No Boss Without a Trick.—Editing a newspaper is a pleasant business—if you can read it, says the St. Augustine News. If it contains many advertisements subscribers complain that they take up too much space. If there is a lack of advertising it is unpopular and the people won't have it. If we attend church regularly they say we go for effect. If we stay away from church they say we are monstrously heathenish. If we accept an invitation to a wedding they say we are "writing it up." If we go to the opera house they say we go on free tickets. If we are seen on the streets too often they say we neglect our business. If we avoid going on the street they say we don't hustle round for the news. If we neglect a long communication its author gets furiously enraged and discontinues his paper. If we publish a lengthy communication our readers will say we lack discretion, and put in anything to fill up. If we sell out in a new suit of clothes and celebrate around hog day they say we got our clothes in payment in advertising, and that we are by far too oppish. If, in our frailty, we sometimes perpetrate a joke or make a stagger at a little pun, they say we are exceedingly light and won't do. If we omit the jokes they say we are poor, miserable fossils. If we are married they say it is a pity for our wife. If we are not married they say it is because we are too homely to get a wife. If we publish a man who has brought disgrace upon his family, the friends of the family never forget us. If, out of goodness of heart, decline to say anything on the subject, the man's enemies are disappointed and we are branded as a white-livered coward. We are able to stand these rags and many more and are always ready to receive visitors whether accompanied by a dog or not. Of course we do not claim there is any work in running a newspaper—every one knows it is a snap.

More About Seedless Apples.—A. H. Jewett, of White Salmon, writing to the Dallas Chronicle says: "I have had for the past eighteen years a stock of what is known as the seedless apple. This apple originated in Virginia, and the old parent tree was living and healthy about fifteen years ago and was then 75 years old. The seed of this tree was brought to Wisconsin by an officer of the Union army about the year 1864 and presented to Mr. Chas. Waters, who was at that time a nurseryman in the latter state, and by him this variety was propagated and disseminated through the western country. I have in bearing on my place some twenty trees that are fifteen years old. The trees are very healthy, moderately productive, annual bearer, fruit medium size, color dull russet red, flesh firm and very solid, having no core or seed, quality only second rate, a long keeper, having kept them under ordinary conditions nearly a year. Whether the apple which has recently been discovered at Columbia, Wash., is identical or not am not prepared to say, having never seen the fruit of the latter."

A CAUTIOUS MAIDEN.—There is a Washington young woman, who, while not a conspicuous beauty, is by no means as homely as she affects to believe. A young man has been devoting much of his time to her, and she has given him reason to think that his society pleased her. The other evening he said: "Do you believe that you could learn to care for anybody well enough to marry him?" She caught her breath and then answered in a low tone: "Yes; I am sure I could."

"Have you—have you anybody in your mind now for whom you think you could care in this way?" "Yes."

"Tell me; am I that person?" "She opened her lips to speak, and then closed them without speaking. She looked at him narrowly for a moment, and then said: "First answer me one question."

"What is it?" "Are you doing this on a bet?"—Washington Star.

INDEPENDENT IRRIGATOR.—Did it ever strike you how complacently the man who has a small farm irrigated looks out from under his own vine and fig tree on financial panics? If there is a man in the world who can live without money it is the man with a small tract of land on which he can turn the water at will. If there is a man fixed to get hold of money when money is scarce it is the man with a small tract of land irrigated. He can live on what he produces, and he has so many little things to sell that he can get money if anyone can. In fact he is nearer independent than any man on top of the earth. It is impossible to put a man in a corner who has twenty acres of good land on which he can turn the water at will and who is out of debt; and a man so sustained can get out of debt very quickly. He is at least the last man asked to square up.—Colusa Sun.

BOB INGERBOLL PUZZLED.—Bob Ingersoll, with all his wit, gets led down hard once in a while. In combatting the greenback theory once, he said: "If you were to make the picture of a cow and label it 'this is a cow,' would that make a cow?" He then clinched his argument by holding up a greenback and saying triumphantly, "this is a picture of a dollar. Does that make it a dollar?" An old hayseed present replied: "If the picture of a cow produces as much milk and butter as a real cow and costs nothing to feed it, isn't it better than a cow?"

THE GROWER'S MISTAKE.—If a man takes his potatoes to market he is never backward about advising his neighbors of the price received for them, and it is the same with fruit, beef, hay or other agricultural produce. But not so with hops. Dealers are very chary about divulging the price they pay for hops and of late

growers often conceal the amount raised by them. Sometimes the dealers stipulate that the price paid is to remain a state secret while again for reasons of maintaining credit the growers request that their selling price shall remain a mystery. Growers should not complain about being misled by false quotations when they lend themselves willingly to the deception. The Citizen has been given private pointers on several lots that have been sold for upwards of 18c, but cannot report these sales without violating confidences.—Puyallup Citizen.

PUBLIC ROBBERY.—Up to date the Enterprise has refrained from commenting upon the disgraceful exposure in regard to the public theft that evidently has been committed in the construction of the county almshouse. There has been a theft there is not the slightest shadow of doubt. But this system of public robbery interlaces our whole social system from the municipality to the nation at large and will always continue to exist as long as the American people quietly consent to be robbed through a system of indirect taxation. Such thefts are the natural accompaniments of a false system of indirect taxation and finance, and it is useless to hack away at the leaves as long as the root of the tree of evil is left unmolested.—Ballard Enterprise.

"German Syrup"

G. Gloger, Druggist, Watertown, Wis. This is the opinion of a man who keeps a drug store, sells all medicines, comes in direct contact with the patients and their families, and knows better than anyone else what remedies sell, and what true merit they have. He hears of all the failures and successes, and can therefore judge: "I know of no medicine for Coughs, Sore Throat, or Hoarseness that had done such effective work in my family as Boschee's Sore Throat, German Syrup. Last winter a lady called Hoarseness, at my store, who was suffering from a very severe cold. She could hardly talk, and I told her about German Syrup and that a few doses would give relief; but she had no confidence in patent medicines. I told her to take a bottle, and if the results were not satisfactory I would make no charge for it. A few days after she called and paid for it, saying that she would never be without it in future as a few doses had given her relief." e

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding the fact that generally it is located in the upper part of the spinal cord, and so seated in the brain, it is a portion of the nervous system that even the prick of a needle will cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers located in or near the base of the brain, and that when these are damaged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body below the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how dangerous these diseases are to the health, and how the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they treat the organ rather than the nerve centers which are the cause of the trouble.

Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 30 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the following statement, and that the ordinary methods of treatment are wrong. All headaches, dizziness, dullness, confusion, pressure, buzzing, noise, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases, no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.

Dr. Miles' Restorative Nervine is sold by all druggists on a positive guarantee. For sale by W. H. Chapman, druggist. Price 50c. per bottle. It contains neither opium nor dangerous drugs.

Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 30 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the following statement, and that the ordinary methods of treatment are wrong. All headaches, dizziness, dullness, confusion, pressure, buzzing, noise, melancholy, insanity, epilepsy, St. Vitus dance, etc., are nervous diseases, no matter how caused. The wonderful success of Dr. Miles' Restorative Nervine is due to the fact that it is based on the foregoing principle.
