A New Through-Car Line.

Get on at Seattle, Spokane, Helena, or any other point along the main line of the Northern Pacific—get off at Lincoln, St. Joseph, or Kansas City.

There is the actual, practical result of the new twice-a-week tourist car line established by the Burlington and Northern Pacific railroads.

Comfort and economy every foot of the way. Clean cars, Pullman porters, shortest line—and NO change of cars from Puget sound to Kansas City. Ask any Northern Pacific ticket agent for details, or write

No Cure—No Pay.

That is the way all druggists sell Grove's Tasteless Chill Tonic for Malaria, Chills and Fever. It is simply Iron and Quinine in a tasteless form. Children love it. Adults prefer it to bitter, nauseous tonics. Price 50c.

From Wisconsin.

A former Yakamite, now a resident of Wisconsin, requests publication of the following original verses:

The snow lies as white as the face of one dead;  
The flakes rush in fright from the clouds overhead:

But the drifts I'm not countin',  
My thoughts are awa',  
Far over the mountain,  
In dear Yakima.

Here are hills—always hills; where the shrieking winds revel,  
Where the poor farmer tills the lands he calls level.

I wish these old Shakers  
Could once a plow draw  
O'er the broad level acres  
Of rich Yakima.

Oh, Yakima land, and Yakima river!  
Where the fruit orchards stand and the fields of grain quiver.

Your horse gallops steady,  
Your gun is a law:  
For courage is ready  
In brave Yakima.

On the blizzard I look, and then memory glances

To the land of Chinook and the Indian dances.  
There salmon are darting  
And say magpies jaw.  
Ill-tide those departing  
From fair Yakima.

On the Wisconsin farm are men kind and humane;  
But they never can charm a Washington woman:

For a soil freely giving  
Will generous men draw,  
And the noblest men living  
Are in Yakima.

—ADAVEN.

An Unknown Quantity.

Frank Poole, one of the best riders in the school, left Thursday for a three months' stay east of the mountains. This is a severe blow to the team of riders, which now seems reduced to Carroll Gordon and Irving Bonds. The former is comparatively new at the business, but is said to have a fast sprint, about all he will need in the usual jockeying mile race.

Bonds is an unknown quantity from Yakima but is said to possess great speed. He won many amateur events at the Yakima Fair and in school meets. Should he turn out to be a good distance man the local school will be well fixed for first place—Tacoma News.

Churches in Easter Dress.

The April Ladies' Home Journal devotes an entire page to photographs of churches decorated for the Easter festival. The pictures are secured through a competitive contest for a prize for the best decorated church, and the group printed were selected from the large number submitted. It is explained as the purpose of these photographs that they show the effects obtained by certain massing of plants and blossoms, or by garlands, etc. So, besides having an artistic value, the pictures have practical worth.

As to Interviews.

Most men like to be interviewed, but only a few realize how the "product of a glib tongue" is likely to look in the columns of a newspaper. That is why so many try to hide behind "fake." The reporter is sure to know it when the interviewed is talking too much, but he is not there as a guardian; besides, the more the interviewed branches out and tells things that he might better have kept to himself, the better is the "story," and, after all, it is the "story" that the reporter is after in any event.—Kansas City Times.

They Are Wanted.

It is a pretty safe venture to say that the supply of potatoes is very short. A dealer over in Ellensburg writes that nearly all the potatoes in that section are cornered and are needed at home and selling there for \$35 to \$40. At Yakima neither love nor money will secure many. Tacoma parties were up White River yesterday paying \$30 a ton. However, one Seattle buyer said today that he was up the valley yesterday and bought some potatoes at \$25.—Seattle Times.

Fearless Washington Fighters.

In the course of the fighting March 28, the Washington regiment had an opportunity to show the fearlessness of its men. A band of insurgents fired upon the regiment from a stone house over which a French flag was flying. A private volunteered to set fire to the building. He fulfilled his purpose, and while the house was burning insurgents fired volleys from a balcony. The men from Washington dashed into the flaming building and cleared it of the enemy in summary fashion.—James Creelman, War Correspondent Spokesman-Review.

The Cle-Elum Mines.

During last year an English syndicate, under the local direction of Manager Young, expended some fifteen thousand dollars for wages and \$25,000 or \$30,000 in development work. This year their working force will be at least doubled.

Among the mines now controlled by the syndicate are the King Solomon, all of Lynch Bros.' property, and the Petty-go-Easy group.

Other prominent mines hereabouts are the Ida Elmore, Maud O., Cle-Elum and the Huckleberry.—Seattle Times.

## A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

operation—the only treatment which the doctors know for Cancer. The disease promptly returns, however, and is even more violent and destructive than before. Cancer is a deadly poison in the blood, and an operation, plaster, or other external treatment can have no effect whatever upon it. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Walshtown, S. D., says: "A little blotch about the size of a pea came under my left eye, gradually growing larger, from which shooting pains at intervals ran in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm, the Cancer becoming at first irritated, and then discharging very freely. This gradually grew less and then discontinued altogether, leaving a small scar which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway." Positively the only cure for Cancer is Swift's Specific—

### S. S. S. FOR THE BLOOD

—because it is the only remedy which can go deep enough to reach the root of the disease and force it out of the system permanently. A surgical operation does not reach the blood—the real seat of the disease—because the blood can not be cut away. Insist upon S. S. S.; nothing can take its place.

S. S. S. cures also any case of Scrofula, Eczema, Rheumatism, Contagious Blood, Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.
