where we dispense the least amt of the best obtainable remedies at the lowest possible prices.

You are not obliged to have your prescriptions filled here; but once filled here, always filled here. Why?

BECAUSE You save time and money. We are always open. Some offices are closed and phones deserted. Ours never is. Drug stores are closed most all of Sunday. Ours never is.

BECAUSE Somewhere in your home there is a shelf filled with half empty medicine bottles. Why?

BECAUSE You needed the medicine used. The druggist needed a life sized prescription. Some doctors give the medicine free. Why?

BECAUSE If you ever want the same medicine again, you pay that doctor another consultation fee of from \$1 to \$2 to get \$2c worth of medicine free.

BECAUSE Therefore, try the only fair way: The least amount of the best obtainable drugs at the lowest price—and to be had AT ALL TIMES.

Too Free With His Gun.

A man named Goodwin was arrested Friday night on the charge of carrying concealed weapons. When arraigned in justice court Saturday he was found guilty and fined \$40 and costs. The main purpose of this charge, however, was to hold Goodwin pending an investigation of the causes of the difficulty that led to his arrest. He was seen stopping a man on Front street with the declaration that he would kill him. A third party interfered just as Goodwin drew a revolver from beneath his coat, and swung him around in time to cause the shot to miss its intended victim and go through a window of Sandberg's saloon. An information charging assault with a deadly weapon has been filed against Goodwin.

State Fair Notes.

The state fair commission has decided that hack and bus teams will not be admitted to the fair grounds as heretofore, thus eliminating that element of danger that has always been prevalent to pedestrians during the crowded period at the grounds fair week. The drivers will be permitted to drive up to the entrance, where the passengers will be unloaded.

Harry Collier, superintendent of the poultry department, writes the secretary that the poultry exhibit promises to eclipse any previous attempts in the way of a show. He has had the promises from the leading poultry fanciers of the state of good exhibits.

Prize Stock Coming.

Assistant Secretary Graham of the state fair has been advised by the secretary of the Union Stock Yards at Chicago that a trainload of prize stock is to be made up to be shipped west, at an early date. The object of this trip is to display the stock and show to farmers or others interested in growing stock just what careful breeding will do in a financial way for the grower. The trainload will be in charge of W. E. Skinner, and while it will stop at only important points along the route, will make North Yakima one of the places at which an exhibition will be held.

Will Recommend Extension.

W. H. Code, civil engineer, attached to the Indian department, has completed the work of investigating the canals on the reservation, and departed for New Mexico under orders from the department. He stated before leaving that he would strongly recommend in his report to the department that the new reservation canal be extended for several miles and a new lateral built. The money for the work is available and in all probability the extension will be built this fall. Mr. Code will return next season, and make a still more extended report on irrigation for the reservation lands.

Sparingly Attended.

Libertat's concert, owing, doubtless, to the very warm evening, failed to draw the audience anticipated by the renowned bandmaster. Those who did hear the famous cornetist and his trained musicians, however, were well rewarded, for the program was pronounced by critics one of the choicest conceivable, from a musical standpoint. It is to be regretted that this great musical organization could not be heard under more favorable conditions, for it is rarely that North Yakima has such opportunities.
