NO INDIGESTION

Misery From an Upset Stomach Goes in Five Minutes.

Take Some Diapiesin Now and Forever End All Distress From a Disordered Stomach.

Every family here ought to keep some Diapiesin in the house, as any one of you may have an attack of Indigestion or Stomach trouble at any time, day or night.

This harmless preparation will digest anything you eat and overcome a sour stomach five minutes afterwards. If your meals don't tempt you, or what little you do eat seems to fill you or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Ask your Pharmacist for a 50-cent case of Pape's Diapiesin and take one triangle after supper tonight. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness or Intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for all stomach misery, because it will take hold of your food and digest it just the same as if your stomach wasn't there.

Actual, prompt relief for all your stomach misery is at your Pharmacist, waiting for you.

These large 50-cent cases contain more than sufficient to cure a case of Dyspepsia or Indigestion.

CHILDREN SET TREES TO BEAUTIFY CITY

E. L. Roney Thinks That Young Men Should Come West But Believes Little Money Is Required.

SPOKANE, Wash. April 10.—Fifteen thousand trees and thousands of shrubs and vines were planted on Arbor Day in Spokane by school children, the Spokane Tree-planting association, the Spokane Floral association, women's clubs and other organizations under the direction of Aubrey Lee White, president of the city park commission. They were assisted by J. C. Scuppel, city forester; Charles E. Balzer, park superintendent; Charles E. Jewell, botany superintendent; J. Herman Beare, principal of the North Central high school. Mrs. H. W. Allen, president of the Washington State Federation of Women's clubs, directed the work of these organizations which planted trees and flowers in every block outside the business district. After ornamenting their grounds the school children and 2000 high school students took up the work on public grounds and vacant lots and set out trees, shrubbery and plants. Young men without means who think they see in the western states, especially in the large cities, a short cut to success and fortune, are not familiar with conditions in that country, according to E. L. Roney, a former Twin City newspaper man who was here this week on a short visit from Washington state, where he has lived for the past three years. Mr. Roney declares that young men from the east who expect to make their fortunes in the west should have capital to invest with their services.

"Every year hundreds of young men from the central west and further east go to the coast cities without any means whatever, expecting to jump at once into something good," said Mr. Roney. "They were beginning to arrive when I left there two weeks ago. All of the large western cities are growing steadily, but the supply of young men in these cities for minor positions is always greater than the demand. Most of the newcomers are unmarried men who are willing to do almost any kind of work and at small wages, simply for the sake of staying in the west and taking advantage of future opportunities.

There is also a surplus of young women in most of the western towns. "For the man with capital, however even though it be small, there are many opportunities all through the west, especially in the small towns and farming districts." Mr. Roney will be remembered for his achievements on the cinder path while a student at Stillwater high school and later at Carleton college. He was a first-class hurdler and distance runner.

Mr. Roney is publisher of Fancy Fruit, the horticultural paper of eastern Washington, published at North Yakima. He was assistant secretary of the national apple show recently held at Spokane.—St. Paul Pioneer Press.

The program is to put him aboard a vessel first touching at Fort De France. The state department is much gratified at the way the French government has acted and will feel relieved that Castro is to be sent back to Europe.

Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

BUYERS AFTER DAIRY STOCK

Representatives of Biggest Dairy in United States Well Pleased With Yakima Animals.

Buyers are in North Yakima looking for dairy cattle. They want to pick up several carloads of the best obtainable. Cattle are now in demand and there is as great a demand for them in Yakima as in any other part of the state. However, those who have the price to pay can get a number of good animals in this valley and it is therefore probable, that Messrs. A. H. Flood and C. A. Bayman, of Spokane, who are now here, will take some of the local milk cows back home with them.

Biggest Dairy in Union.

Mr. Flood is president of the Broadview Dairy company of Spokane, the largest concern in the state. The company has purchased a section of land near Rosalia, Whitman county, and are buying 400 head of milk cows for that farm. They are already milking 600 head at their farm at Marshall junction. They are strictly a milk company and are supplying Spokane with the best fluid of the kind they are able to produce. At present they are the largest concern in the state and when they get to milking 1000 cows will probably be the largest in the United States as the dairies of the east, which supply New York, Philadelphia and such cities are for the most part 100 or 150 cow concerns.

Confer With Local Breeders.

The Spokane men were in consultation here Friday with Messrs. Marks, Davis, Croso and others of the big Holstein men of this section. They have been in conference also with the manager of the Kloeber ranch but none of the Kloeber cows are for sale. Before coming to North Yakima they found many excellent individual animals in the herds there they announced themselves as of the opinion that the dairy cattle as a whole are a "ragged lot." Those in this section, they said, are as fine a selection, as can be found anywhere in the state. North Yakima itself was a surprise to both visitors, neither of whom had been here within 10 years. They expected to find a place like Ellensburg instead of which they discovered better sidewalks and as good a paved street as they have in Spokane.

AHTANUM LANDS ARE GROWING IN FAVOR

Several Changes of Tracts Have Taken Place Within the Past Two Weeks.

There has been considerable activity of late in Ahtanum lands. Property in that valley has been moving more freely recently than for some time past. The Herald has referred previously to sales made by E. B. Marks and others. It is understood that within a week or so past Fred Parker has made a purchase from the Messrs. Croso; that the Lesh Land company has purchased the Hughes place; that C. A. Underwood has become the owner of the Sherman place and that L. D. Morris has sold his tract. Many of the newcomers to the city are buying small tracts in the various valleys which radiate from the central valley in which North Yakima is situated, but their purchases are small compared with the aggregate of the buys by the older residents who for some reason or other are taking a great fancy at this time to Ahtanum valley tracts.

BAR MRS. CASTRO FROM VENEZUELA

Wife of Iron Ruler Denied Right to Land—Leaves for France With Husband's Party.

They were not permitted to land or communicate with the shore. An apparent effort is made to keep Mrs. Castro from any direct communication with her husband's former political friends in Venezuela.
