

# CONVENTION OF SUNDAY SCHOOLS

SESSION ADJOURNED MONDAY NIGHT

Hold an Instructive and Interesting Meeting, Attended by Many Prominent Workers.

The county Sunday school association met at the Christian church Sunday afternoon, with a very large number of delegates in attendance. The Sunday schools of the county were well represented, and from their reports the work for the past year showed a satisfactory and gratifying advancement in all lines.

Hon. Lee A. Johnson of Sunnyside made the opening address, which was a rousing talk on the advancement and growth of everything of a religious nature in the valley.

Mrs. Mary Foster Bryner of Peoria, Ill., gave a very edifying talk on the "Cradle Roll and Primary Work," and everything that she suggested was practically new to the workers of this locality; they were received with favor by the primary teachers, and everyone interested in the training of the little folks. It is safe to say that her suggestions will be immediately put into practice during the coming year.

H. H. Moninger of Cincinnati outlined plans for the intermediate work, and suggested many new methods for this, the hardest department of the entire work. Mr. Moninger has visited many of the largest Sunday schools of the east, and has made a specialty of this department. His remarks were of great value.

The session of yesterday was not so well attended, owing, doubtless, to the rainstorm. Rev. David Berry of Spokane, gave the opening address, and his talks show that he is well informed upon and deeply interested in Sunday school work, promoted by up-to-date methods.

Miss Allie Miller gave a brief talk upon the outline work and Bible drills of the schools of this city.

In a short business session Miss Allie Miller was elected president; Mr. Huxtable vice president; Miss Remy secretary; C. H. Hinman, B. F. Kumler and A. C. Singleton executive committee of the association, all to serve for one year.

It was decided to be represented by a delegate at the eastern division of the state convention at Spokane this week, and to instruct the delegate to ask for the convention to meet in Yakima next year. The delegate will represent forty-five Sunday schools in Yakima county.

Last night, at the closing session, there was a good attendance at the Presbyterian church. Rev. Berry of Spokane talked on the lack of interest in the Sunday school, and the small percentage of Sunday school scholars who are connected with the churches.

H. H. Moninger spoke briefly on the rally day, and suggested practical plans for it.

Mrs. Bryner spoke on the "Possibilities and Probabilities of the Sunday School Work."

In the business session it was decided to send more than one delegate to the Spokane convention, and the delegates chosen were Miss Remy, Rev. Mahone and Mr. Bush.

**Mrs. Clemmer Entertains Club.** The Twentieth Century club met Tuesday afternoon at the home of Mrs. Frank Clemmer. A very interesting program was given, as follows:

Roll call.  
Historical Facts of Austria.  
A Lesson on Historical Painting, conducted by Mrs. F. L. Miller.  
Poor Children of France, Mrs. J. M. Perry.  
Aristide Boncauffant (Bon Marche King), Mrs. I. H. Dills.  
An interesting talk on the pleasures at the Federation meeting was given by Mrs. W. H. Scott. Dainty refreshments were served by the ladies during the social hour.

**Death of Mrs. Wenner.** The death of Mrs. Samuel Wenner occurred at the home of her daughter, Mrs. Stanley Coffin, of 110 South Natchez avenue Sunday morning at 6 o'clock, after a protracted illness of several months. She was 70 years of age. Yesterday morning the remains were sent to Canton, Ohio, for interment in the family cemetery. Her son, Charles, accompanied the body back to the old home. Mrs. Wenner has lived in this city for the past ten years, and leaves a large circle of friends.

**CIRCUS CLOWNS GENIUSES.** Ducrow and Scott of the Norris & Rowe Show Invent Appliances.

That the circus clown is not always the foolish fellow he seems to be shown by the ingenious devices Tote Ducrow and Billy Scott of the Norris & Rowe circus have invented for evoking laughter from the little folks. This season they have invented a breakaway trolley car. A burlesque circus parade headed by the clowns starts around the hippodrome track. They meet the trolley car coming toward them. They refuse to get out of the way. The trolley car starts at full speed with the inevitable result that the burlesque parade is broken up, the car runs over the clowns. They retaliate by jumping upon the car, when finally an explosion sends car and clowns high in the air, accompanied by the shrieks of delight from the children. Another of their laugh-provoking inventions is a large red automobile called the "Red Devil," and devil it is, for when it starts around the track

# Ditter Bros.

209-211 YAKIMA AVE.

10c, 12½c, 15c, 20c

## Four Tables of Wash Goods

On these tables are undeniably the best values in summer fabrics to be found in town. The arrangement makes it easy to look them over. The prices make it easy to buy.

### The 10c Table

Lawns in white, black, black and white and colored Lawns—plain and fancy—a good assortment.

### The 12 1-2c Table

Fancy Batistes and Organdies in colors; pretty designs and fine, white Swisses and Dimities. A pleasing array of dainty fabrics at a small price.

### The 15c Table

Dainty, Dotted Swisses, Muslins, Pampas Cloth Suitings and a variety of fine Mercerized Waistings in stripes, checks and figures. An assortment from which very satisfactory selections can be made.

### The 20c Table

Choice designs in fine Sheer Organdies—floral sprays—very dainty. Taffeta Lawns in colors and black and white effects; Holly Batistes in light colors, Henly Serges and a nice line of Fancy Waistings make up a table filled with seasonable, stylish fabrics prices exceptionally low.

The above fabrics will make up into charming summer gowns, especially if combined with dainty laces. We have a complete assortment of fine Vals, Mechlins, Baby Irish and Cluny Laces, Edgings, Insertions and Beadings. Also Embroideries in all widths.

at full speed it runs over everybody in sight. Squealing pigs, scurrying chickens, an old maid with her market basket, a fat man, a dude and a tramp are run over with equal impartiality and the automobile finally goes up in smoke after all the confusion it has caused. The children will remember these comical fellows long after they have forgotten everything else they saw with the circus. Tote Ducrow and "Happy" Bill Scott have as assistants in fun making Nick Mannigan, "Foolish" Willie Hyatt, Bob Curtin and "Grottesque" Charlie Medora. The new and greater Norris & Rowe Circus will exhibit here Friday, May 25.

**Junior M. C. B. Meets.** The junior order of the Men's Civic Brotherhood met in the offices of Will Everett Friday night and elected officers for the order. The regular meetings will be held once a week and work taken up similar to that of the senior order. The following officers were elected: Alfred Hanky, president; Fred Clark, vice president; George Meeks, secretary; Lloyd Liggett, treasurer; investigating committee—Lloyd Cannon, chairman; Lloyd Liggett, George Meeks; committee on constitution and by-laws—Lloyd Cannon, chairman; Clark Green; program committee—Fred Clark, chairman; Alfred Hanke, Herbert Williamson; reporter, Lloyd Liggett.

The directors are Will Everett, N. F. Turner and M. L. Matterson. The order includes about thirty members, and twenty were present; four new members were received.

**Made a Quick Settlement.** The Yakima Produce Co. received a check for \$2500 yesterday from the Northwestern Mutual Fire Association of Seattle. This was the first insurance money to be paid to those who lost in Saturday's fire. The adjuster inspected the ruins Tuesday, and the check was received Thursday.

**Schenck Found Not Guilty.** Action was commenced in Justice Nichols' court yesterday against W. H. Schenck of the Cowichie, charging him with horse stealing. The case was dismissed on the ground that the evidence was not sufficient to justify his being bound over to the superior court. The prosecuting witness, John O'Neal, claimed that the defendant took care of his horse during the season of 1894-5, and in the spring the mare had gone out on the range, and was later taken up by the defendant and traded for another horse. Schenck admitted taking care of the mare, but alleged that after she was taken up from the range O'Neal came and took her from his place; that the pony in question came to his place shortly after, and

then O'Neal told him he could have all over \$15 that he could get for the horse. The defendant swapped the pony for another horse, intending to pay O'Neal the \$15. The evidence substantiated the claim of the defendant, whereupon Justice Nichols dismissed the case.

**Court House Insurance Settled.** The county commissioners and insurance men interested adjusted the insurance on the old county court house yesterday. The adjustment covered the loss on the building, fixtures and such contents as were destroyed. The commissioners were paid \$800 on the furniture and \$3,600 on the building. The estimated value of the property destroyed was \$7000.

The old building will be repaired at once so that all the offices can be used except the county treasurer's, who will continue to occupy his present quarters with the Yakima Abstract company until the new courthouse is finished.

**Fire on Fourth Street.** Fire broke out on a board fence in the rear of Rev. L. V. Slasor's lot at 195 North Fourth street last Sunday morning. It might have done considerable damage but for its timely discovery by Mrs. Slasor. It is thought to have caught from live ashes thrown into a wooden box. The damage was only nominal.

**Yakima People Abroad.** George Denton and family, who came up to attend the funeral of Mr. Denton's niece, Mrs. C. A. Baker, have returned to their home in the Natchez valley, Yakima county. Mrs. Harry Brown came up from North Yakima to be with her sister, Mrs. Lena Mason, who is confined to her room as the result of an operation a few days since. E. J. Penterson of the Olympia Dairy, North Yakima, was in the city today on business. Mr. Belch of the burg, will handle their ice cream in this city. They manufacture an excellent quality of cream.—Ellensburg Localizer.

**Land Case Decided.** The state land board of Twin Falls, Idaho, has decided the contest cases of J. G. Granger vs. J. O. Hulse, J. B. Leachy vs. Joseph L. Hulse, and Reed Pryar vs. Lew J. Hulse, all in favor of the Hulse brothers. This is of local interest, since all the Hulse brothers are well-known residents of this city.

**A Mountain of Gold** could not bring as much happiness to Mrs. Lucia Wilke, of Caroline, Wis., as did one 25c box of Bucklen's Arnica Salve, when it completely cured a running sore on her leg, which had tortured her for 23 long years. Greatest antiseptic healer of Piles, Wounds and Sores. 25c, at C. C. Case's Drug Store. —K5

# WANT TO SELL AN INCINERATOR

COMPANY WRITES TO THE MAYOR

Plant Will Generate Sufficient Steam Power to Build and Pay for It.

Closely following upon the announcement in the Herald that the incineration of garbage in this city was an absolute necessity, and also succeeding the statements of Councilmen Marsh and Thompson, the question is now about to be investigated by the members of the health committee. The mayor received a letter Monday from makers and builders of garbage incinerators known as the Decaire Manufacturing company, with Pacific coast headquarters at Portland, stating in a succinct manner the operation and cost of the incinerator they make a specialty of.

This company states that the cost of an incinerator will be in the neighborhood of \$10,000 for a city the size of Yakima, which is at great variance with the sum mentioned in the council meeting several weeks ago by Councilman Marsh. At that time Mr. Marsh said that he had information to the effect that the entire proposition could be built and put into operation at an expense considerably below \$500.

The council at that time was considerably surprised at the low price mentioned by Mr. Marsh, but they seemed to be perfectly willing to consider that amount, if it were possible, for such a low figure. When Mr. Marsh was seen Monday night he positively refused to make any statement as to the nature of the incinerator that he had reference to the night he volunteered the suggestion.

The Decaire company has an incinerator that they guarantee to entirely consume all of the garbage, including animals, that may be put into it, as well as the smoke and all fumes that are generated by the process. Beside doing that, the incinerator is guaranteed to be operated without the use of fuel, except to start the fire. Once started and fully supplied with garbage, the plant is fed by the garbage, requiring no coal, wood or other fuel. After being once started, the incinerator not only consumes all of the matter put into it, but also generates an immense amount of steam power, which, if it could be applied by the city, would be worth a considerable amount of money.

The problem that now confronts the members of the committee and those who are interested in the matter is as to what use the steam could be put to. A suggestion has been made by one to the effect that the power might be sold to some manufacturer that would be willing to install the plant, making the power question a matter of slight financial consequence to the manufacturer and the plan a decided gain to the city. The councilmen refused to speak of the question from this standpoint and nothing definite could be learned last night as to what would be done in this respect.

Councilman Lane: "A crematory is a good thing, and we ought to have one. I am in favor of it, if it doesn't cost too much. I don't think it can be put in for \$350 or \$400. I think it will cost closer to \$2500, or perhaps more. I am not posted on the price; in fact, I never investigated that phase of the question. In building a crematory I believe it ought to be a crematory for the city, but not at the present time. At present the city needs the funds for other purposes. The fire department needs equipment which ought to be provided right away. I am in favor of putting off the building of the crematory until next winter. I believe it will cost more to put in a crematory than was claimed at one of the recent council meetings. I believe it was said that it could not be put up for from \$350 to \$400. I don't think it can be put up for less than \$3500 or \$4000. Tacoma is a much larger place than Yakima, and it has no crematory; but the question will come before the council Wednesday night."

Councilman Linbarger: "A crematory is a necessity. I believe that it should be built. I am heartily in favor of the move, and I will support it, provided it don't cost too much. If it can be put in for \$350 or \$400, it should be put in right away. I am of the opinion that it will cost more than that. Mr. Marsh is a good business man and a very careful man in what he says, and I have no reason to doubt or dispute what he said regarding the cost, but

if it can be put in for that amount, it should be done.

Dr. Tetreau: "An incinerator or crematory for the destruction and combustion of garbage is used in a great many cities of the United States and of foreign countries. There are a number of methods used for taking care of garbage and table refuse. One of the most universally popular methods is a structure built or lined inside with fire brick and having two compartments, one for combustible material and the other for non-combustible material. It is practically a furnace, and everything that will burn is placed in the first compartment and dried, and then used as fuel to heat the other vat, which contains table swill and similar non-combustible stuff. This vat is located first in the crematory, and all the smoke, steam and odor is consumed, and quite a large amount of power derived from this kind of process. Many cities utilize this power for municipal light, pumping plants and various other purposes. This kind of a crematory in many cities of England is located beside schools, churches and other public buildings, without any noticeable odor. Quite a source of revenue is derived from such a plant.

### Tuesday's Markets.

The market rules steady at yesterday's prices, and few changes are reported in the various offerings. Little produce was brought to the city yesterday, owing to the rain. The market for beef is a trifle stronger, but veal is off again. Hay and potatoes are slowly advancing, and the quotations are better for good offerings. A number of ranchers expect to begin haymaking in the vicinity of Sunnyside next week, and a few small fields would have been mowed this week had it not been for the rain.

The value of the rain to the growing crops cannot be over-estimated, and the ranchers are rejoicing at the prospect of a few days' respite from the work of irrigating.

Home grown vegetables are arriving in large quantities, and they are of first-class quality. The prices are holding steady.

Berries are coming in in good shape. Several crates of home-grown strawberries are on the market, and started in at high prices. A few crates of cherries came in yesterday from California. They are going at fancy prices.

Following are the quotations on the leading commodities, corrected up to last evening:

NEW OFFERINGS.	
Strawberries, home-grown, box.	25c
Strawberries, California	15c
Cherries, California, pound.	10c
Apples, cold storage, 3-lb. for.	25c
Turnips, per bunch	05c
New potatoes, lb.	10c
Tomatoes	15c
Peas	09c
Gooseberries, per qt.	13c
New beets, per bunch	5c
Spring chicken, dozen	\$3.50

PRODUCE	
Potatoes, per ton	\$5@11
Eggs	20c
Butter, creamery, 2-lb. roll.	50c
Butter, ranch, per roll.	40c
Cheese, native, per lb.	20c
Asparagus, 5 bunches for.	25c
Spinach, 3 bunches for.	10c
Onions, two bunches for.	5c
Lettuce, 2 bunches for.	5c
Radishes, 3 bunches for.	5c
Carnots, new, 3 for.	10c
Rhubarb, 3 bunches for.	10c
Cabbage, new, per lb.	5c

LIVE STOCK.	
Hogs on foot, hund. lbs	\$5.75@6.00
Hogs, dressed, per lb.	6.00@7.00

# TAYLOR TOSSED TO THE TIMBER

CHASED TO THE TALL AND UNCUT

Ex-Tiger Twirler Treated to Thrilling Test, Tending Ten Terribly Trying Thumps.

If there was ever any doubt in the minds of Yakima lovers of the national game as to whether the Tigers could play ball or not, they should have seen the game Sunday. At no stage were they in danger of defeat. They handled themselves like veterans all due, no doubt, to the fact that they have had practice of late in the week-day games played here.

The visitors started out as though they had a cinch. This was probably due to the fact that Nagle made two errors on the first chances that he had, but that was the end. Nagle not only braced, but the team hit, and they hit when his meant runs—a fact that is in contradiction of the former games with Prosser this season.

Jewett was the star with the stick. Out of five times at bat, he secured four pretty singles, and each one counted. Capt. Kohls registered three hits, one for two bags. And even Danny Stanton, who it was thought never would get another hit, got in one for two sacks.

It was a great swafest. And all the time "Slats" kept on chewing his gum. He couldn't stem the tide, even with the advice of Capt. Goins, who did the coaching.

Guy Grafton officiated with the indicator and, while some exceptions were taken to his rulings, he was impartial.

Struck out—By Taylor 3, by Nelson 3. Passed balls—Moffatt 4. Hit by pitcher—O'Rourke, Nelson. Attendance, 500. Umpire, Guy Grafton. Time of game, 1 hr., 30 min.

**Engineer Noble Marries Everett Girl** Theron A. Noble, chief engineer of the reclamation department, stationed at Yakima, and Miss Charlotte Brownell of Everett were married at the home of the bride's father, F. H. Brownell, on May 9th. They immediately left for a month's tour of the northern states. They will be at home to their friends in North Yakima about June 9th.

You never heard of any one using Foley's Honey and Tar and not being satisfied. Sold by North Yakima Drug Store; A. D. Sloan, proprietor. F5

**ARE YOU WISE ON ALBERTA, CANADA? IF NOT, WHY NOT?**

10,000 Home-seekers Located There During April, 1906—That's the Record.

The Average Yield of Wheat per Acre is Almost Double What It Is in the Middle West States.

**THERE MUST BE A REASON FOR THIS; THERE IS; WHAT IS IT?**

The soil is a rich, black loam, with a brown clay sub-soil, and underneath that, frozen ground.

The land is ready for the plow in March, and during the long, warm days that follow, the moisture is drawn from beneath towards the surface, supplying constant nourishment to the roots of the grain—that's why grain matures in from 90 to 110 days and gives such a wonderful yield, while the rainfall is ample.

We can sell you this kind of land, ready for the plow, or to graze cattle on; one to ten miles from the railway; within the network of four railway lines; five growing towns, two beautiful lakes and running streams.

Price, \$8 to 12.50 per acre; one-sixth down, interest 6 per cent. Next year you would have to pay double this price; or, you can buy now and make a profit of 100 per cent in one year.

We can locate a limited number on hamesteads in the famous "Red Deer River District," between Calgary and Edmonton.

This is no "hot air"—nothing but "cold facts." Cheap transportation procured for parties wishing to go and inspect the land before buying.

**CANADIAN PACIFIC LAND CO.** E. H. Hiller, Fiscal Agt., 526 Colman Building, Seattle, Wash.
