WOULD ARBITRATE CLAIM FOR DAMAGES

A. J. Skinner Tuesday night presented to the city council an offer of arbitration of his claim of \$300 damages against the city for alleged damage to his property on Methodist hill as a result of the recent street improvements in that district. Mr. Skinner complains that the new street grades damage his property to the extent of \$300 as the result of an increased grade, which, he says, will make impossible the hauling of a big load of fuel to his property. In his communication Tuesday night he states his willingness to arbitrate through a local board of arbitration, but says: "In case this request is not complied with I will begin suit at once." He names Edward Bryant as his arbitrator in case his offer is accepted. It is improbable that the city will take cognizance of the offer, the general belief being that Mr. Skinner has no just cause for complaint.

FIELD FIRE TAKES GRAIN

Twenty-five shocks of grain on the T. Thonney farm, east of Pullman, were destroyed in a field fire Saturday evening which resulted, from a grass fire on the right-of-way. COLLEGE GRADUATES MARRIED WEDNESDAY

Henry DeYoung and Miss Neil Williams Married at Home of Bride's Mother—Will Reside at Colfax

Another State College romance came to a happy culmination Wednesday morning, when, at 6:30, at the home of the bride's mother, Mrs. A. Williams on Linden avenue, Miss Neil Williams became the bride of Henry DeYoung. Both the contracting parties are graduates from the State College, the bride receiving her degree in 1919 and the groom in 1920. The ceremony was performed by the Rev. W. A. Spalding of the United Presbyterian church, the double ring ceremony being used. The bride was attended by her sister, Miss Jimmie Williams, and the groom by Hill Williams, a cousin of the bride and principal of the Rosalia high school. Mr. and Mrs. DeYoung left soon after the ceremony by automobile for Colfax, where they took the train for Spokane and from there will proceed to Seattle to enjoy their honeymoon. Next month they will return to Colfax, where the groom is an instructor in the high school.

Mrs. DeYoung is a graduate from Lewis and Clark high school, Spokane, and was prominent in student circles during her college career here. She was a member of Omicron Nu, the home economics society. Mr. DeYoung is a member of Gamma Phi fraternity and served as business manager of The Evergreen, the student paper.

SMUT EXPLOSION ON BERT CROW FARM

A smut explosion, just before closing time Thursday night damaged the McIntosh separator, operating on the Bert Crow farm, northeast of Pullman. The explosion was so terrific that the sack sewers were thrown to the ground but the fire was extinguished with damage to nothing but the separator. The setting was in grain only slightly smutty and atmospheric conditions are believed to have been largely responsible for the explosion. The farm is owned by Mrs. Ella Letterman of Pullman and leased by Mr. Crow. The outfit resumed operation as soon as the separator was repaired.

PROPOSE SUNNYSIDE HILL HOSE HOUSE

Residents in the Sunnyside hill district are out with a demand for a hose house and hose cart on that hill and propose that the house be constructed in the southwest corner of the school grounds. It is probable that an organization of the property owners in the Sunnyside hill district will be effected and that the owners will offer to construct a hose house if the city will provide the equipment. Hose houses are already located on all of the other important hills of the city and the fire protection on Sunnyside is claimed to be entirely inadequate. The proposed organization is also expected to take steps toward securing better water pressure on Sunnyside.

Helping women to help themselves is the work of the home demonstration agent.
