## NOTICE OF HEARING FINAL REPORT AND PETITION FOR DISTRIBUTION

In the Superior Court of the State of Washington, in and for the County of Whitman.

In the Matter of the Estate of Thomas O'Rourke, Deceased.

Notice is hereby given that Pat Ryan, the administrator of the estate of Thomas O'Rourke, deceased, has filed in the office of the clerk of said court his final report as such administrator, together with his petition for distribution of said estate, asking the court to settle said report, distribute the property to the heirs or persons entitled to the same, and discharge said administrator, and that Friday, the 13th day of August, 1920, at 10:00 o'clock a. m., at the court room of our said superior court, in the city of Colfax, in said Whitman county, has been duly fixed by said superior court for the hearing and settlement of said final report and petition for distribution, at which time and place any person interested in said estate may appear and file objections thereto and contest the same.

Witness, the Hon. R. L. McCroskey, judge of said superior court and the seal of said court affixed this 2nd day of July, 1920.

M. C. TRUE, Clerk of Said Court. (seal) By Fred C. True, Deputy. July 29 1920

## TIMELY WARNING AGAINST SPECULATORS

The Columbia basin survey commission, believing ill-advised speculation will tend materially to retard development and ultimate completion of the Columbia basin project, has issued a public statement in the form of a resolution condemning activities of land promoters and speculators in attempting to dispose of Columbia basin lands at prices far in excess of their value.

"Premature purchase of arid lands within the proposed Columbia basin project at unwarranted prices is not only an imposition upon the purchaser, but will tend materially to retard development and ultimate completion of the project," states the commission, and further says:

"Under present conditions improved arid lands within the project are worth no more than arid conditions warrant. Lands for grazing purposes sell for, and are worth, no more than \$3 to \$5 per acre; lands suitable for wheat in sections of scant rainfall, where crops are a gamble, are worth no more than \$10 to \$15 per acre; and in the most favorably located sections the best agricultural land should sell for not more than \$15 to \$30 per acre. Prices greater than those named are entirely speculative and unjustifiable.

"Until water is available on these arid lands the commission believes that the efforts of land companies and others in soliciting and disposing of land to prospective settlers will result in great harm to the state and in blighted hopes for purchasers who may attempt to build homes.

"The greater part of the Columbia Basin is now a liability rather than an asset to the state and will remain such until water is placed on it. It will probably be several years before construction can possibly be started and several years in addition before water can be made available to the first units. The commission recommends, therefore, that prospective purchasers make thorough investigation and consult with the commission either at Olympia or at Spokane or with the agricultural bureaus of the chambers of commerce in any of the large cities of the Pacific Northwest before purchasing Columbia basin lands."

By arrangement with the railroads, state and federal governments, the Columbia basin survey commission already controls about 20 per cent of the land within the project and to some extent, according to the commission, will be able to prevent undue speculation in the area embraced within the project.

## NOTICE OF SPECIAL SCHOOL DISTRICT MEETING

Notice is hereby given that a special meeting of the legal school electors of School District No. 59, of Whitman County, Washington, will be held at the high school building in said district on the 20th day of August, 1920, beginning at the hour of 1:30 o'clock p. m. of said day, for the purpose of voting five mills tax in excess of 10 mills tax for the maintenance of the school for the ensuing year.

By order of the Board of Directors.

Dated this 5th day of August, 1920.

aug 13-20 D. C. DOWNEN, Clerk.

## NOTICE

No engines, combines or binders with spikes or lugs on the wheels will be permitted to pass over any paved street in Pullman between the hours of 6:00 a. m. and 8:00 p. m. Parties violating this regulation are liable to a heavy fine.

C. M. HOOPER, Street Commissioner.

Have your clothes dry cleaned at the Roderick Tailoring Co. Work guaranteed first class and odorless. aug 6-13

## IS THIS YOUR EXPERIENCE? Many Pullman People Are Afflicted With Annoying Kidney Ills

Are you bothered with too frequent action of the kidneys? Are the secretions highly colored—do they contain sediment—burn and scald in voiding? These are all signs of kidney sickness and should not be neglected. Pullman people recommend Doan's Kidney Pills. If your back aches and your kidneys are weak you will find no better recommended remedy.

Edwin Laney, retired building contractor, 511 State St., Pullman, says: "I endured many hardships in the Civil War and that's what affected by kidneys. A year ago I was ailing with kidney trouble. I had an awful pain right across the small of my back and I could hardly get up or down. My kidneys acted irregularly, the kidney secretions being too frequent in passage, especially at night. I read about Doan's Kidney Pills and four boxes from White's Drug Store, straightened me up in fine shape, curing me of the pain in my back and making my kidneys act like clockwork. My back is sound as a dollar now."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Laney had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

### BUSINESS PARTNERS

The law safeguards and in some measure precribes the relation between a bank and its clients, just as it does between business partners.

But, as in a business partnership, if the relation is to be really worth while, legal obligations must be supplemented—bank and client must work together.

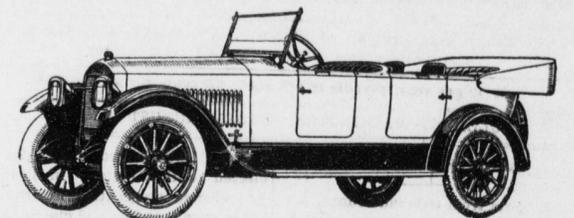

You will find this institution a good business partner.

## FIRST NATIONAL BANK

### PULLMAN, WASH.

## STUDEBAKER

# DURABILITY

One thing that adds excess value and life to the Series TWENTY is the special steels used in the manufacture, made to Studebaker's own specifications especially for Studebaker cars.

Another is the scientific heat treatment of vital parts, like gears, axles, axle shafts, etc., which makes them stronger, longer-wearing, and permits lighter weight with increased strength.

A third is the absolute accuracy of Studebaker manufacturing processes, and the resulting perfect fit and alignment of all parts, and perfect balance of motor parts and the entire car, reducing friction and wear to the very lowest point.

This is why Studebaker Cars "stand up," give continuous service month after month, year after year, with low up-keep cost. This is why a Studebaker in the end is one of the most economical cars in the world to buy. Ask any Studebaker owner and listen to what he tells you.

Come in and let us give you a demonstration.
