PULLMAN WOMEN

ON LONG HIKE

Mrs. Margaret Kittson, proprietor of the Pullman cafe, and Miss Enola Richards started last Friday on a hike to Minneapolis, Minn. They reached Spokane Saturday, according to the Spokesman-Review, which said in its Sunday edition:

"Dressed in khaki suits, wearing high top boots and campaign hats and with knapsacks over their backs, two tall young women marched into the Ridpath hotel yesterday afternoon on a journey from Pullman to Minneapolis, Minn. They were Mrs. Margaret Kittson, the owner of a cafe, and Miss Enola Richards, the daughter of Mrs. Thomas Duff.

"By walking and riding they expect to reach Minneapolis within 30 days, and after remaining long enough to get their breath they expect to return by the same means. Travel will be divided about equally between hiking and automobile riding. In preparation for the hike they have been climbing Idaho mountains for the last two weeks, but in spite of the training they suffered abrasions of the heels, they related, in the walk of yesterday. About 24 miles of the journey from Pullman to Spokane were made afoot yesterday and the remainder by automobile.

"Pullman folks thought our adventure was terrible, but I don't, do you?" asked Mrs. Kittson. "I am walking for the benefit of my health and Miss Richards for the benefit of the scenery. We will follow the Yellowstone trail."

"On their hats was a ribbon saying 'Minneapolis or bust.'"

A REMARKABLE FREAK WHICH PUZZLES SCIENTISTS

A remarkable freak, which Professor Ure of the Queensland University describes as the most wonderful biological curiosity of the age, is being exhibited at the Levitt-Brown-Huggins shows by Mr. and Mrs. Gunning-Davis of Australia.

This strange bird is an Oryngton with two bodies on one frame, one side being male and the other side female. It has four legs, two of which grow from the spine; it crows like a rooster and cackles like a hen. The rooster side of the creature is the father of chickens, while its hen side lays eggs which, however, are not fertile. It has four legs, each of them different. The legs are those of an eagle, turkey, peacock and pheasant. The bird walks like an ostrich and can fly like a pheasant.

The freak was found in the brush of Australia, 17 miles from any house, when it was six days old and was reared by hand.

WANTED CARFARE HOME; SENT TO MEDICAL LAKE

Edgar A. Manns, who has been employed at Sprague's cafe as a dishwasher for some time, was adjudged insane in the superior court at Colfax last week and was sent to Medical Lake. Manns claimed that a fortune teller in the east told him that a certain young lady was "his fortune" and that he was "her fortune." He followed the young lady to Whitman county and persisted in writing letters and annoying her, according to the complaint, although she had but recently married a Whitman county business man. Manns demanded that her father pay his carfare each way and is also alleged to have threatened her husband.

MORE IMPROVEMENTS

Lee Allen and F. C. Forrest, who acted as the visiting committee to the tourist auto park last week, reported to the chamber of commerce that they had rigged up some needed swings. They recommended that the grass should be raked and arrangements made so that the park can be sprinkled, also that tubs and a couple of stands should be provided for the convenience of tourists who want to wash their clothes.

NEW Y. W. C. A. SECRETARY

Miss Elizabeth Miller, the new Y. W. C. A. secretary, arrived last Sunday from her home in Carydon, Ind. She had been taking work this summer at the Y. W. C. A. training school in New York. AMUSEMENT ENTERPRISE IS HIGHLY SATISFACTORY

The Levitt-Brown-Huggins Amusement Enterprise, which is showing this week at the ball park under the auspices of the Pullman fire department, is giving general satisfaction. Many who have visited it say that it is a good, clean show, far superior to anything of the kind which has ever visited Pullman.

It is well managed and the proprietors have rigidly excluded the fakes and gambling games usually found with the traveling carnival companies.

The employes are courteous and conduct themselves like ladies and gentlemen and the best of order is maintained. Taken as a whole, the attractions are well worth the price of admission, and the members of the fire department are much pleased over their success in securing such a good show.

WHEAT AT FALLONS

The Pacific Coast Elevator company's warehouse at Fallons has been receiving about 2000 sacks daily and will soon be filled. At the warehouse of the Seattle Grain company the daily receipts average about 400 sacks, but the house will be filled by the overflow from the P. C. E. warehouse.

PURE MILK

PURE MILK

THE MILK HOUSE

PURE MILK

I.—Our MILK is pure milk because we get our supply from a few selected herds only. These expert dairymen understand how to produce clean MILK and are co-operating with us to give Pullman the best MILK possible. We are giving these dairymen a bonus above the market price, based on bacterial counts, to make it worth while to them as well as to our customers.

II.—Our MILK is pure MILK because it is PASTEURIZED. This expensive process is free to the public because we do not charge any more for our PASTEURIZED MILK than we do for raw MILK. PASTEURIZATION does not affect the flavor or composition of milk in the least. PASTEURIZATION kills pathogenic organisms and thus reduces to a minimum the transmission of such diseases as septic sore throat, typhoid fever, and tuberculosis through MILK. PASTEURIZED MILK remains sweet much longer than raw MILK.

III.—Our MILK is pure MILK because it is handled in the most modern and sanitary way. It is delivered to the consumer in the least possible time. It is kept at the proper temperature by modern refrigeration. All equipment is thoroughly sterilized by live steam.

We are operating on a cash basis and orders for tickets will be taken at any time. Delivery starts on the first day of September. Routes on all hills.
