## SO DECEPTIVE

Many Pullman People Fail to Realize the Seriousness

Backache is so deceptive. It comes and goes—keeps you guessing.

Learn the cause—then cure it. Possibly it's weak kidneys. That's why Doan's Kidney Pills are so effective.

We present the following case as proof:

L. E. Largent, stationary engineer, 405 Oak St., Colfax, Wash., says: "While living in Pullman, I was advised to try Doan's Kidney Pills and I got a box. I was not feeling very good and I had a backache. I thought that this trouble came from my kidneys as they acted irregularly and gave me much annoyance. The cure Doan's Kidney Pills gave me has lasted, and I have never had any sign of kidney trouble since. All I said about Doan's Kidney Pills when I recommended them before, still holds good."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Largent had. Foster-Milburn Co., Props., Buffalo, N. Y.

## World's Record Dairy Cows and Herds at the Spokane Fair

THE educational functions of the Spokane Interstate Fair have been advancing each year and have been factors of the strongest nature in the upbuilding of the agricultural interests of the Inland Empire. Dairying—more dairying—has been the talk of the empire builders for years, and each year the Interstate Fair has been the one exposition in which all the new herds and appliances for dairying have been gathered together for the education of the people.

The dairy display at the Spokane Fair this year will see five of the old herds that have previously displayed and at least three new herds from the Inland Empire. The Spokane country now has two cows that hold world's records, and one herd has already carried off the sweepstakes at the Chicago exhibition. Northwest breeders have no fear these days when they are placed in competition with the world on milk cows.

One of the best educational features for the dairyman at the Spokane Fair will be the large exhibit of dairy appliances which is promised by the manufacturers this year. Not only will the producers exhibit, but both the Washington State college and the University of Idaho will show the most approved and sanitary methods of caring for cattle and producing butter fat products. The model creamery, which has become a feature of the Spokane dairy exhibit will be operated again this year.

The second annual Dairyman's congress at the Fair grounds has been arranged for Thursday, Sept. 17, and a long list of noted speakers and demonstrators will be present to explain modern methods of culture and manufacturing. George W. Sisson of Potsdam, N. Y., will judge the dairy exhibits at the Fair this year and will be one of the speakers at the Dairyman's congress. He is one of the best known dairy experts in the United States and judged at the National Dairy Show and the Minnesota State Fair last year.
