

# THE PULLMAN HERALD

Devoted to the best interests of Pullman and the best farming community in the Northwest surrounding it.

VOLUME XXVII

PULLMAN, WASHINGTON, FRIDAY, JULY 16, 1915

NUMBER 41

## BELOVED MATRON ANSWERS LAST CALL

**Mrs. Margaret E. Patee Passes Away  
at Hospital Following Long  
Illness—Remains Shipped  
to Kansas**

Mrs. Margaret E. Patee, mother of Dr. E. T. Patee, died at the Rose Park hospital Friday night following an illness of several weeks duration, death being caused by a combination of heart failure and intestinal trouble.

Margaret E. Thierer was born June 13, 1846, at Weston, Platt county, Missouri, her father being Jacob Thierer, a native of Germany, and Margaret being the oldest daughter of a family of 12 children. In 1855 the family emigrated to Kansas and located upon the homestead which still remains in the family. Their house being the only one midway between Manhattan and Fort Riley, it was visited by both the traders and the Indians, and deceased has a store of interesting stories concerning the troubles with the Indians and the early days of the Civil war. In 1861 she was married to Albert Fazon, and to this union three sons were born, Charles Albert Fazon of Bellingham, Wash., William J. Fazon of San Diego, Cal., and Harry Fazon, deceased. Her second marriage occurred in 1884, when she became the wife of Dr. Eliaphel LeRoy Patee, a major surgeon in the Civil war, who practiced his profession for 51 years in Manhattan, Kansas. Dr. E. T. Patee of this city was the only child of that marriage.

Again left a widow by the death of her second husband in 1903, Mrs. Patee a few years later came west, and for the past three years has made her home with Dr. and Mrs. E. T. Patee here.

Besides her three sons and five grandchildren, Mrs. Patee is survived by four sisters and two brothers, these being Mrs. G. A. Mann, New Plymouth, Idaho; Mrs. John Martin, Junction City, Kansas; Mrs. Charles Patterson, Los Angeles, California; Mrs. Sherman Mertz, Wabannsee, Kansas; G. Thierer, Alameda, Kansas, and Edward Thierer, Manhattan, Kansas.

Funeral services were held at Kimball's chapel Sunday afternoon at 2 o'clock, in charge of the Rev. J. W. Caughlan of the Methodist church, and the large attendance and beautiful floral tributes attested the great esteem in which Mrs. Patee was held. The body was shipped Monday to Manhattan, Kan., her former home, where burial occurred Thursday. The body was laid to rest beside the grave of her husband. The remains were accompanied to their last resting place by Dr. and Mrs. E. T. Patee and the two children.

Mrs. Patee was a noble Christian woman, a wonderful example of God's handiwork. Professing the faith of Christ at an early age she exemplified that faith in her daily life, and the Christ whom she so faithfully served was her refuge in death. Endowed with a beautiful character, patient, kind, charitable, in fact, possessing every virtue that makes for true womanhood, she was at peace with her God and the entire world, and became endeared to all who knew her.

A bride during the Civil war, Mrs. Patee added her mite toward the cause of an undivided nation, and her patriotism and honor to the flag of her country increased in power with each succeeding year, and caused her to become beloved by every veteran of the Civil war. She was a prominent member of the Women's Relief Corps, and last year served as president of that organization here. She was associated with the Methodist church and was untiring in her church work as long as her health permitted.

Typical of the beautiful life she lived was Mrs. Patee's favorite verse, which was made a part of the funeral announcements:

Unto my friends I give my thoughts,  
Unto my God my soul;  
Unto my foe I leave my love;  
That is life the whole.  
Nay, there is something, a trifle, left,  
Who shall receive this dower?  
See, Mother Earth, a handful of dust,  
Turn it into a flower.

## WINIFRED WINDUS WEDS SPOKANE MAN

The marriage of Dr. William T. Phy and Miss Winifred Windus was solemnized Wednesday afternoon at Dr. Phy's home, E10 Thirteenth avenue, Spokane. The marriage service was read by the Rev. Jonathan Edwards of the Lincoln Heights Congregational church. Owing to an automobile accident Saturday night, in which Dr. Phy was seriously hurt, the wedding was quiet, only the immediate relatives of the couple being present.

Mrs. Phy is the daughter of Mr. and Mrs. W. J. Windus of Hooper and a graduate of the Washington State College. She is well known to Pullman people and her many friends here wish Dr. and Mrs. Phy unbounded happiness and prosperity. Dr. and Mrs. Phy will make their home at E10 Thirteenth avenue.

## SUNDAY SCHOOL PICNIC

The union Sunday school picnic held yesterday attracted hundreds of youngsters and grown-ups alike, who revelled all day in the city park. A program of songs, recitations, drills and talks was given and at noon a mammoth basket dinner was spread. A full account of the picnic will be printed in next week's Herald.

## FARMERS WILL SEE RESULT OF TEST

**Will Visit Experimental Tract Saturday to See Evidence of Effect of  
Previous Crops on Stand of  
Wheat**

What effect, good, bad or indifferent, have previous crops upon the stand of wheat the following year? This question, of vital interest to the Palouse country farmer, has been conclusively and authoritatively answered through an experiment conducted by the experimental staff of the State College, and next Saturday afternoon all the people of Pullman and the surrounding country will have an opportunity to observe the result of this experiment, one of the most interesting and at the same time far-reaching ever conducted by the station experts. The Hegnauer tract, one mile south of Pullman, and just east of the Chapman residence, was secured by the college for this experiment, and last year the tract, which contains 20 acres, was platted and planted to 14 different crops. This year the entire tract is in spring wheat, College hybrid No. 146, and the vast difference of the growth on the different tracts, all tilled, planted and grown under exactly the same conditions except for the previous crop, shows the great variety of effects from previous cropping, and proves the value of different grains, legumes and root plants as crops to be used in rotation with wheat.

The different plots show the effect on the growth of wheat after wheat, after oats, barley, corn, sorghum, peas, beans, millet, sugar beets, carrots, potatoes, summer fallow, etc.

All farmers and business men are urged to meet at the Flatiron building Saturday afternoon at 1:30, from there to proceed to the plots, where the experiment will be explained in detail by Professor C. C. Thom, head of the soils division of the experiment station, who had charge of the interesting test. Good roads have been made around each block of plots and automobiles or other vehicles will have no trouble in driving through the tract and viewing the different plots. The tract is within easy walking distance for those who have no other means of transportation. The experiment is a farm education in itself, and no farmer should fail to avail himself of the opportunity presented by the college people.

## ARCHERS TO FAIR

Dr. and Mrs. A. E. Archer and son, Clifford, left Wednesday evening for San Francisco, where they will visit the big exposition. From the exposition city Mr. and Mrs. Archer will proceed to Los Angeles to visit relatives, Clifford returning to Pullman. On his return Dr. Archer will stop in Portland to attend the National Osteopathic convention, which will be held the first week in August.

## INLAND TELEPHONE COMPANY TAKES OVER BELL EXCHANGE

**Local Lines Cut Over This Week and Long  
Suffering Public is Relieved---Bell Com-  
pany to Maintain Toll Station**

After being burdened with dual telephone facilities for many years, the people of Pullman and the adjacent country found welcome relief this week, when the merger contract between the Pacific States Telephone & Telegraph company and the Inland Co-operative company became effective, and the Inland company assumed control of the entire local exchange of the Bell company. The officials of the two companies came to a final understanding Monday afternoon, and Tuesday morning the work of cutting over the Bell phones to the Inland service commenced. The single Pacific telephones were first replaced by the Inland phones and connected with the Inland switchboard, and today the farmers lines are being cut over, the duplicated telephones to be removed later. It is expected that the entire cutover will be finished this week, when the local exchange of the Bell company will be a thing of the past, although the Bell toll service will be continued.

The Bell company will, for the time being, continue its toll board in its present quarters on Alder street, although the board will be connected with the Inland system and calls taken through that office. Later, however, the toll board will probably be removed to the Inland central station, where it will be operated by them on a commission basis. The Bell officials have a five-

year lease on the rooms they now occupy, but have already received applications for sub-letting the building and anticipate no trouble in disposing of their lease when the toll board is removed.

The Inland company purchased only the outside plant of the Bell company, and the interior fixtures, including the switchboard, will be stored or shipped to San Francisco, or to some point where they will be installed. Both companies will continue under their present franchises pending action of the city council on the application for a recinding of the Bell franchise and the granting of a new franchise for toll service only. The franchise tax is still a bone of contention in the city council, but the Bell tax under the present ordinance is paid until the first of next year and the Inland company is operating under a free franchise which has 12 years yet to run, thus giving nearly six months for an adjustment of the question before another tax payment is due.

The consolidation of the two concerns will give the Inland company 675 telephones, which will require the services of eight operators, besides the toll board operator. The company which now has an exclusive exchange field is purely a home concern, being owned and managed by local people, the greater part of the stockholders being prominent farmers of this vicinity.

## U. S. AGENCY AT COLFAX

L. Wood of the United States department of labor, was in Pullman yesterday acquainting the Pullman farmers with the fact that Uncle Sam has recently established a central free labor agency at Colfax, through which farmers of the Palouse country can secure farm help and laborers can find positions. The telephone number of the Colfax agency is 400 and all farmers and laborers are invited to make use of the free agency, which is in charge of a government employee. No red tape attaches to the bureau, and there are no strict rules to bind the farmer or the laborer.

Mr. Wood is an old Kansas friend of F. O. Brownson, and the two men spent an enjoyable half-hour swapping yarns of former days in the Sunflower state.

## PICNIC AT WHITLOW'S

The members of the W. R. C. and G. A. R. enjoyed a picnic last Saturday at the suburban home of Mr. and Mrs. M. W. Whitlow, east of Pullman, the occasion being in honor of the birthday anniversary of Wiley Campbell, a prominent member of the local G. A. R. A excellent program was rendered, and a basket dinner was served.

## ANOTHER ROSE FREAK

Mrs. George Ewing brought to The Herald office this week a spray of rose blossoms that would take the prize for freaks most anywhere. The spray was from a crimson rambler bush, and contained seven blossoms, of five distinct colors. One blossom was the typical crimson color, one was a decided maroon, another was dark pink, two were light pink and two were snow white. The freak is inexplicable and has attracted considerable attention.

## MEDICAL MEET POSTPONED

The meeting of the Whitman County Medical society, which was scheduled for Monday evening, was postponed indefinitely on account of the death of Mrs. Margaret E. Patee, mother of Dr. E. T. Patee, secretary of the association.

## OLSON WILL BUILD

William Swain is drawing plans for a new residence for George Olson, college chemist, which will be erected on Montgomery street, near the present Olson property. The residence will be of eight rooms and modern in every respect, and will be occupied by the Olson family.

## Wealthy Chinese to Study Here

**Anchung Kung, Son of Sing Ming Kung, Big Chinese Manufacturer, Will Take Course in Agriculture at W. S. C.**

With a view to spreading the gospel of American agriculture and agricultural methods among his countrymen in China, Anchung Kung, son of Sing Ming Kung, wealthy Chinese manufacturer, will this fall enroll at the State College, where he will take a full course in agriculture. The two Kungs are members of the Chinese delegation which is now on an extensive tour of the United States, where they are studying the conditions of this country with a view to bettering those of their own land. F. T. Barnard, college registrar, received a telegram from the president of the Seattle Commercial Club, who accompanied the Chinese delegation to San Francisco from Seattle, stat-

ing that the young man was desirous of receiving thorough instruction in American agriculture, and the registrar at once communicated with him, with the result that the foreign visitor will this fall enroll at the State College. He will arrive in Pullman within a few weeks and will spend the entire summer studying practical farming methods, especially methods of putting the wheat in the sack or tank.

Anchung Kung is well educated, being a graduate of Cambridge, and the fact that he selected Washington State College after touring through many states in the Union, is the cause of no little gratification.

A Russian youth, Wenordin by name, has also written the college officials, stating his intention of enrolling at the State College this fall, he also to take a course in agriculture and later to give freely of the knowledge gained to his countrymen.

## ELEVATOR WORK PROGRESSES

Work on the bulk grain elevator which is being constructed by Bart Armstrong of Great Falls, Mont., is progressing rapidly, the foundation having been finished today. The elevator is being erected on Grand street, just north of the J. P. Duthie building, on the N. P. tracks, and will be ready for this year's crop. Construction work will start Monday, and a force of eight carpenters will be kept busy until the building is completed, which will require about three weeks. The elevator will have a capacity of 25 carloads daily, which will be increased next year.

## SHOULD RETURN AUTO NUMBERS

Failure to comply with the law in regard to the return of the temporary numbers issued by the county auditor, after the permanent numbers have been received, is just as liable to punishment and fine as running a car without a license, says County Auditor Metz. According to Mr. Metz, a great many auto owners are guilty of the above offense and are thereby liable to prosecution. All temporary numbers should be returned to the auditor immediately upon receipt of permanent numbers.—Palouse.

## NEW BRICK BUILDING FOR MAIN STREET

**Mayor Harley Jackson Will Erect  
Building One Hundred Feet  
Square—Emmick Will In-  
stall Theatre**

Another big boost was given to Pullman's unprecedented building activities this week when Architect William Swain started upon plans for a new brick building to be erected by Mayor Harley Jackson on the property recently acquired by him on the corner of Main and Pine streets. The plans will call for a one-story building 100 feet square, to be constructed of pressed brick on the front and both sides, and the approximate cost will be \$20,000.

The building will be divided into three separate compartments, all opening on the Main street side. The west wing, 32x100 feet, will be occupied by E. F. Emmick, who will install an up-to-date motion picture house with a seating capacity of 448. The center compartment will be used as a first class restaurant and ice cream parlors, although the name of the renter has not yet been divulged, and the east wing will be fitted up for a general store building. This compartment has not yet been rented, but several applications have been received. There are rumors to the effect that Uncle Sam is considering moving the postoffice to this room, but The Herald man was unable to substantiate the rumors.

Work on the new building will be commenced as soon as the plans are completed, and it is expected that it will be ready for occupancy by October 15. The walls will be made sufficiently strong to support a second story later.

## ATTEND COLTON INSTALLATION

Several members of the local I. O. O. F. and Rebekah lodges auted to Colton Saturday evening to attend the installation of officers of the Colton Rebekah lodge. H. W. Sampson and C. A. Price drove their new Studebaker cars to Colton for the occasion. In the Sampson car were Mr. and Mrs. H. W. Sampson, Mr. and Mrs. L. R. Miller and J. S. Clark, while the other machine carried Mr. and Mrs. C. A. Price and Mr. and Mrs. E. S. Spencer.

## MOSCOW BOOSTERS WILL VISIT

The Moscow Chamber of Commerce has accepted an invitation to meet with the local chamber next Tuesday evening, when matters of importance to both towns will be discussed. A full attendance of local members is urged.

## DOW FAMILY RETURNS

D. C. Dow and family returned last Saturday from Worthington, Minn., where they spent a month with his parents. They report a very enjoyable trip.

## CHILDREN WILL FROLIC ON STREET TONIGHT

**Play Festival Will Be Held on Cor-  
ner Main and Alder Streets—  
Fifty Children in Charge of  
Miss Gladys Kaye**

Fifty Pullman youngsters will dance, romp and play on the corner of Main and Alder streets, near the Chamber of Commerce building tonight, the occasion being the first free open-air demonstration by the pupils of Miss Gladys Kaye, who recently organized supervised play classes of children to which all the youngsters of Pullman are eligible. The program of the children will include dances, drills, athletic stunts, songs and games, and all the people of Pullman, especially the parents of the children who are taking advantage of the classes offered by Miss Kaye, are urged to be present and witness the exemplification of the playground work that is being taught the young people.

The Pullman Citizens band will furnish music throughout the evening, and the entire attraction will be free of charge. The program will start promptly at 7:30.

The complete festival program is as follows:

I See You, a singing game, by girls and boys.

The Cock Fight, by boys.

Swedish Skaters' Drill, by older girls.

Dance a Little, Partner, a romp, by the kindergartners.

In the Spring, an imitation game, by girls and boys.

Backward Running Relay Race, by the boys.

Mountain March, a folkdance, by the older girls.

Shoemaker's Dance, by the kindergartners.

Today's the First, a May dance, by the boys and girls.

"Dog" Relay Race, by the boys.

Norwegian Mountain Polka, by the older girls.

Song, by Virginia Strong, aged 7.

See the Rain and My Garden, imitation games, by the kindergartners.

The Soldiers Marching, a military game, by the girls and boys.

The Tin Soldier, a "stunt" by the boys.

The Fox Trot, a society dance, by the older girls.

Irish Jig, by Virginia Strong, Louise Pinkley, Joy Barclay and Pauline Barclay.

"We'll Follow the Leader, singing game, by the kindergartners and the boys and girls.

Story by Helen Simons, aged 6.

The Favorite Horn Pipe.

Will You Follow Me, by Virginia Strong and the kindergartners.

Japanese Snake, by the boys.

The Sleeping Beauty, a child's drama, by 40 children.

## PULLMAN MAN IS INSANE

Fred N. Jacobson, for many years a familiar character about Pullman, was last Saturday declared insane in the superior court and was committed to the Eastern Washington Hospital at Medical Lake. Mr. Jacobson, who has been blind since birth, was a prominent Saint and founded the present Saint's home on the Almota road several years ago. On many occasions he has preached the Saint's doctrine.

## ROAD SHIFT SOON

Officials of the Northern Pacific company have stated their readiness to do their part toward changing the road leading from North Grand street and it is expected that the city council will take action on the matter at its next meeting. It is planned to build a new road along the west side of the track to replace the present road, which crosses the tracks twice.

## LODGES WILL PICNIC

Plans are being made by Evening Star Lodge, No. 26, Knights of Pythias, for a big picnic to be held in the near future at some point between Pullman and Colfax, on the O.-W. R. & N. The Colfax and Albion lodges will be invited to participate in the affair, which will be open to all members of the order, together with their families and lady friends.
