. The races passed off with but one or two "small boy fights," while the bowery dance was a complete failure owing to the indisposition of the celebrators to trip the fantastic toe. The balloon ascension and parachute jump scheduled for 5:30 p. m. was postponed on the account of the heavy rainstorm, but was successfully made on Thursday. The rain made it somewhat inconvenient for some of the people who had come from a distance and without the necessary wraps for protection against the inclemency of the weather, but all seemed to enjoy themselves and also the good things which Pullman had prepared for them. A brilliant display of fireworks during the evening made a pleasant termination to the days entertainment.

The races were kept up during Thursday and Friday, some fast horses were entered making them of much interest to the spectators.

Although the saloons were open pretty much of the time, still much praise is due the citizens and visitors for the marked sobriety which

they maintained throughout the entire three days celebration.

College Notes.

Miss Agnes Downus, '03, was in town Friday.

Misses Emily and Bernice Corner, two former W. A. C. students are attending summer school.

J. C. Lawrence and family of Garfield, guests of Mr. and Mrs. Harvey, visited the college Thursday.

There are now about one hundred and forty teachers taking their meals at the Ferry Hall dining room.

The Misses Booth, Grant and Moesder of the U. of I. are in attendance at the summer science school.

Prof. W. J. Spillman accompanied by his summer school class of school ma'ams visited the college farm grass plots Thursday.

F. Fielding Nalder, '01, editor-elect of the EVERGREEN, is now quartered in the state penitentiary at Walla Walla—serving as a guard.

Mr. Leo L. Totten, '00, will spend his vacation in the vicinity of Pullman. He expects to operate harvesting machinery on a large scale on the Bryant farms.

Prof. James H. Cowen of Cornell University has declined the appointment as professor of Horticultural and accepted a similar position in the Agricultural college of Colorado.

The construction of a small lake on the college farm near the athletic grounds will begin next week. This lake will be a great addition to the landscape, also serving as an ice pond and skating rink during the winter months.

Hon. Herman D. Crow of Spokane, farther of Denton Crow, visited the college Wednesday. Mr. Crow is a candidate for re-election in the Spokane district; we are much interested here in his success as he is a hearty supporter of the college.

Monday Prof. C. A. Barry gave an interesting and instructive talk to the summer science school in the chapel at ten o'clock, on the subject "China and the Chinese war;" the talk was illustrated by maps and views. Prof. Barry was plied with questions by the teachers which he answered to the satisfaction of all.

The new professor of English is Geo. M. Miller, Ph. D., graduate from the Indiana University in 1891. He taught in the Indiana High School for five years; was instructor in the English department in the University of Indiana for one year; took three years post-graduate work at Harvard University, receiving his doctor's degree this year. He was tendered the English department of the University of Wisconsin but declined to accept the position here where he will be instructor of English during the absence of Miss Howard and Dr. Egge.

Prof. C. V. Piper returned Thursday from Harvard college where he has been spending the winter. Prof. Piper will resume charge of the Biological department during the summer science school after which he will again return to Harvard where he will work until the opening of the college here in the fall. The professor, although somewhat worn down by hard studying, looks quite natural and seems to be pleased to be in Pullman again

greeting old friends and meeting the recent additions to our faculty and school. Mrs. Piper did not return with the professor but will visit friends in the east during the summer.

Resolutions.

WHEREAS, Almighty God in his infinite wisdom has called our beloved Sister Elizabeth Crawford from her earthly cares and sufferings and

WHEREAS, Sister Crawford was a loyal supporter of our beloved order therefore

BE IT RESOLVED, that in her death Crescent Chapter No. 53, O. E. S. has sustained an irrepairable loss and that we as a body extend to her bereaved husband, Brother Crawford, our deepest sympathy.

RESOLVED, that these resolutions be published and a copy presented to Brother Crawford.
