Mrs. E. Evens and children of Spokane are visiting at the Wm. Irwin home a few days this week.

GRATEFUL FOR ONE THING

Soldier Might Have Seen Good in Other Changes, but Not in That Last Greeting.

The man who had volunteered his life for his country came back from the western front. His experience had completely changed him. He carried within the sense of an entirely new world.

He went to Washington. He heard the speech of a senator. He saw the lobbyists consorting together. He wanted something, and he waited for it in vain.

"It is the same old crowd," he said. He met the girl he loved—with another fellow. She told him that she still loved him and that the only reason she was with the other fellow was because she was lonesome for him.

"It's the same old girl," he said. He traveled on a railroad. The guard was surly. The train was late. The food was poor. The rate was nearly double.

"It's the same old transportation—only worse," he said.

He reached his home town. He was met by a delegation and a band. Within two weeks four of his neighbors had gotten the best of him, another borrowed half his pay, and at the end of a month when he walked down Main street no one knew him because he was broke.

He went back home. There was a woman waiting for him on the doorstep.

"My baby hero!" she said. And putting his arms around her, he replied:

"Same old mother—thank God!"—Thomas L. Masson in New York Evening Post.

BIG WEEK IN HIGHWAY WORK

Contracts Totalling \$2,034,378 for Road-Building Awarded in State of Pennsylvania.

(Prepared by the United States Department of Agriculture.)

In the week ended April 12 Pennsylvania state highway officials awarded road-building contracts totaling \$2,034,378, according to messages to the bureau of public roads, United States department of agriculture, which administers the federal aid road act. This figure is believed to represent the greatest amount of road work formally contracted for in one week by any state, and is regarded as an indication of the force that will be put behind highway construction now that Americans are turning from the world war to resume the interior development of this country. Of the Pennsylvania contracts mentioned, the federal government, under the federal aid road act, is to pay \$911,407. A bond issue of \$50,000,000 for road building was recently authorized in Pennsylvania.

Shelter From Sun.

After a season of cold and rain, we are apt to forget that the sun is warming up, and chicks, ducks and geese need shelter from the sun as well as from the rain.

Business men expecting to need stenographic or clerical work during the coming college year call Miss Scurlock, Y. W. C. A. secretary, phone 230. jly4-11

When in need of new tires, give us a trial on the Federal Cord or fabric and we will guarantee satisfaction.

When Better Automobiles Are Built BUICK Will Build Them

FROM the first bubble of gasoline in the morning to the last drop at night, the economy of the Buick Valve-in-Head motor delivers a daily mileage of surprising value.

There is no question about it—the Valve-in-Head principle as designed in Buick construction is built to give an unusual mileage with assurance of continuance from the beginning to the ending of years of use.

And with economy molded together with Power—Quality and Value—makes the Buick Valve-in-Head a dependable car—as well as reliable.

Ask your local dealer to show you these advantages and you will become more thoroughly convinced that it is the car for which you have been seeking
