PULLMAN, WASHINGTON, SATURDAY, JULY 14, 1900.

NUMBER 39

THE NEWS OF A WEEK

RECORD OF LOCAL EVENTS

—At a special meeting of the school board, held Thursday evening, arrangements were made for remodelling the auditorium of the school building to make additional school room. A new stairway will be constructed, skylights put in, and 100 new desks purchased. Fire escapes will also be added. The school has been overcrowded for a long time, and with the rapidly increasing attendance some provision for more room was absolutely necessary, and this remodelling of the school auditorium into school rooms will relieve matters for a time.

—Arrangements will have to be made in the city for the accommodation of about 200 teachers during the county institute to be held here from August 1st to 7th, inclusive, and County Superintendent Roberts requests that such of our citizens as can offer room and board during that period, write to Miss Harriet Axtell, secretary, stating the number that can be accommodated, and the price asked. Miss Axtell can be addressed at Pullman, as she is now attending the summer school.

—Some weeks ago the little four-year-old daughter of Mr. and Mrs. W. D. Henry bruised its right eye, and a clot of blood gathered in the bruised spot. An operation was performed at Colfax for the removal of the clot, but as the first operation did not prove entirely successful, a second one was performed Thursday, and the tear gland of the eye was removed. It is hoped that the little one will now recover without permanent injury to the eye.

—Mrs. Outman and daughter left Monday for their home at Waitsburg. They will return to Pullman on the opening of college in September, Miss Outman being a student of that institution.

—O. H. Horton, the bridge builder, and J. Powers have purchased the threshing outfit of F. L. Titus, of Four Mile. Mr. Powers will manage the outfit during the threshing season.

—Postmaster Miller, L. B. Miller, Chas. Olmsted and M. C. True left Saturday for Priest lake, in Northern Idaho, where they will fish and lose themselves to business cares for a few weeks.

—L. E. Allen, of Uniontown, has been advanced to be chief deputy in the county treasurer's office, vice H. G. DePledge, who resigned to accept a position in a Colfax bank.

—Owing to the vigorous growth made by wild oats in some pieces of grain, there will be more hay put up than usual.

—Robt. Lyle, of Union Flat, and Miss Laura Crow were married at Moscow on Tuesday of last week.

—R. B. Bragg and family left Thursday for Medical Lake, for a two week's outing.

—Miss Marie Garrison has been visiting with friends at Colfax the past week.

—B. F. Taylor and family have gone to Salmon river, in Idaho, for an outing.

—Mrs. W. G. Frazier is at Cheney visiting friends.

—Good wagon for sale cheap. Enquire at this office.

—A. E. Alexander, of Walla Walla, is in the city.

—J. T. Bibb, the Tacoma grain man, was here Tuesday.

—A 10-pound boy was born to Mr. and Mrs. R. B. Hatley, Thursday.

—Mrs. J. C. Taylor and Miss Carrie Allen visited at Colfax Thursday.

—Mrs. I. E. Lobaugh and children are visiting friends at Wash-tucna.

—The attendance at the summer science school for teachers is now over 170.

Choice residence and business property for sale. For prices call on Barney Hatrup. 39tf

—Harry MacKay did not return from Tacoma, but is working in a ship yard in that city.

—E. E. Gallagher has purchased the Wilkinson property, on Sunnyside, of N. W. McGee.

—P. W. Chapman, who has severed his connection with the Tekoa bank, is in the city.

—Mr. and Mrs. Will Klepper came up from La Grande, Oregon, last week, for a visit with Pullman relatives.

—Thursday, July 19th, is the date of the regular meeting of the W. R. C., and a full attendance is desired. The report from the department convention will be given by the corps delegate, Mrs. Benton, and will be of general interest.

—Harvest in the Palouse country has already commenced in a small way, and another week will see it well under way, it being fully a month earlier than in ordinary years. This, with favorable weather, will put the harvest out of the way before danger from the fall rains, and will likewise have a beneficial effect on making preparations for next year's crops.

—J. M. Stinson, of Colfax, has been here this week in the interest of a publication which he is compiling, to be known as "Whitman County People and Places." It will be a general "write-up" of the county, and will contain many half-tone cuts of "people and places." It will contain about 500 pages, and an edition of 5000 copies will be published. It will undoubtedly prove of material advantage to the county in placing its merits before the people of the east, the county not having been advertised very extensively in the past few years.

—Miss Charlotte von Kloeden, daughter of General von Kloeden, of Berlin, Germany, who has just returned from an extended trip to Italy and Germany, arrived last night. Miss von Kloeden is a fine musician, being a graduate of the National Conservatory of Music in Berlin, and we hope to have the pleasure of hearing her before she will leave Pullman. She is visiting with her friend, Miss M. M. Rubendorf, who has lately opened a private summer school for the study of drawing and painting, and French and German, and music, in the W. A. Hall residence, Mechanics' hill.

Institute to be Held.

The Whitman county teachers' institute will be held in Pullman again this year, from August 1st to 7th, and an attendance larger than usual is anticipated. The institute will follow immediately on the close of the summer science school for teachers at the college, and a large part of the attendance at the school will remain and participate in the institute, and of course all the county teachers will be here.

County Superintendent of Schools Roberts has been here the past week completing arrangements for the institute, and he is more than pleased with the outlook for a successful session. A program of more than usual interest is being arranged, and with the facilities offered by the college, the institute of 1900 will result in material benefit to the teachers of Whitman county's schools.

Mr. Roberts is now arranging for an excursion to be run over the Northern Pacific from Pullman to Lewiston, by rail, and up Snake river by boat, on Saturday, August 4th, the cost of the trip not to exceed \$2 each. This will be a most pleasant feature, and will add diversion to the week's work.

College Notes.

Prof. J. C. Muerman, of Moscow, visited the college Friday.

Prof. W. J. Spillman lectured to the students of the summer school Thursday morning.

Prof. Conkling, superintendent of the Pendleton public schools, has entered the summer science school.

This evening Miss Cass, assisted by some of her friends, will entertain the students and instructors of the summer school in the dining room of Ferry hall.

Monday morning the chapel exercises included a written spelling lesson of twenty-five ordinary words. Fourteen out of one hundred and five spelled them all correctly.

Hans Mumm, '01, left Tuesday for the Buffalo Hump mining district, where, with the assistance of C. C. Carlisle, '01, he will do some surveying. Mr. Mumm has an appointment as deputy United States mining surveyor.

Prof. Beattie will visit his former home in Nebraska shortly after the close of summer school. On his return he expects to establish a department of domestic economy, having applied for a house to be occupied by a man and his wife but no children.

The students of the summer science school have decided to publish a summer school edition of the Evergreen. The following persons have been selected to edit this publication: Editor-in-chief, Miss MacKay, Spokane; associate editors, Miss Costes of Colfax, Miss Dovel, of Waitsburg, Miss Cass of Boise, Idaho, Mr. Kingsbury, of Yakima; business manager, Mr. Duncan, '00.
