The young mother's delight and joy in her beautiful baby is always accompanied by more or less care and solicitude, and a certain degree of drain on her physical resources. She needs all the strengthening and sustaining help which is possible to be obtained, in order not to fall a victim to the organic weaknesses incident to maternity.

The grandest help in the world for expectant mothers or nursing mothers is Dr. Pierce's Favorite Prescription. It imparts health and strength directly to the delicate organs and nerve-centers involved in motherhood. It renders the coming of baby safe and almost free from pain. It transmits constitutional health and hardihood to the child; promotes the secretion of abundant nourishment, and fortifies the mother with permanent vital energy.

All diseases of the feminine organism are completely cured by this remarkable "Prescription." No other medicine was ever devised for this purpose by an educated, skilled physician of thirty years' experience and an expert in this particular branch of medical practice.

The marvelous effects of this medicine are more fully described in one chapter of Dr. Pierce's thousand page illustrated book, "The People's Common Sense Medical Adviser," a book which every woman ought to read. A paper-bound copy will be sent absolutely free on receipt of 21 one-cent stamps to pay the mere cost of mailing. Address World's Dispensary Medical Association, Buffalo, N. Y. A handsome cloth-bound copy for thirty-one stamps.
