A ton and a half of print paper received at THE HERALD office this week. Subscribers who are delinquent should remember that paper costs money and that wages of employees must be met every week.

The legal rate of interest for this state, according to a law just passed, is eight per cent per annum. State, county, city, school or other warrants drawn on public funds, as well as judgments, shall not bear more than this interest.

H. H. Allen reports that many cattle have died at the feed yard, owing to the long winter, and that he expects to lose a few more. He estimates the loss at from eight to ten per cent, but says that it will not go over the latter figure.

Last week Frank Pierpont, a well known settler and stockman of the Big Bend, was found frozen to death on the prairie about three miles from his ranch. He had left Conlee City in a snow storm on the 6th of February with mail for his neighbors and that was the last seen of him alive.

H. C. Humphrey is endeavoring to make arrangements for putting up a two-story brick building on First street, adjoining Kershaw's neat market. He owns two lots, the sale of one of which he is now negotiating to a gentleman, who expects to join him in a fifty-foot front building.

Kennewick is to have a newspaper. Winfield Harper, who has established papers at Pasco, New Whatcom, Juliette, and probably other places within many years, will push the quill. He will have to move the types also if he expects to make a financial success of the paper business in the embryonic metropolis of the lower Yakima.

A bad break in the water company's ditch on Sunday last made drinking water a scarcity for several days this week and left us in darkness for one night. Mr. Whitson says this winter has given him an extensive but costly experience, and that before another winter rolls around he will have perfected plans which he has in view whereby he confidently believes there will be no further trouble.

Most anybody can edit a newspaper one week and make it interesting, says an exchange. Some people can keep up the interest for a month or two without flagging, but it takes a natural born quill driver and a hard worker to grind out an interesting batch of local and editorial items week after week for a term of years. There is no profession that is as exhausting and less remunerative for the work than the editorial or journalistic profession, but how few there are who believe this.

STATE FAIR FOR YAKIMA.

The Bill Passes the House--The Senate All Right.

A Brief Synopsis of Some of the Provisions--The Duties of the Commissioners--Names Nominated for Appointment.

The bill creating a state agricultural fair, with permanent location in Yakima county, near the city of North Yakima, passed the lower house of the legislature on Wednesday. This was the first appropriation bill passed, and in order to get it through its friends had to cut and slash the measure as originally introduced in a manner that could not but satisfy the most rigid economist.

The fears for the safety of the bill was felt in the house, but it passed there with only ten dissenting votes. Senator Eshelman has been carefully looking after its future in the senate, and its favorable reception is confidently predicted.

The bill provides for seven commissioners, to be appointed by the governor, who shall serve without compensation other than traveling and living expenses during the time when they are actually engaged in attending to the duties imposed upon them. They are to meet and procure a deed in warranty to a suitable tract of land as conveniently situated and as near as possible to North Yakima, which land is to be donated to the state for all time to come for fair purposes, and on which the commissioners shall cause to be built the necessary pavilions, exhibition halls, stalls, stands, and a mile speeding track of the most approved pattern, as well as driveways, sidewalks and fences.

The commissioners will have entire control and management, make rules, arrange meetings, appoint and remove employees and officers, arrange entrance and gate fees, lease stalls, stands, restaurant privileges, and award prizes and premiums. Fairs are to be held every year, beginning on the first Monday in September.

Already a number of names are being canvassed for appointment as commissioners, among whom are Fred Parker, of this city, J. R. Reavis, of Spokane and John R. Patton, of Tacoma. All these gentlemen are especially well qualified to make a success of a fair and when the bill becomes a law their appointment should be strongly urged upon the governor. Mr. Patton has a splendid stock ranch in this county where he is now feeding and caring for horses valued at \$188,000. These horses are mainly from Iowa and will be notable here if a suitable track is built. Notable among the stock is Yendis, a 5 year old stallion from Sidney, valued at \$25,000; B. Wagner, a Wilkes colt, value \$25,000; Chesteron, another \$25,000 value; Lady Wilkes, a \$10,000 mare, with foal for which there is a standing offer of \$5,000 when dropped; and many other valuable animals. Mr. Reavis is secretary of the Spokane chamber of commerce and takes great interest in agricultural and stock matters, as also does Mr. Fred Parker, of this city, who has had much experience in fairs and speeding associations and is an excellent judge of horses. The governor could not well find three men better qualified to act on the board.

The legislature has created a law aimed to protect farmers and shippers of produce. It makes it obligatory upon the commission man upon receipt of consignment to send to the consignor a statement in writing showing the condition of the property received; and upon request, when said consignment, or fifty per cent thereof, is sold he shall render a true statement showing proportion of sales and prices received. Consignees failing to comply with this law are subject to a fine of from \$100 to \$500.

The second afternoon of the parlor lecture course, held at Mrs. J. K. Ward's on Saturday last, was enjoyed by over fifty ladies. The third of the series will be postponed one week, and next Saturday afternoon, March 4, will be devoted to a complimentary for Miss Ladd, who has been the inspiration of these lectures and who is about to leave for California on a visit to friends. The complimentary will be held at the home of Mrs. W. L. Steinweg. Miss Ladd will give a paper on Robert Browning, good and suitable music will be rendered, and a new feature introduced for this special occasion. The exercises will begin promptly at 3 o'clock, and all are cordially invited to attend. Tickets 25 cents, the season tickets for the regular course not being accepted on this afternoon.

Kershaw, George Vance and E. M. Reed. Miss Wright and Mr. Courter captured the first prizes, and Mrs. Donald and Mr. Hamacher the booby prizes.

On Monday evening last an Indian gave a ten dollar gold piece to a white man for the purpose of getting it changed, as he claims, but more likely to get whiskey. The white man disappeared, like wise the money, much to the grief on the part of the Indian, who appealed for relief to Marshal Cook. This officer thinks he has a clue to the thief and will soon have him in limbo.

On Wednesday Al Whitson, while journeying through the lower end of the county in company with G. M. McKinney, shot and killed a wild goose, at an estimated distance of 300 yards, with a 38-caliber revolver. While these gentlemen were stopping at a house some stole the bird from their wagon, but they are willing to furnish affidavits as to the killing.

It is rumored that a proposition to purchase the Republic has been made to C. M. Holton, and that if accepted a stock company will be formed, composed of L. E. Sperry, R. K. Nichols, A. B. Weed, George Donald, John Reed, and a number of other republicans, who will put up the money and conduct the paper under the management of Mr. Sperry.

THREE NEW BRIDGES ACROSS THE YAKIMA.

Many Bidders and the Combination Between the Contractors Broken. Three for the Price of Two.

On Monday many sharp visaged young men could be seen about the hotels and on the streets, and inquiry developed that they were here for the purpose of bidding on the new bridges to be constructed across the Yakima. The former letting had been annulled through imperfect advertising, and a good thing it was for the county, for according to the bids that were opened on Monday three bridges are to be built for \$264 less than the cost of two bridges, as compared with the award of a month previous. This was no doubt in some measure due to the agitation inaugurated by THE HERALD over the need of a bridge at Zillah, whereby the attention of contractors was called to this work, and they came here in such numbers that no combination could be formed and low bids resulted. The bidders were Hoffman & Bates, Portland Bridge Co., Pacific Bridge Co., and Oregon Bridge Co., of Portland, Bullen Bridge Co., San Francisco Bridge Co., Western Bridge Co., of Spokane, Toledo Bridge Co., E. P. McDonald & Co., and Dickinson & Co., of Tacoma. The bid of E. P. McDonald & Co., of Tacoma, was pronounced the lowest and best and the contract so awarded, to be turned over to them upon the execution of a satisfactory bond in the sum of \$15,000.

The bid was as follows:

Table with 2 columns: Bridge Name and Bid Amount. Includes Kiona bridge, main span \$400, Kiona bridge, 60 feet Howe truss span \$610, Simcoe bridge, main span \$408, Simcoe bridge, 72 feet Howe truss span \$619, Zillah bridge, main span \$13918.
