

# ERROR DRIVES OFF PALSY

## Paralyzed Woman Cured at Seeing Mouse in Can—Fright Brings Back the Use of Leg and Arm in Two Days.

LONDON, March 14.—An extraordinary instance of "cure by shock" has occurred in Kentish town. A woman who had been completely paralyzed for nine years was restored to her normal state after being frightened by a mouse.

In August, 1901, Mrs. Mary Ann Sandford, a dressmaker, residing in Warden road, Camden town, was working hard to complete orders for the bank holiday of that year. With out any warning she was struck with paralysis all down her right side. For some days she entirely lost her speech, but this gradually returned to her. But her right arm and right leg were completely paralyzed, together with the muscles on the right side of her face. In fact the right side of her body lost all power of sensation and seemed to undergo a withering influence. About two years ago she accidentally ran a needle through the index finger of her right hand, but she felt no pain whatever, and no blood came. She was seen by one of the best specialists on paralysis, and they all pronounced her case incurable.

### Dead Mouse in Beer Can.

In this state Mrs. Sandford remained until Saturday night last, on that night she told a girl who was with her to get down a bottle from a shelf and fetch a pint of beer. The girl got down the bottle and found a dead mouse in it.

She told Mrs. Sandford and took the mouse to show her. It so happens that some fifteen years ago Mrs. Sandford was frightened by a mouse, which ran up her arm one night when she was sitting by the fire reading and crawled down the neck of her dress. Ever since then the sight of a mouse has always brought on a feeling of terror.

Mrs. Sandford thought the mouse, which the girl brought to her, was alive. She at once began to scream with fright, and continued to do so until she was assured that it was dead.

### Wakes to Find Herself Cured.

Throughout the night of Saturday she got no sleep, and on Sunday she felt a curious tingling sensation all down her right side. On Monday morning, when she awoke, she found to her surprise and delight that she was able to use her right hand as well as ever she could and that she could walk without assistance.

Ever since she has been regaining her strength, and her doctor has informed her that she is quite recovered her health.

Mrs. Sandford told her story to a reporter: "Last week," she said, "I could not pick up a piece of paper. It has been an extraordinary experience, and I can hardly describe my sensations when the blood began to circulate again through my paralyzed limbs. But, after nine years of helplessness, it seems so good to be able to walk without help and more about as one wants to."

# BOSSSES WORK GUMSHOE.

## In an Effort to Ascertain What Is the Political Feeling of People in Lower Valley.

Politicians of this section of Yakima county are deeply interested in the proposal of politicians of the country below the gap to unite as against North Yakima candidates for county officers. They are asking what is meant and whether the plan is not so good a one that it will carry if a little energy is put behind it. They fear the move and do not know as yet what to think of it. Incidentally it may be said that since the announcement was first made of the probability of a lower valley line-up there has been considerable gumshoe work on the part of the politicians, especially of the world-bebosses, to various of the county towns. Their idea is to head off the movement, for in it they see the seeds of county division.

### Question of Division.

North Yakima politicians, under present conditions, would not view with any consideration any plan of county division. If, however, the officers, by any political manipulation, went to the lower valley, then the division, sought by a lower county element, would receive hearty support from the aspirants for office at this end and would be achieved. It is to prevent all this that the "bosses" are making their gumshoe tours. Under the present primary law, which, among other things, advertises the ambitious, there is not felt any of the old fear of party leaders and they are not in a position to dictate. This is more particularly the case in the present situation, as the proposed movement of lower valley towns would be non-partisan to the extent that the proper man for the office would be the first consideration and either democrat or republican might be named.

### Declines to Give Views.

Charles F. Bailey of Granger, who was mentioned in the Herald as one of those present at the original caucus, was in North Yakima Friday. He admitted when questioned that he had been talked with by a number of politicians regarding the plan of a combine against North Yakima but declined to say whether any further steps than those already outlined have been taken. He declined also to state whether another caucus had been planned and declared that those in the move are confident of success.

# SWEETHEART HELPS VICTIM OF WRECK

## Leavenworth Girl Makes Hard Trip Across Cascades to Reach Body of Her Fiance.

WELLINGTON, Wash., March 11.—The tears streamed down the grizzled and weather-beaten cheeks of the men at work on the wreck at the foot of the avalanche when they witnessed the grief that came from the broken heart of a pretty girl who came to claim her dead. Miss Katherine Fisher, of Leavenworth, whose sweetheart, Fireman Earl E. Bennington, was pinned beneath a locomotive, made unusual efforts to be near the body of the man she loved when it should be taken down the snow trail on a sledge to the station at Scenic. She left Leavenworth several days ago and reached Scenic by way of Spokane and Seattle. She put on trousseau to go over the mountains trail and arrived at Wellington while Bennington was still beneath his locomotive.

### Workmen Are Overcome.

The workmen secured hydraulic jacks and released the body. Miss Fisher was advised not to tax her strength by viewing the body, but she refused.

Her tears moved the body bearers out of the indifference with which they have looked upon other effects of the disaster. They turned away and brushed their eyes with coat sleeves. Miss Fisher and her big Irish sweetheart would have been married within a few months. He was on the passenger run and his visits to Leavenworth were the principal events in the life of the young woman who wore his flag.

### Miss Fisher is more than ordinarily pretty. She has big brown eyes and a graceful form, but the thing that appealed most to the rugged men at Wellington was her staunch loyalty and her pluck.

"Earl's folks live in Canada, some where," said Miss Fisher. "If I cannot find them I sha'n't take his body and bury it."

# WAPATO TO HAVE FIRE DEPARTMENT

## Joseph Curry Is Chief—Power and Light Franchise Granted and Accepted.

WAPATO, Wash., March 12.—At a regular meeting of the town council held this week two ordinances were passed, one creating a health board and the other a fire department. Mayor Douglas appointed Joe Curry chief of the fire department and the chief is now busy organizing the department, which is to consist of not to exceed 12 firemen. It is probable that Dr. C. R. Duncan will be the appointee for health officer.

At the same meeting of the council an acceptance was received from the Yakima Valley Power company of the franchise recently passed by the council, granting that corporation the right to furnish power and light throughout the city for a period of 15 years. The franchise calls for the furnishing of light and power within six months from the acceptance of the ordinance.

# MOXEE VALLEY DRAINAGE.

## One of Most Beautiful and Promising Sections of the Yakima Basin Is in Need of Care.

"There is one thing that is to be regretted about the Moxee valley," said a well-known engineer on returning from a trip of inspection through the Moxee country, last night. "and that is the way they have neglected the construction of a suitable drainage system for the valley. There is no doubt but that the Moxee valley is one of the prettiest, if not so, of the many valleys tributary to the Yakima valley, and to see vast areas almost completely taken by alkali is an eyesore to any person traveling through that country. It is true they have a drainage system traversing practically the entire length of the valley but as this has but a very few lateral tribu-

"There is one thing that is to be regretted about the Moxee valley," said a well-known engineer on returning from a trip of inspection through the Moxee country, last night. "and that is the way they have neglected the construction of a suitable drainage system for the valley. There is no doubt but that the Moxee valley is one of the prettiest, if not so, of the many valleys tributary to the Yakima valley, and to see vast areas almost completely taken by alkali is an eyesore to any person traveling through that country. It is true they have a drainage system traversing practically the entire length of the valley but as this has but a very few lateral tribu-

aries to it, it does but very little good.

### Depth of Drain.

The project of which drains should be placed varies to some extent, but in no case should they ever be higher than six feet beneath the surface. Of course main drain ditches, or spillways for the smaller drains, should be constructed at a greater depth than the lateral drains.

### "The one drain ditch that is used at the present time is placed at about the proper depth for good drainage, but as it is not doing the work or accomplishing the results for the valley it should.

### Should Seek Relief.

"When alkali once gets started toward the surface of the land it is difficult to obstruct its progress without immediate relief in the way of an up-to-date and complete drainage system. It is just the right time to begin work on it and the sooner the farmers in that valley band themselves together for this work, the quicker they will receive relief."

### Bickleton Rancher Drops Dead.

On Wednesday evening about 8:30 o'clock this community was deeply shocked to learn that Mr. Stephen Matson had died at his ranch home about four miles east of Bickleton. Mr. Matson was going about doing his chores when the summons came when he was seen to fall in some meadow. He was the only son of a family of the same name, but he was dead when they reached him. Stephen Matson was born in Denmark, March 2, 1853, and died on the anniversary of his birth. He came to the United States when 20 years of age, and was in New Jersey one year, going from there to California, and two years later came to this section, and became one of our most successful farmers and stock raisers, owning and controlling about 1000 acres of land.—Bickleton News.

# SUNNYSIDE SOON TO HAVE CITY WATER

## Well Is Given a Test of Twenty-Seven Hours and Shows no Failure.

The dream of Sunnyside for city water is about to be realized. Only a few more obstacles to clear away, and they of trivial nature, and clear, sweet, pure water will pour from the domestic faucet in any quantity. Lugging water from a distant pump well was one of the lost arts for Sunnyside.

aries to it, it does but very little good.

# SUNNYSIDE SOON TO HAVE CITY WATER

## Well Is Given a Test of Twenty-Seven Hours and Shows no Failure.

The dream of Sunnyside for city water is about to be realized. Only a few more obstacles to clear away, and they of trivial nature, and clear, sweet, pure water will pour from the domestic faucet in any quantity. Lugging water from a distant pump well was one of the lost arts for Sunnyside.

Saturday representatives of the contractors were in town and made the connections on the big pump and started the machinery. A watch would not run smoother. The flywheel about its work like a happy housewife.

A severe test was given the well, to determine the amount of water which might be depended upon. The machinery was run continuously at capacity for twenty-seven hours. At the finish the water remained at the same level in the pipe as when the test began. The streets about were flooded, and it seemed an awful waste of good water.

The next move is to fill the reservoir with water to stand for a few days, then flush it out and fill it again, when the mains may be flooded, when the city water works will be an actuality. The water is of excellent quality, from the reaction of every test so far given. It is proposed to have made a bacteriological and chemical analysis, to reassure the possibly timid few who may look askance on the new product, however needless their caution. The water is brought from 300 feet below the surface, and there is not one chance in a thousand that it is not clean and some free from bacteria or impurities of any kind.—Sunnyside Sun

# Advertised Letters.

The following letters were uncalled for at the close of business March 12, 1910, at the North Yakima postoffice.

Mrs. Alice Adamson, Frank Broadstreet, Miss Stella Brown, Mr. Ballock, Mrs. Margaret Baker, Mrs. J. C. Brown, W. H. Buckner, A. E. Cobb, W. E. Caston, Mrs. C. A. Caston, Mrs. M. E. Craven, Miss Lizzie Daniels, Joe Pellese, Miss Dell Feeney, Mrs. L. R. Fuller, Miss Mabel Gibson, Mrs. Ellen Hawson, S. F. Hall, H. S. J. Henson, Mrs. L. J. Hays, Bert Henes, Ed. Hauxwell, Mr. G. E. Judd, Mrs. B. B. Jenkins, P. C. Kosson, J. R. Laycock, Mrs. P. C. Magill, Mrs. O. W. McDonald, Mrs. Lluene Means, Dr. John M. Osborn, Ben Owens, Miss Mae Orrell, R. G. Peck, Mrs. J. P. Petty, Mrs. P. M. Robertson, E. T. Rooney, E. R. Parker, Mrs. John Strawn, Mrs. Joe Syeler, Joe Spencer, W. Fred Smith, Mrs. Robt. Scott, Mrs. Blanch Tovey, A. J. Ulrey, Wilbur Wheeler, Roy J. Williams, M. W. White, Mrs. Howard Wilson, John Wright, Mr. Young, Melvin Young.

One cent due on each letter advertised.

W. L. LEMON Postmaster.

### Capt. Bogardus Again Hits Bull's Eye.

This world famous rifle shot who holds the championship record of 100 pigeons in 100 consecutive shots is living in Lincoln, Ill. Recently interviewed, he said: "I have suffered a long time with kidney and bladder trouble and have used several well known kidney medicines, all of which gave me no relief until I started taking Foley's Kidney Pills. Before I used Foley's Kidney Pills I was subjected to severe attacks and pains in my kidneys with suppression and oftentimes a cloudy voiding. While upon arising in the morning I would get dull headaches. Now I have taken three bottles of Foley's Kidney Pills and feel 100 per cent better. I am never bothered with my kidneys or bladder and once more feel like my own self. All this I owe solely to Foley's Kidney Pills and always recommend them to my fellow sufferers." North Yakima Drug Store.

# MOUNTS PULPIT, TRIES TO PREACH

## William J. Miller Causes a Sensation as He Demands Right to Speak.

SEATTLE, March 14.—"I have been appointed by God to take charge of this church," said William J. Miller, heavy-set, well-dressed man, as he arose from his seat and stepped upon the platform at the Boylston Avenue Unitarian church at the commencement of the morning services yesterday.

Rev. Dr. J. D. O. Powers, the pastor had just arisen to deliver his sermon, and appeared startled as the stranger took his place on the pulpit platform and began to address the congregation in a loud voice.

Dr. Powers went over to him and touched him on the shoulder. "I have been commissioned by God to speak and I will speak," shouted the stranger.

### Turned Over to Police.

Dr. Powers walked to the edge of the pulpit platform, calling the congregation to be quiet, called two of the ushers to take the stranger out. Miller offered no resistance, and was led out of the church and turned over to a patrolman. He is now in the city jail, and will be held pending an examination as to his sanity.

To the police Miller stated that he had been appointed by God to take charge of the pulpit of the Boylston Avenue Unitarian church, and intended to do so. When asked his age he said:

"In the old life I am 31 years old, but in the new only six months."

Two weeks ago Miller went to the platform of the church and handed a written sermon to Dr. Powers, ordering that it be delivered to the congregation. He was taken from the church with little difficulty.

### Recognition for EDGAR ALLAN POE

Many Societies Will Seek to Have Poet's Name in Hall of Fame.

NEW YORK, March 14.—Edgar Allan Poe's name will be perpetuated in the Hall of Fame of New York University as a result of this year's election of candidates unless all signs fail. The fight for Poe has already been renewed with vigor, and those who labored so hard for that end and also with their view that a moderate drinker suffers physical injury.

Mr. Zimmermann is engaged in the real estate business and spends five hours in his office daily. Every afternoon he walks at least four miles, cigars a day and have been an inveterate smoker since I was 14 years old. I disagree with doctors who claim that smoking is injurious and also with their view that a moderate drinker suffers physical injury.

### NORTHWEST NEWS

WALLA WALLA, Wash.—J. L. Dumas of Walla Walla and Dayton, reports that his 240-acre fruit ranch in the Touchet valley has come through the winter in perfect condition. The trees are strong, and fruit spurs have never been more numerous. There is every prospect for an unusually heavy crop. The peach trees have survived the exceptionally hard winter, and the buds are already swelling. Spring pruning is well advanced over the Walla Walla country and the annual battle with the pests will soon be begun. Mr. Dumas is now more interested in the apple blight than in any other plague to which apple flesh falls heir. The maggot is new in these parts and affected some fruit last year. So far authorities have not issued directions as to how to combat it.

EPHRATA, Wash.—With 300 men from Quincy, Wilson Creek and Ephrata fighting flames which started in the Club cafe today, a 35-mile gallop carried the fire beyond control and when chemical engines from nearby towns had finally checked its spread the damage totaled \$120,000, with an insured value of \$50,000.

Like a prairie fire the flames swept over the town, mowing down buildings as if tinder. The new brick Ephrata hotel was razed after the cafe walls had fallen. L. N. Havland's hotel costing \$25,000, was destroyed.

WELLINGTON, Wash.—An avalanche that swept down the mountain-side above Alvin, a small station three miles west of here on the Great Northern railway, this morning knocked a rotary snowplow and its engine from the high line, carrying them 200 feet down the side of the canyon, and sweeping on down the low line, demolished a snowshed and knocked out one span of small bridge one mile east of Scenic Hot Springs.

John Annon, an engineer, was caught in the wreckage and received two broken ribs. He was dug out of the snow and was taken to the hospital at Everett.

An Italian laborer is missing and is thought to have been killed. These are believed to have been the only casualties resulting from the slide.

DAYTON, Wash.—Damages to roads in Columbia county will total \$12,000 to \$15,000, according to county commissioners who today completed a trip through the county to estimate the amount necessary to repair damages. North and east of Dayton the roads are practically gone. Mud washing down from the hills has filled cuts 10 feet. It is reported, while rains and freshets have gullied the roadbed several feet. A number of bridges are gone and few in this county escaped without being damaged.

PROSSER, Wash.—Yesterday a four-horse team belonging to Osborne Leitch became frightened at a passing engine and made a flying trip through the principle business streets. Mrs. John Evans and Mrs. H. E. Bean, wife of the deputy sheriff, just escaped harm. While these women were driving down Sixth street a collision seemed inevitable, when Mrs. Bean reined the team sharply into an alley just as the runaway tore by. The most valuable of the runaway horses was killed.

# A FEARLESS, HONEST PREACHER GIVES HIS OPINION OF PE-RU-NA.

## An Up-to-Date Clergyman Describes an Up-to-Date Household Remedy that Has Had the Test of Time and Is Known the World Over.

Some preachers are afraid to give an outspoken opinion on any remedy, however highly they may esteem it. Others are not afraid.

One of those who is not afraid is quoted below. Read what he says. He means every word of it. If you doubt it write him a letter, enclosing a stamp. He will tell you what he thinks.

Rev. J. T. PEELER, Hendersonville, N. C.

### Catarrh of Stomach.

REV. J. T. PEELER, Hendersonville, N. C., writes:

"I desire to make known for the benefit of suffering humanity my experience with Peruna."

"I was afflicted with catarrh of the stomach, and though I tried many remedies and applied to several doctors, it was all in vain."

"Had it not been for Peruna I believe I would have been in my grave to-day."

"I have every reason to believe that Peruna is the greatest remedy for catarrh known to the world. Therefore I have been, and shall continue to recommend it to those who are unwell."

Rev. H. W. Tate, 920 Lincoln Ave., Walnut Hills, Cincinnati, Ohio, writes that for several years he has been troubled with a peculiar spasmodic affection of the throat, which interfered with his vocation as a preacher. He took Peruna and his trouble disappeared.

Rev. J. G. DUKES, Pastor of the Unitarian Church at Pinetown, N. C., writes:

"My wife has been in a very bad state of health for several years, and nothing seemed to do her any good until she began to use Peruna one month ago, since then the color has returned to her face, and she is gaining in flesh every day, and I believe she is a well woman to-day."

"My little boy, ten years old, was pale and had but little life. He began to use Peruna the day his mother began. To-day his face is rosy, and he is out in the yard running and jumping with the rest of the children."
