Great Reduction Sale of Furniture.

Some firms mark prices up for Christmas time. We are overstocked with goods for this season of the year, and want to run down stock to save us labor in our annual stock taking. We purpose giving Christmas buyers the benefit of this REDUCTION in prices.

Rockers.

We have the largest and finest stock of Christmas Rockers ever put on sale in this city. They all come under the Cut Price Sale.

Extension Tables.

Hand-polished; quartered oak.

Separate Dressers.

Just received, fine oak line from the east. You get the benefit of prices now.

Iron Beds.

Thirty different samples to select from. By far the most complete stock in the city. The cut prices are sure to walk these out in a hurry.

Bedroom Suits.

In this line we have used the knife on prices the hardest. They must go, if low prices will sell them.

Sideboards

And CHINA CLOSETS. Here is where we please you. Don't stop until you have seen them.

Steel Ranges.

In this line we lead the van at all times. Some dealers will tell you these are penitentiary made goods and no account. The same people, however, have tried every means possible to get the agency for my ranges. But McConnell sells so many of them that the wholesale firm won't give him up. Best medium-price range in the Northwest.

Book-Cases

and WRITING DESKS—We don't want one of these left by January 1, 1902.

Chiffoniers.

Eastern made goods—none better.

Dishes

and GLASSWARE.—We have a few odds and ends left in this line. We are going to quit handling them altogether. You get them at actual cost.

Heaters.

Only a few left, and we want to clean them up.

Center Stands

In that rich, quarter-sawed oak, with golden finish.

Don't forget the place, one block from Yakima Avenue, on South Second street, next to Herald office. It used to be a second-hand store, but you had better see us now.

WHAT PEOPLE SAY

Judge Beck—You new comers must get used to the winter weather we have been having. It is not new to the climate and is apt to come every winter along about this time. I have been here for over 30 years and I have seen many disagreeable days like those of last Thursday, Friday and Saturday. The people who say that such a thing never occurred before don't know what they are talking about. And further than that I have seen it 26 degrees below zero, but thank goodness I never saw it but once, and I hope it will never come again, for in the thin houses the people would freeze to death. It is seldom if ever that the wind blows with the cold; if there was, I tell you it would make your heels crack.

George Blair—The branch of the Fraternal club at Ellensburg now has 68 members and within the next two weeks I expect to increase this to 100. You would be surprised at the way the Ellensburg people are taking hold of the new order, which readily demonstrates it as a "taker" and foretells a rapid growth and a prosperous future. There are now 350 members of the order at North Yakima, 50 at Parker 68 at Ellensburg and the lodge up the Cowychee will have 40 members. Thus making a total of 508 members up to date. This is not bad for an order just starting. Success has been met with at the start and from all indications it looks as though it would continue.

D. E. Mackinnon—For two and a half years we have been hammering away on the Amador and at the present time have over eight hundred feet of cross-cuts, tunnels and drifts, a station for machinery cut in the solid rock, a flume two miles in length completed and covered, saw-mill that will cut 20,000 feet daily, plant, hoist, engine, blower and pump with capacity of one hundred gallons per minute, we have a commodious boarding and lodging house, blacksmith shop, ore house, bunk house, barn and other buildings. The shaft, five feet by seven feet in the clear, is now down one hundred feet below the station level or two hundred and and thirty feet

below the surface. When I came home for the holidays we had about completed a road to get in our eight Layner drill air compressor. This air compressor will be driven by water power and will furnish all the power required to run the hoist, pump, fans, and drills. We expect this machinery about January 1, and will have it ready for operation about February 15. With the installation of this machinery we expect to make rapid progress in the development of the mine and to open it up sufficiently in the next twelve months to double its present value. Our property has been developed by the sale of stock, the greater portion of which has been sold in and around Wallace, Idaho, where the property and officers are well known. Experts who have recently examined the Amador, pronounce it one of the coming great copper mines of Montana. We have made two shipments the first giving 19 1/2 per cent. copper and the lat-

ter netting over \$12 per ton. We have received numerous offers for the property but shall not consider any of them for the present.

Marshal Boyle—The attempted robbery of D. A. Hanna's store last Friday night demonstrated the necessity of having better rear entrance protection and keeping lights burning. It is no difficult matter to get into the store through a back entrance, for neither the windows nor the doors are properly protected. Some kind of screens or extra doors or shutters should be placed on the outside or else strong bars put on the inside, and then the lights should be kept burning throughout the night. This would insure better protection.

Eggs will be 40 cents a dozen soon. I pay to feed bone, oyster shells, and beef scraps to your chickens. Coffin Bros. 46-tf

The stockholders of the old Schanno ditch are considering the plan of attempting again to incorporate some time next spring. The stockholders attempted this last spring but could do nothing, owing to a few who opposed the scheme. If they can accomplish this an effort will be made to raise money to clean the willows from the course of the ditch which has become so overgrown as to almost stop the flow of water.

Inter-State Fisheries' stock will be worth one dollar per share inside of eighteen months. Buy now while it is cheap—10 cents per share. See Erwin and Johnstone at H. B. Scudder & Company's office. 51
