

SYSTEMIC CATARRH.

One of many cases where Peruna has done what other remedies failed to do.

MR. C. A. LANDGRABE.

Mr. C. A. Landgrabe, Box 25, Coalburg, Ohio, writes: "I had been a slight sufferer for a number of years, but paid little or no attention to it, until the spring of this year, when my sufferings became very severe.

"I had pain in the head, back, spine, liver, chest, and various parts of my body, besides indigestion that caused me much trouble and anxiety. I often thought when I retired at night I would not live through it. I tried medical aid, but to no purpose.

"Not knowing what was my main trouble I wrote to Dr. Hartman, after reading of his treatment, for advice, telling him of my various ailments, and he notified me at once that I had systemic catarrh.

"After using the first bottle of Peruna I felt relief, so I continued to use it until I had taken four bottles, when I felt entirely cured. I recommend it to all others, believing that they will experience the relief that I did."

Peruna as a Tonic.

Mr. William F. Hawkins, 12 West St., Westerly, R. I., writes:

"I wish to give my testimony in favor of Peruna as a tonic. I have used the same for catarrh, and can recommend it to all who are troubled in that way."

STRAHORN PREPARES TO RECEIVE RAILS

Northern Pacific Shows Better Feeling by Laying Branch Line for Delivery of the Steel.

Whatever have been the differences between the Northern Pacific and North Coast railroads they appear to have been adjusted when George Donald and R. E. Strahorn dined tete a tete at the Yakima hotel some time ago and formally settled their argument regarding the routes of the respective roads through the Yakima valley. Since then other matters in dispute appear to have been amicably arranged and now the Northern Pacific engaged, at Kennewick, in the construction of a short branch line to facilitate the handling of steel rails for Mr. Strahorn for his North Coast road. Workmen of the Northern Pacific railroad are now constructing the track which will take the North Coast rails from the main line to a point on the roadbed near the crossing of the river from which they can easily be handled by the Strahorn employes.

This fact means also that the North Coast is expecting the early delivery of its steel for the line and this in its means that the actual laying of rails, a thing long hoped for, is in the near future.

Word has reached North Yakima that the Strahorn people are very active in their operations near Zillah and that they may be expected at no distant date to make an appearance just below the gap south of this city.

INDIANS WILL HOLD POTLATCH

WHEN HOP PICKING IS OVER

Yakimas Want Help of White Man in What Will Probably be the Final Big Affair of Its Kind.

Yakima Indians have procured the use of the state fair grounds for a potlatch to be held the closing days of this month or the early days of October. The time is not definite but will be as soon after the close of the hop picking as the Indians can be assembled in this city. George Me-Nick is the moving spirit in the undertaking and was escorted about the city Monday in his efforts to see representatives of the fair commission by S. E. Farris who is an old acquaintance of many of the Yakima Indians. Mr. Farris says the red brothers propose to have the best potlatch they have ever held and the reasons therefore are various.

Many Visiting Indians.
There are more visiting Indians in Yakima this fall than has been the case for years past. Representatives are present from the tribes of east, west north and south. There have been a great many Indians in Seattle this year and many of them have returned by way of Yakima traveling hence to the Columbia river as the great highway by which they may reach their homes in almost any direction.

It is two years now since the Yakima Indians have had a potlatch the last being held at Toppenish on the track there of Lancaster Spencer. That track has disappeared before the hand of progress in this valley. It has been cut up by the plow, the race track has become a cultivated stretch and the grandstand converted to other uses. It has long been felt by the more progressive Indians that because of the interest taken by the white people in their potlatch it should be held in the center where most whites are to be found and hence there has been a desire for several years to get it on the race track here.

New Future for Indians.
In a year or two the reservation will pass out of existence as such and with it the Indian will enter into a new stage of his development. That stage will mean a new condition of affairs for the younger Indians and the Yakimas will not be in a position to entertain their cousins from other tribes as they have in the past. Therefore it is likely that the potlatch of this year, if the white man will turn in and lend a hand, will be the biggest that the future will see.

Some important events are to be pulled off this year. Several matches have been made between famous running horses owned by the sporting element of the various tribes. In addition there will be a number of open races, some dancing and the other attractions which appeal to the Indian. Then there is a big bone game to be decided between the Yakimas and their ancient rivals in that pastime and Nez Perce Indians.

Big Game This Year.
Two big games have been played in recent years and each tribe has won one. This will be the rubber. At the potlatch at Toppenish two years ago the game lasted eight hours and went to the Yakimas who thus won something like \$1000 in addition to blankets, saddles, ponies and numerous other pieces of property. At that time photographs were taken of the Indians at their lay which are said to be the only photographs of a really important game of that kind which have ever been taken. This bone game, according to experienced Indian observers, shows the red man's characteristics in his play, better than any other and has been made a study of by students of this and other nations.

The Road to Success.
has many obstructions, but none so desperate as poor health. Success today demands health, but Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood and tones and invigorates the whole system. Vigorous body and keen brain follow their use. You can't afford to slight Electric Bitters if weak, run down or sickly. Only 50c. Guaranteed by C. C. Case.

GIVES GROUND FOR WIRELESS

W. L. Steinweg Adds a Public Utility and Educational Attraction to North Yakima.

W. L. Steinweg has given a lease, for five years, of sufficient land for the needs of a wireless telegraph station to C. D. Cooper of the United Wireless Telegraph company. The station will be at Sumach park and Mr. Steinweg, in the regulations he has insisted upon with Mr. Cooper, has made it a public attraction as well as a public benefit. The pole, which is to be about 200 feet in height, will be erected to the south and west of the pond in the park and the ground occupied by it and the guy wires are to be accessible at all times to the public, as are also the other features of the apparatus connected with the enterprise. In addition to the pole there will be an office building, receiving station, etc. The agreement was made Tuesday.

Work of Public Benefit.
Mr. Steinweg, who has but recently returned from a trip to Canada and the Sound, made a number of enquiries among business men while away regarding the wireless telegraph system and found that in practically

every instance its workings are highly satisfactory. Seattle business men told him that they are enabled to get unusually quick communication with San Francisco, Alaska and other coast points, north and south, and that to them the wireless has grown to be a necessity, giving as it does unusually rapid communication with distant points. For this reason Mr. Steinweg considered it a good thing for North Yakima to have a station located here, and, accordingly he is providing the necessary ground for the purpose.

Becomes Public Attraction.
Searching about as he always is for attractions for Sumach park, it occurred to Mr. Steinweg that a wireless station there would, in addition to being of service, prove of interest to park visitors and an educational feature as well. Considerable ground is needed because of the spread of the guy lines for the 200-foot pole. By the arrangements made both the company and the patrons can use this ground and a public utility be converted into a public attraction.

Arrangements for the occupancy of the land have about been completed and Mr. Cooper and his company will at once set to work preparing for the establishment of a wireless station here.

DECLARES ARREST WAS FOR SPITE

H. H. Miller May Demand Satisfaction from Police for Confinement in Jail.

H. H. Miller, proprietor of the Yakima livery stables on north Front street, threatens to do things to the local police department for confining him an hour and a half in the city jail without due cause, he alleges. Mr. Miller was arrested Monday morning for leaving three of his wagons in the street, which the officers claim were interfering with traffic. According to Miller, he was locked up without the privilege of seeing an attorney or giving bail for his release. He asserts that it is an effort on the part of the policemen to injure his reputation.

"In leaving the wagons on one side of the street," said Miller, "I was doing nothing that the other liverymen of the town are not doing every day. The street was not blockaded at all. There was plenty of room for a passage."

"I am conducting a legitimate business, with a big payroll, and am entitled to the protection of the city. My arrest was caused by spite."

COMPANY E TO GET PRACTICE AT TARGETS

Major Lemon Will Have Charge of Companies H and I at Spokane—Tuesley Will Assist.

Orders issued by Geo. B. Lamping, adjutant general, call for a six days practice for Company E under the direction of Captain Curry. The date is set to begin September 20 and will run to September 25. Company E will march from the armory in North Yakima to the target range in the Moxee and establish a shelter tent camp. Major Lemon will have charge of Companies H and I at the Spokane range during the same dates. Lieutenant W. F. Tuesley will report for duty with Major Lemon in connection with the Spokane camp.

The annual rifle match for the governor's trophy, between six men from each organization of the N. G. W., and the individual skirmish match will be held at the target range at Orilla, Wash., from October 4 to 8, the rules of the national match for 1909 to govern.

A Narrow Escape.

Edgar N. Bayless, a merchant of Robinsonville, Del., wrote: "About two years ago I was thin and sick, and coughed all the time, and if I did not have consumption, it was near to it. I commenced using Foley's Honey and Tar, and it stopped my cough and I am now entirely well, and have gained twenty-eight pounds, all due to the good results from taking Foley's Honey and Tar. North Yakima Drug Store."

PARKER LIQUOR CASE IS NOT DISPOSED OF

County Commissioners, However, Treat Their Constituents to Many New and Better Roads.

Whether a license for a saloon at Parker is or is not to be issued by the county commissioners will be determined on October 5, to which time the hearing of the petition of E. McDaniels has been postponed, and with it the protests of residents of Parker. The matter was discussed at some length before two of the three commissioners Saturday but no conclusion could be arrived at.

The Pettijohn company was awarded the contract for graveling the Granger road, the price being 70 cents per cubic yard. D. T. Daniels was awarded the contract for graveling the Cemetery Hill road at Zillah, his price being 79 cents. For opening and grading the Barker road in the Selah valley John M. Hogan was the successful bidder. His prices were 22 cents for earthwork, 40 cents for loose rock and 75 cents for solid rock.

A petition of residents of Grandview for vacation of south Fourth street between West B street and the Northern Pacific right of way was granted.

NAME TAFT COMMITTEES

BY COMMERCIAL CLUB TODAY

Noted Men Will Accompany President on Visit to North Yakima This Month.

Committees will be appointed today by President Alex. Miller of the Commercial club to have charge of the entertainment of President Taft on his visit to North Yakima September 29. At a meeting of the governing board of the Commercial club last night the reception of the president was the chief matter taken up and a list of several committees made up to have charge of the reception. The members of these committees will be appointed this morning by President Miller to report not later than Wednesday night, when all the committees will meet to work out final details.

Company E has been selected by the Commercial club as a guard of honor to the president while in the city. Chief Story has written to Adjutant General Lamping requesting him to permit the local company to act, inasmuch as the chief does not feel that his force is sufficient for the occasion.

Noted Men Come.

With President Taft will be several other noted men and a number of newspaper men. It is expected that Secretary Ballinger will accompany the president on this part of the trip, as will also John Hays Hammond of Massachusetts. Other members of the official party will be Captain Archibald Butts, military aid to the president; Assistant Secretary Wendell W. Mischler; Charles C. Wagner, stenographer; Dr. J. J. Richardson; Arthur Brooks, messenger; James Sloan, Jr., and Joseph E. Murphy and Gerrit Fort, assistant to President Brown of the New York Central.

The newspaper men who will accompany the presidential party are Robert T. Small for the Associated Press; Robert T. Hazard, the United Press association; E. A. Fowler, New York Sun Press association; William Hoseter, Hearst News Service; Sherman P. Allen, New York Herald; Harry L. Dunlap, New York World.

SHAW GOES TO BIG LEAGUE

Lad Who Learned to Play on Vacant Lots of This City Pet Worcester—Fans—Makes Hit That Wins Flag.

"Hunky" Shaw, the North Yakima ball player who is holding down third base for the Worcester team in the New England league has been drafted by the Chicago White Sox, according to word received by relatives in this city. Shaw was afraid that his chances for a trial in the big league faded with his release from Elstun in the National league, but his good work this season for Worcester both in the field and at the bat has brought him to the attention of the White Sox manager. Next spring "Hunky" will report to the Chicago team and sees in this chance to be a big leaguer.

Pet of Fans.

In the eyes of Worcester fans, "Hunky" is of more importance than the discoverer of the North Pole, the newspaper of that town had his picture on the front page three times in one week. Worcester and Providence were tied for first place and in the final game of the season the North Yakima product lammed out a three base hit, brought home the winning run, leaped into the limelight, and won Worcester the pennant. They offered him anything he wanted, and talked of running him for mayor. "Hunky" is known as "Buzzer" Shaw, high grade third sacker in Worcester, and the editor of the Worcester Telegraph, wrote an editorial on "Our Buzzer." Shaw led the New England league in batting and was second in fielding, so he is entitled to all the good things the reporters are saying about him. Shaw expects to leave at once for North Yakima and will reach this city about September 17.

FLOUR GOES DOWN BUTTER COMES UP

Chances Are That There Will Be Other Changes in Price of the Stuff From Which Bread Is Made.

Flour has gone down, butter has gone up and eggs are hard to procure. There will be another drop in flour; there is ample opportunity for butter to become more expensive and when the hop pickers and other ranch hands have scattered the egg supply will concentrate in the city. So far as the retailer is concerned butter has advanced five cents a two pound roll and is now at 85 cents. It is wholesaling at 37 1-2 cents per pound. Flour has been reduced 10 cents per sack and Yakima Best is now retailed at \$1.55. It is altogether probable that there will be another reduction.

Testifies After Four Years.

Carlisle Center, N. Y., G. B. Burhans writes: "About four years ago I wrote you that I had been entirely cured of kidney trouble by taking two bottles of Foley's Kidney Remedy. It entirely stopped the brick dust sediment and pain, and all the symptoms of kidney trouble disappeared, and after four years I am again pleased to state that I have never had any return of those symptoms, and I am evidently cured to stay cured." Foley's Kidney Remedy will do the same for you. North Yakima Drug Store.

YAKIMA BUTTON WAS A SURE LODESTONE
County Treasurer Frank Bond Says Little Emblem Aroused People of Dakota to Ask Questions.

"This little Yakima button that I have in my coat," said County Treasurer Frank Bond, "gave me more fun during my trip east than anything else I encountered. I don't know what sort of a trip I would have had without it but, with it I certainly was busy. Everybody who saw it wanted to stop and ask questions of me. They are pretty restless people back in Dakota just now and they have their gaze pointed westward towards Washington."

ESTATE SHOWS INCREASE.
Land Purchased Decade Ago Sold Saturday For Big Increase.

John S. Eldredge, of Grand Rapids, Mich., representing the Edward Eldredge estate, while in North Yakima Saturday closed the sale of 30 acres in the Wide Hollow for \$30,000. This land was purchased ten years ago by the older Eldredge for \$60 per acre. The new owner is J. Simmons of Chicago, a banker and it is understood that he will shortly remove his family here.
