SWANSON HURT BY HUGE ROCK

HURLED FROM BLASTING

Foreman at Camp No. 1 On Tieton—
Shoulder Shattered and
Other Injuries.

Struck violently on the side by a large rock and hurled to the ground as the result of an explosion of blasting powder, E. Swanson, foreman at Camp No. 1 of the reclamation service on the Tieton, narrowly escaped a horrible death Saturday morning.

Last night Swanson was reported to be resting easily, and unless severe internal injuries are discovered it is believed he will recover.

Swanson was watching an attempt to blow from its place by blasting, a huge stump and was apparently in a safe position. Flying rocks, however, flew in his direction and one struck him in the right side, resulting in serious injuries.

Swanson is well liked among the men. He was brought to this city about 3 o'clock Saturday afternoon and taken to the sanitarium and has been under the care of Dr. Rossiter.

His right shoulder is badly shattered and will probably cause him much trouble.

PRaises YAKIMA.

Spokesman-Review Encourages the
"Booster" Spirit.

The following editorial appeared in the Spokesman-Review:

The fame of the Yakima valley is so widespread that one might almost have thought it unnecessary to have a booster club to exploit its resources.

In New York, in Boston and in other eastern markets the Yakima fruit is eagerly sought for and people talk about the Yakima valley as a most a paradise. Yet it is not possible for a good thing to have too much publicity, and the Commercial

club of North Yakima has awakened to the fact that there are opportunities yet to be developed.

The "booster" spirit is a commendable one when it has something to back it—and it certainly has in Yakima. Numerous as the present population of the valley, fruitful as are its many ranches and prosperous as are its people, there is yet a large area of land to be settled on and cultivated. Thousands of acres will be reclaimed by irrigation projects under way. There is land for hundreds of home in one of the most productive sections on this continent.

If North Yakima and the adjacent county have prospered so abundantly without an organized publicity movement at home, it is natural to expect greater things in future when the plans now under consideration are in full working order. The Commercial club of that city is acting in harmony with the recognized plan of development in the whole Inland Empire, a plan in which it is realized that the growth and prosperity of one section reacts with good effect upon all.

More Residents—

R. L. Draver, foreman on the Hull ranch on the Ahtanum, was made happy by the arrival yesterday of his mother (sisters and little brother, of Lincoln, Minn. His father, elder sister and brother will also come here just as soon as they can dispose of their property in the Gopher state. Mrs. Draver is a sister-in-law of Mrs. L. L. Matterson of Capitol Hill.

Hoyt-Gish—

Albert T. Hoyt and Miss Dollie Gish were united in marriage Saturday afternoon at 3 o'clock by Justice of the Peace Taggard. The ceremony was solemnized at the office of Judge Taggard. The contracting parties are residents of this city.

A Lively Tussle with that old enemy of the race, Constipation, often ends in Appendicitis. To avoid all serious trouble with Stomach, Liver and Bowels, take Dr. King's New Life Pills. They perfectly regulate these organs, without pain or discomfort. 25c at C. C. Case's drug store.

Horse Breeders ATTENTION!

The Black Percheron Stallion, "TEDDY"
No. 31793.

Will stand for the season at the Wenas Stable, 121 South First St. For further information inquire of man in charge. This horse was awarded first premium at the Washington State Fair, 1906.

R. H. STEWART, groom.

JOHN GUDHIE, owner.

DIMMICK HAS THE CONTRACT

FOR TIETON PROJECT HAULING

Approximates \$30,000 and Includes
Freighting of Practically All
Supplies on Big Canal.

W. L. Dimmick of the Selah valley was awarded a contract Thursday to freight all the cement, steel and supplies to be used in Theodore Weisberger's contract on the Tieton canal. Mr. Dimmick will load the material at Natchez City and haul it from eight and a half to seventeen miles. The contract price will approximate close to \$30,000. Contractor Dimmick will use most of his own equipment, but will sublet some of the freighting.

He has bought half a block in Natchez City and is erecting his stables there, and Natchez City will be the base for his operations. He will employ from thirty-five to forty teams. The material for the Tieton canal is coming in freely. Two big cars of steel have arrived and ten cars of cement are expected daily. One car of electrical machinery and one car of rock crushers are now being unloaded at Natchez City.

Within the next two weeks the North Yakima & Valley railroad will be kept busy hauling the heavy freights, which are loaded at Natchez City. Natchez City presents a busy appearance at the present time, new houses are going up and everyone is doing a rushing business.

The government has leased a portion of the warehouse of Theodore Weisberger and will use this space for forwarding all supplies.

Mr. Dimmick, who has taken the contract for the freighting of the material to be used on the Tieton canal, is an old resident here and a contractor of long experience.

NEW BANK SURE

ONE CERTAIN FOR WEST SIDERS' BENEFIT.

Subscriptions for Bank Nearly All
In—To Be Capitalized
at \$30,000.

A bank for the West Side is an assured fact. Councilman Armbruster, who is at the head of the movement, states that the subscriptions for stock are about all made and comprise several of the most prominent business men of the West Side and a number of the well-to-do farmers of the valley. It will be known as the Farmers' and Merchants' bank and will be capitalized at \$30,000. The location has not been given out, but it is understood that it will be located in the vicinity of the drinking fountain on West Yakima avenue. A building of stone or brick will be erected purposely for the new business. All matters pertaining to the location and the building will be settled upon within the next few days, when material will be placed on the ground and the work rushed.

AT BOSTON STORE

GREAT IMPROVEMENTS ARE
MADE THROUGHOUT.

Every Department Is Beautified and
Now Store Has Every
Convenience.

The Boston store has undergone a complete renovation and is now one of the best department stores in central Washington. The interior of the store has been repainted and about 100 small incandescent lights have been installed. Recently two balconies were erected in the store, one in the center and the other to the right of the store. The center balcony will be used exclusively for a millinery department. A supply of spring millinery has been received and will be on exhibition Monday morning. The millinery department will be the best in the city. It will have four fitting stations equipped with large mirrors and with every convenience for trade.

The right balcony is devoted to the skirt department and has been fitted with a fine line of skirts. The balcony is 90 feet long and at the front of the department a large mirror will be installed to use when fitting. The rear of the balcony is a waiting room.

A portion of the rear of the store has been arranged as a ready-to-wear department. A large mirror will be placed here and the goods

will be put in cases with sliding glass doors. A fine line of spring goods has been received and placed in the department.

The reserve department has also been renovated and made larger, to take care of the spring goods which are constantly arriving. The store contains over 8,000 feet of floor space, and since the improvement has been made will be able to accommodate 3,000 customers a day as easily as 300 were handled before.

SAD HISTORY OF INSANE ORATOR

ACCIDENTS RUINED HIS MIND

Death of Daughter Preys Upon His
Mind and he is Sent
to Asylum.

Charles Heuttner was examined by physicians Saturday afternoon at the county jail and found to be insane. Judge Rigg ordered the man admitted at Medical Lake. He is confined in the county jail awaiting the arrival of the attendants from the asylum.

He was taken to the county jail Friday afternoon and placed in a cell. During the evening he tore up the bed clothing and burned it. He also made an attempt to burn the clothing in an adjoining cell, but was unsuccessful. When being examined by the physicians he claimed himself to be President Roosevelt.

Heuttner came from Colorado about six months ago with his wife and family. He is a carpenter by trade and was a sober and industrious man. About three months ago he slipped and sprained his leg just below the knee cap and was unable to work for two weeks. When he recovered sufficiently to resume work he was unfortunate and again sprained his leg in the same place. Last week the physician attending him placed a plaster cast on his knee.

Through despondency and the pain of his leg, it is stated, he started drinking and gradually lost his mind. When his daughter died a year ago he was in the same condition and was confined to the Colorado asylum for three weeks. He is a man of nervous temperament and it is thought the pain which he suffered from his leg made him lose his mind.

He would get up during the early morning hours and start walking the streets, and would not return until late in the evening. Although out the greater part of the day on the streets, he always returned home in the evening. It is stated that he went to the sanitarium early one morning and was found by the doctor outside and in an intoxicated condition. He was taken inside and laid on a couch, the doctor intending to give him treatment the next morning, but when the attendants arose he had left.

He has also visited several other places. He went to the Cascade lumber mills and wanted to buy a large supply of lumber, and also tried to rent several houses in the city.

At the time of the arrest, although completely out of his mind, he had no violent tendencies and had made no attempt at suicide. But it is stated that if he were not confined to the asylum it would not be a great while before he committed some violent act.

He has a wife and two children living in the Bonnie Brae addition in this city. The oldest of the children is 10 years of age.

TRY TO BREAK IN.

Four Dogs Attempt to Enter New
Pound.

The dogs like the new Dog Catcher Graham so well that four canines attempted to break into the pound on Front street Friday. The four dogs came snooping around at the door and seemed disappointed that they could not enter.

Dog Catcher Graham will open with his work in earnest today, and it is up to the dogs to keep shy. Graham has not decided as yet what method he will use in catching the untaxed dogs, but he is confident of bringing a large bunch of them into the fold. There are enough dogs in the city to fill several pounds and the dog catcher considers his field a good one.

Faster and faster the pace is set. By people of action, vim and get. So if at the finish you would be, Take Hollister's Rocky Mountain Tea. Case's drug store.

YAKIMA BILL STARTS SCRAP

SENATORS KICK ON \$30,000

Nearly Held Up \$4,200,000 General
Appropriation—Referred to
Joint Committee.

The \$30,000 state fair appropriation bill asked by the Washington State Fair association of North Yakima, raised a row in the joint appropriations committee of the senate and threatened to interfere with the general appropriation bill, which carries practically \$4,200,000.

The house committee had already considered the fair appropriation and agreed to it, but opposition is offered in the senate committee by Veness of Lewis, who demands an appropriation of \$5000 for the Washington fair for his county and Paulhamus of Pierce, who demands \$100,000 for prevention of the Stuck river floods.

When the fair appropriation was reached Representative Dickson of Kittitas moved that it also be passed, when Senator Veness moved that the committee dissolve. Members of both committees began vehemently talking at the same time and several started to leave the room when Senator Boone of Whitman interposed as a peacemaker and pleaded for a peaceful settlement of differences. His offer prevailed to the extent that a motion was adopted referring the fair appropriation to a joint subcommittee of five members of each committee.

But for this disagreement the general appropriation budget is agreed upon though subject to revision. It carries appropriations for all state institutions for both improvement and maintenance practically as asked for, the state college items being buildings, \$322,000; maintenance, \$213,250; Normal at Cheney, improvements, \$75,000; maintenance \$85,000. If an agreement can be reached on the fair item all members of both committees will be pledged to insist on the adoption of the entire report as now framed.

HUGHES IS SUPT.

TO HAVE CHARGE OF CON-
STRUCTION OF Y. M. C. A.

Has Had Much Experience In Erec-
tion of Large Buildings—
To Begin Soon.

The board of trustees of the Y. M. C. A. has decided upon employing H. W. Hughes to act as superintendent on their behalf of the Y. M. C. A. building now in course of erection.

Mr. Hughes was employed for a number of years with the Warren Roberts Construction company of Chicago, having left their employ about three years ago, since when he has been a resident of North Yakima. During his time with this firm Mr. Hughes was in charge of the construction of several important buildings, among them being the Modern Woodmen of America

building at Rock Island, Ill., the Sangerson county court house, Ill., and the College of Liberal Arts, Iowa City, Iowa. He comes, therefore with a knowledge of big buildings and will be of value to the committee in representing them upon the local work. He will begin work just as soon as the building committee calls upon him.

BIG TOURIST TRAVEL

ADVANCE GUARD ALREADY COM-
ING IN BIG NUMBERS.

Northern Pacific Officials Feel Good
and Are Certain Now of Ban-
ner Year.

Tourist travel under the low rates which went into effect March 1 is beginning to show its results in the arrival of the advance guard. Most

of them take advantage of the stop-over privileges and stop at various places on the way to look over the country, beginning in Montana, taking in portions of Idaho and tarrying a while in the cities and towns of Eastern Washington.

Northern Pacific officials report that the indications point to the largest traffic under tourist rates known in the history of the road. Thousands of people in the eastern states and in the middle west are turning their eyes towards Washington and other sections of the Pacific Northwest and the year promises a large immigration of people seeking homes and business opportunities in the Pacific coast states.

AGREEMENT HAS BEEN REACHED

YAKIMA IN THIRD DISTRICT

Conference of Senate and House
Committees Will Probably
Be Confirmed.

A decision has been reached by the conference between the house and senate committees which will evidently settle the congressional apportionment of the state and will place Yakima county in the Third district. This comes after much opposition to the original apportionment of the state and after some changes had been made.

An agreement at any rate has been reached, and it is believed the senate and house will accept the arrangement. The three districts as agreed upon by the conference committees are as follows:

First—Island, San Juan, King, Skagit, Snohomish, Whatcom and Kitsap.

Second—Chehalis, Clallam, Clark, Cowlitz, Jefferson, Lewis, Thurston, Wahkiakum and Klickitat.

Third—Adams, Asotin, Benton, Chelan, Columbia, Douglas, Ferry, Franklin, Garfield, Kittitas, Lincoln, Okanogan, Spokane, Stevens, Walla Walla, Whitman and Yakima.

The senate bill had put San Juan and Island in the Second district. These counties, in the house bill, were in the First district. The conference committee in the senate and leave them in the First district. Klickitat is switched from the Third to the Second district. Kitsap, in the original house bill, was in the Second district, the senate bill put it in the First with King county. The conference committee has agreed to the senate change in this particular.

The statement has been made that there would be no serious trouble in securing the indorsement of the conference committee in the senate and house.

Frisky Animal—

Wesley A. Lyons has brought suit in the superior court against Frederick Clark for \$1250 damages. In the complaint Lyons alleges that the defendant is the owner of a stallion and during 1906 the stallion broke loose and ran through the plaintiff's property, chasing his horses. He states that while endeavoring to put the stallion out of his lot it kicked him, and it was necessary to be attended by a physician.

Entertainment for Upper Moxee.

An entertainment and social has been planned for Friday evening March 15, at Upper Moxee hall. The entertainment will consist of music, pantomimes, tableaux, recitations and two laughable farces. The proceeds will be devoted to the library fund of District No. 40. Ladies will furnish basket lunch.

Are you tired, fagged out, nervous, sleepless, feel mean? Hollister's Rocky Mountain Tea strengthens the nerves, aids digestion, brings refreshing sleep. 35 cents, Tea or Tablets. Case's drug store.

SMOKK Nagier's "Extra Five" cigar. Union made.

Closing out plows at cost. Coffin Bros.

News! What is worth knowing you will find briefly and honestly told in the Morning Herald.

North Yakima Sanitarium

A thoroughly equipped medical and surgical institution. A beautiful location on Nob Hill commanding the finest view in the Yakima valley. New building, steam heat, electric lights, electric call bells. This is an institution where the patient is trained into health by giving careful attention to diet and the scientific application of hydrotherapy, electricity, massage and other methods. An ideal place for those in poor health to recuperate, or for those suffering from colds, rheumatism, neuralgia, constipation and "that bad feeling."
