CITY SHOE STORE.

NEWS OF THE CITY

RECORD OF THE WEEK

—H. F. Blanchard, who has been chief assistant in the post office for the past two years, has been appointed to a position under the agricultural department, and ordered to the experiment station in Kansas to take up a line of investigational work there. Mr. Blanchard fitted himself for work of this nature at the college here, having graduated in 1901, and adds another to the list from W. A. C. to be appointed to responsible government positions. He expects to leave for his new field of duty about September 1st. Ira Allen, of the HERALD, will succeed him in Uncle Sam's local establishment.

—J. R. Ruply was badly shaken up in a runaway Monday, at his ranch west of town. One of the lines was switched from his hand, and being unable to control the horses with the remaining line, he was thrown heavily to the ground, badly wrenching his back, and laying him up for several days. He is now recovering, though still feeling the effects of his collision with the earth. Horses and wagon escaped injury.

—Saturday evening, while leaving town to drive to their home a couple of miles east, Mrs. Annie Booth and daughter, Orpha, were the victims of a rather serious runaway accident. While crossing the bridge near the warehouses, the horse was frightened by some boys at play, and turning sharply, threw the ladies from the buggy, bruising both of them badly, and breaking one bone in Orpha's right ankle.

—The bulk of the crab apple crop has usually been a loss in the Palouse country, but now the crab tree will prove a valuable assist in the orchard. Wm. Buckley is buying up two carloads for shipment to the Dakotas, the market price being equal to that of any apple.

—Constable Hill has been in charge of a "chain gang" on the city streets this week. One recruit to the gang came because he furnished a couple of young boys with the liquor to make them beastly drunk, and another for being drunk and disorderly himself.

—Meryl Chapman, who has been suffering for the past five weeks with typhoid fever, shows some improvement, and the hope is now expressed by the physicians that her recovery will now be rapid, although she is still very sick.

—Mrs. W. T. Wells and children, of Topeka, Kansas, are in the city, the guests of the White and Pinkley families. Mrs. Wells is en route to Assinaboia, B. C., where her husband has located.

—Mrs. W. L. Lyon left for Nezperce, Idaho, Monday, where she joins her husband, who is with the Vollmer Clearwater Grain Co., at that point.

—F. E. Wells has returned from Quincy, Ill., where he remained during the winter.

—Harry Anderson is now at the money order desk in the postoffice.

—Mrs. D. L. Kemper is visiting friends at Palouse.

—Miss Ada Kruegel is at Spokane on a vacation.

—W. D. Outman is in Spokane.

—Mrs. G. B. Wilson visited Moscow Monday.

—The public school will open September 5th.

—New walks are being laid on the public school property.

—S. H. Cameron left Wednesday for his mining property in Montana.

—Mrs. L. L. Guesnier is visiting Spokane friends for a few days this week.

—Miss Cora Thompson, of Darlington, Wisc., is the guest of Mrs. Jho. W. Mathews.

—Wm. Deary, general manager for the Potlatch Lumber Co., was in the city Monday.

A rate of \$3.40 for the round trip to Spokane, next Saturday, via the Northern Pacific, to see Ringling's circus.

—H. C. Todd, who is now working in the office of the county auditor, visited his friends in this city Sunday.

—The Misses Saidee Wallis and Blanche Thayer have been visiting Mr. and Mrs. Will Wallis, at Juliaetta, this week.

—Mrs. Penny and daughter, Maude, left Monday for St. Louis and the exposition, to be absent a couple of months.

—Ronald Chapman returned from a canvassing trip last week wrestling with a threatened case of typhoid fever, and is now confined to his home.

—W. M. Chambers, general manager for the Coe Commission Co., was here during the week, after a tour through the Portland and Walla Walla countries.

—The demand for harvest help is still abroad in the land. Farmers are in town every evening in search thereof, while the thresher-whistles echo merrily over the hilltops from 4 a. m. to 8 p. m.

—Dr. Hall had a severe tussel with asthma the early part of the week. The doctor expects to leave Monday or Tuesday for the coast, where he hopes for an improvement in his health. He will open an office for the practice of his profession in some city in the sound country.

The Northern Pacific will run a special train to Spokane, on Saturday, August 20th, on account of the Ringling Bros.' circus. Train will leave Pullman at 7:45 a. m., and returning, will leave Spokane at 6 p. m. Fare for round trip, \$3.40. Tickets on sale Aug. 19th, good returning on Aug. 21st.

—Mr. and Mrs. Thompson, of the Farmers' Hotel, this city, were badly shaken up by an unmanageable team last Sunday. While on a high part of the roadway east of town their horses became frightened at a six-horse outfit which they met and backed over the grade, despite Mr. Thompson's best arguments against such a foolish move.

The fall was considerable and the rig was more or less damaged, but the occupants were lucky. Mrs. T. was thrown back into the carriage-top, and thus escaped severe contusions. Mr. T. hung to the animals and was threshed about for some time, to the detriment of his skin and Sunday-go-to-meeting clothes, but it might have been worse.

—A contract has been made with J. M. Palmerton by the Orders interested whereby a water system is to be established in the I. O. O. F. and the A.O.U.W. cemeteries, by means of a hydraulic ram which will lift water to a reservoir conveniently located on a point above the cemeteries. From this the fluid will be easily distributed upon the grounds and wherever desired, making it possible to beautify the cemeteries as they should be.

—The "Joshua Simpkins" Co., carrying its own scenery, band and orchestra, will produce this great pastoral drama at the Pullman Auditorium, next Wednesday, 17th. The play deals with country life and people, and with life in Washington city. In the 3d act a sensational sawmill effect is given, being a complete sawmill in full operation cutting up genuine timber. The saw is a genuine buzz, or circular, saw, and cuts through timber at astonishing speed. Aug. 17th.

—The city dungeons have been taxed somewhat beyond the usual, lately, owing to the heavy influx of strangers with varying dispositions when influenced by fire-water or froth. But Marshal Holt's hospitality seems always equal to the demands made upon it. And there are some pretty tough characters in these crowds, at times.

—The new assistant in modern languages at the W.A.C. is Mr. F. C. DeWalsh, a graduate of the Syracuse (N.Y.) university. He is a native of Germany and was educated at Berlin and Paris, and is unmarried. He has been engaged, of late, at the University of Arizona, and will reach Pullman about the 1st of September.

G. W. Ford will represent the Northwestern Warehouse Co. at Pullman again this year. He has on hand a few thousand grain bags, standard Calcattas, standard oat bags (large size.) Farmers should be sure to see him before buying as he can save them money. These bags must be sold as he does not intend to carry any over. (rt)

—R. C. Leuty and family are sojourning at Medical Lake for three or four weeks. Mr. L. has sold his Main-st. blacksmith business to M. B. Turpin, but will return here in September and make a specialty of shoeing and curing crippled horses, mules, etc.

—Julian Machell, who was recently sent to the Medical Lake asylum from here, died at that institution Tuesday, death coming to him during his sleep at night. The body was shipped to Pullman and interred in the local cemetery Thursday.

—It stands every one in hand to be mighty careful of fire these terribly dry days. Look out when you throw aside that half-burned match—it has caused many a million-dollar blaze.

—Mrs. Delia McMillan, who has been visiting her daughter, Mrs. G. Wagoner, returned to Tacoma this week, accompanied by Mrs. W.

—"Dan" Burns declares that the chicken he had for last Sunday's dinner was the best he ever—or would have been if—

—Coal oil in quantity has been "struck," it is claimed, in the vicinity of Pine creek, this county.

—The O. R. & N. bridge gang is overhauling some of the structures on the Moscow branch.

—Wheat is selling slow at 60c offered for club and 65c for bluestem.

—Will Wallis and wife came up from Juliaetta today.
