A FINE PROPERTY SAYS M'FARLANE

Pullman Mining & Milling Co. Has
Excellent Prospects of Valuable
Mine at Salmon River

The Lewiston Tribune published the following item, which will be of interest to the local stockholders in the Pullman Mining & Milling Co.:

For the first time in 15 years the ore dump at the Great Eastern mine, located on Snake river 10 miles above Pittsburg Landing, and about 100 miles above Lewiston, has been cleared of its contents. Captain E. G. McFarlane of the firm of Glover & McFarlane, owners of the gasoline launches "Prospector" and "Flyer," yesterday stated that the boats had carried so far about four carloads of quartz from the mine to Lewiston, and that with the shipment of the same to Tacoma for smelting an average of \$52 to the ton in gold had been maintained.

The water in the upper Snake at this time is very low, failing to permit the operation of a boat, with the light draft of the launches, necessitating suspension of service until the rise coming with next spring, although it might be possible to operate with the rise sometimes occurring during the winter months.

Captain McFarlane stated that one of the best prospects for a mine is that owned by the Pullman Mining & Milling company, located at the mouth of Salmon river. He stated that with a dynamite discharge a short time ago a ledge was broken through which, upon investigation, showed plenty of fine ore.

The Wild Goose mine, about 100 miles above Lewiston, is another property showing all signs of merit, many of the specimens taken out being unusually rich.

The money derived from the ore shipped to the smelter by the Great Eastern people, Captain McFarlane stated, would doubtless be used for driving additional tunnels and making improvements in the way of machinery. The captain reports the section as showing up well with all its resources, and said he expected an increased travel to the district with the coming year, owing to the fact that many of the mining properties at this time are showing up exceedingly well.

MEETING OF FRUIT RAISERS

Fruit growers of Pullman and vicinity will hold a meeting here tomorrow, July 19, to consider the constitution and by-laws adopted by the Central Idaho-Washington Fruit Growers association, which is a sub-central of the North Pacific Fruit Distributors association. The sub-central includes Latah county, Idaho, and Whitman county, Washington, and the headquarters are at Garfield.

MISS ROZISKEY PLEASES AUDIENCE

The second of the series of interpretive readings for the summer school students at the State College was given last Friday evening by Miss Augusta Roziskey, instructor in elocution, who chose Browning's difficult "In a Balcony" as her text. The previous readings dealt with lyrics and the dramas, and Miss Roziskey's reading was a true interpretation of the poem, which is a very difficult piece to render, even in abridged form. The reader held the close attention of her big audience from start to finish and was heartily applauded. Next Friday evening Dr. Evans, head of the Latin department, will read selections from the Greek and Latin epics.

DEMONSTRATION TRAIN ATTRACTED CROWDS

Farmers Seem Eager to Get Pointers
on Dairying and the Uses
of Cement

The agricultural demonstration train operated jointly by the W. S. C. and the Northern Pacific Ry. Co., returned Tuesday, having completed a tour including 53 towns of the Inland Empire. This demonstration train was one of the largest and most complete ever operated in the United States, including six cars of demonstration material besides a day coach, sleeper and diner for the accommodation of the demonstrators. A total of 24 instructors and helpers accompanied the train, the smallest number at any one time being 16.

One demonstration car was devoted to types of dairy cows, sheep and swine; one car to dry land tillage implements; one car to poultry; one-half car to farm power and uses of cement; one-half car to home economics; one-half car to cereals and forage crops (this section being changed to horticulture during the last half of the trip); one-half car to dairy appliances, and one car to exhibits and photographs showing the work of students at the State College.

Special emphasis was placed upon the importance of live stock to supplement other lines of farming, particularly sheep, hogs and dairy cattle. The interest in these lines was much greater than expected. In the dry belt sheep are beginning to be used as an aid in fighting weeds. A creamery has been started at Ritzville and a surprising interest was shown all through the dry belt in dairy topics. In the irrigated regions the interest in live stock centered principally upon dairying. A creamery recently started at Sunnyside is already supported by about 1200 cows. Several hundred farmers registered their names as thinking seriously of building a silo. At each stop Professor A. B. Nyström showed how to test milk and explained its importance in building up a dairy herd. With the aid of feeding charts and tables he also explained the principles and the importance of good feeding.

Mr. Charlton showed how the gasoline engine may be utilized to run a score or more pieces of farm and household machinery. As many pieces as space would permit were actually connected up with the engine and shown in operation.

Cement posts, a cement silo and a cement septic tank formed an important part of Professor Charlton's exhibit, demonstrating the value of cement on the farm.

The crowds constantly surrounding Mr. Charlton and his exhibits proved the interest in those topics.

The home economics exhibit included numerous household conveniences, a demonstration of fruit canning, a demonstration of the adulterations of textiles and tests for their detection, and an exhibition of certain important features in home dressmaking. The attendance of women was large at nearly all points and a good many men spent considerable time in this department, many business men being interested in the detection of textile adulterations.

In the College Car, illustrating student work, the exhibit of woodwork and forge work attracted special attention, much surprise being expressed at the high grade of work done by elementary students.

In the poultry car specimen birds of several leading breeds were shown and models of leading features in up-to-date poultry buildings were exhibited. The car was in charge of Mrs. Helon Dow Whitaker, a prominent poultry woman of western Washington, who discussed poultry topics in her car at all stops. About 14,000 people visited the train during the entire trip, the highest number at any stop being 700 at North Yakima. The train was considered one of the most successful ever sent out from the college.

"THE PIPER'S PAY"

The last public entertainment of the summer school students will occur at the college auditorium next Wednesday evening, July 23, at 8:15 o'clock. The attraction will be "The Piper's Pay," a clever one-act play by Margaret Cameron. The cast will be a strong one and the price of admission is only 25 cents.

PAINFUL INJURY

Emery Reid, son of Mr. and Mrs. J. M. Reid of this city, sustained a painful injury last Sunday morning. He was struck by the prong of a derick fork, which passed through the fleshy part of his left thigh. He is getting along as well as could be expected.

LOCAL BREVITIES

T. O. Morrison, head of the horticultural bureau of the state department of agriculture, has announced the appointment of W. B. Harris of Garfield as district horticultural inspector for Whitman and Asotin counties.

Miss Emily Carter, a former student at the college, who for several years has been teaching at Los Angeles, Cal., arrived in Pullman this week to look after some property which she owns here.

Mrs. J. N. Scott and Mrs. E. Maguire entertained a number of friends at the Scott home Tuesday afternoon at an elaborate luncheon and five hundred party.

Mrs. Kennedy of Seattle has been spending a few days with her cousin, Mrs. F. E. Sanger.

Mrs. Pitzer Chadwick, who had been visiting her sister, Mrs. J. N. Scott, returned to her home at Colfax yesterday.

Mrs. Regan of Butte, Mont., is visiting Mrs. A. A. Rounds.

Mrs. H. W. Sampson of Spokane came down with some friends in an automobile Tuesday and spent a few hours with her parents, Mr. and Mrs. J. A. Hungate.

A. F. Brownell has started the construction of a bungalow on the lot next his house on State street.

The O.-W. R. & N. will run an excursion from Moscow to Chatelet, Idaho, next Sunday. The train will reach Pullman at 6:50 a. m. and the fare for the round trip will be \$2.90.

Mr. Kennedy of Lewiston, Idaho, has begun the construction of a bungalow in College Park addition. The company which owns the addition will also build a bungalow which is to be occupied by A. G. Wilson, the college librarian.

A picked-up team of Pullman ball players went to Garfield this week to participate in the tournament at the M. W. A. picnic. They defeated Elberton on Tuesday but lost to Colfax on Wednesday.

Dr. Frank H. Hayward, school inspector under the London (England) council, and a noted educator, is delivering a series of lectures on various subjects before the students at the summer school.

Mrs. Mitchell, who had been visiting her daughter, Mrs. C. R. Bennett, returned Sunday to her home at Seattle.

Dr. E. T. Patee left Sunday to attend the State Medical meeting at Spokane. From there he will go to Tacoma, returning the end of the week.

F. T. Barnard returned last Friday from Salt Lake City, where he attended the annual session of the American Association of College Registrars. He says that there is little difference in the systems used by the registrars of eastern and western colleges.

Professor Bruce McCully has resigned his position as head of the department of English at the W. S. C. in order to accept a position at the University of Washington.

Rev. A. B. Clark, who has been pastor of the local Baptist church for several years, preached his farewell sermon here last Sunday. He will fill the pulpit at the Union Park Baptist church at Spokane during the remainder of the month and has not decided upon what he will do after that.

The "Rain-or-Shine" troop of Boy Scouts of Pullman, Charles Carpenter and Mac Roberts, patrol leaders, under the direction of Jay Noble and J. H. Binns, Scout Master and assistant Scout Master respectively, hiked to Kamiak Butte and back July 3, 4, 5, camping on the summit of the butte the night of the fourth.

Mrs. J. E. Lindsay was seriously injured last week by being thrown out backward from a two-wheeled cart. Her shoulder was dislocated and she sustained painful bruises. She is getting along as well as could be expected.

COLLEGE GRADUATES WED

Announcements were received in Pullman this week of the marriage on July 6, at Spokane, of Russell Arden Bankson and Ella Etna Henneck, both members of the 1913 graduating class of the State College, and well known in Pullman. The young couple will be at home to their friends after July 20, at 1729 Mallon avenue, Spokane. The groom is employed on the reportorial force of the Spokane Chronicle.

Rhubarb is such a beauty maker that women should eat it the year round. It acts on the liver and keeps the complexion clear, counteracting all tendency to biliousness.

GREAT CLEARANCE SALE

Only a Few Days More

BARGAINS! FRIDAY AND SATURDAY

Not an article packed or stored away. All summer goods must and will be sold. After the piles of merchandise that have been sold off of our counters and shelves during this great Clearance Sale, we now find space to put in plain sight more of this mammoth stock At Almost Give Away Prices
