

PULLMAN AUTO DEALERS MAY JOIN BIG ASSOCIATION

Robert E. Magner, field secretary of the National Automobile Dealers association, was in Pullman this week urging the local dealers to affiliate with the organization and met with considerable success. In stressing the magnitude of the automobile business and the importance of a strong and nation-wide organization among the retail distributors, he cited the following facts:

People employed, 1,930,000, or 10 per cent of the people engaged in mechanical and manufacturing industries.

People supported, 3,000,000, or one-half the population of New York, all of Chicago, twice as large as Philadelphia, four times St. Louis or Boston.

Automobile salaries aggregate \$8,000,000,000. This total exceeds twice the entire annual revenue of the United States post office and is seven times that paid for the transportation of mail. Prior to the country's entrance into the war the wages paid in the automobile industry exceeded the government's ordinary expenses and was equal to three-fourths of the government's ordinary receipts, being \$1,297,000,000. The total capital invested is \$1,256,000,000, which sum is equal to the total outstanding capital stock of the nine greatest railroad systems combined. Moreover, the investment aggregates three times as large as the outstanding capital stock of the entire Standard Oil group of 35 companies and exceeds the capital of all the national banks at the end of 1917.

During the last year there were more than 5,000,000 cars in use in the country. An average of 1000 miles per year carrying, say three passengers each, the total passenger miles covered would be more than 7,000,000 times across the continent and nearly 2,000,000 times around the world.

Mr. F. W. A. Vesper, president of the association, will attend the Northwest division meeting at Yakima July 25-28 and will be brought from Spokane via Pullman by automobile to see this productive section of Washington.

AND THIS WAS HOW IT HAPPENED

Hit 'em in the right spot—and no matter how big they are—they'll drop, says the new champion, Jack Dempsey. And here are the pictures which beat Jack out in that statement. Jess dropped. Not once but seven times in that historic first round at Toledo, Fourth of July. The big picture shows Willard going down for the first time—the blow that really beat him—for he was "out" from that time on. The little picture shows Jess, battered and bleeding, hanging on the ropes as the bell ended the round.

COMFORT OF CHICKEN FLOCK

When Confined on Account of Bad Weather Provide Straw Litter for Scratching.

(Prepared by the United States Department of Agriculture.)
If the chickens must be confined on account of bad weather provide a good straw litter in which their grain feed may be scattered. This will give them exercise and keep them interested and healthy. When chickens that have been accustomed to free range are closely confined this frequently checks their development for the time being unless they are made contented in their new quarters. Provide green feed for them also.

WATER SUPPLY IS IMPORTANT

Prospective Builder Should Solve Problem Before He Does Anything Else at Start.

(Prepared by the United States Department of Agriculture.)
No questions are of greater importance to the farm family than the farm's water supply and the disposal of its sewage. The prospective builder should make certain that these problems are solved before he does anything else, for they lie at the foundation of the entire household's health and comfort.

MISS KELLY CALLS HER KING A JACK

Josephine Marie Kelly of Chicago and New York, American girl doing Red Cross work, has Europe talking as the young king, Alexander of Greece continues to pay attention to her. When the king quit his suite at the grand ball, walking to the side of the little Yank girl in the center of the great hall—Athens diplomats and foreign ministers gasped. He signs his correspondence to her "Jack"—and that's what she calls his majesty.

PROVES HIS SANITY AFTER 17 YEARS

To be cast seventeen years among the insane and to still retain hope of deliverance is the feat through which James Belden has just passed. Governor Smith of New York attracted by letters appointed a commission which found Belden sane—and always had been. Arrested for larceny in 1902 Belden was adjudged insane and sent to Dannemora hospital.
