

BRYAN LOSES HISTORIC HOLD

Leadership Which "Peerless One" Has Maintained For Twenty Years, Falls at Last.

RELIEF COMES WHEN FINAL VOTE IS TAKEN

Rival Candidates For gubernatorial nomination, address convention and hurl verbal shafts at each other.

GRAND ISLAND, Neb., July 26.—

Nebraska democrats tonight wrested the leadership of the state organization from William J. Bryan on the issue of county option when by a decisive vote they registered their unbelief in his present policies after listening to an impassioned appeal from Bryan, who declared the liquor interests were organized to secure political control of the state.

The high tariff on steel, woolens, rubber, lumber and other favored products are condemned and the republicans are accused of making returns to "plundering trusts for campaign contributions two years ago."

There is condemnation for "surrendering to Aldrich and Cannon the control of the tariff revision and for using his patronage to force unwilling congressmen of the republican party to accept their dictations."

Conservation Favorable. "Conservation of natural resources is endorsed and the policy condemned under which favored capitalists and political syndicates secure control of water power and coal sites and other sources of the nation's wealth in states and in Alaska."

The vote on the Bryan substitute for the majority was: Majority plank 647; Bryan plank 198. The Flaherty substitute lost by practically the same vote.

GRAND ISLAND, Neb., July 26.—Amid a tumult of cheering, Permanent Chairman Smith of the democratic state convention today read the result of a two vote of the gathering which took from W. J. Bryan, the democratic leadership of Nebraska which he has maintained for twenty years. The vote came on a motion of Congressman Hitchcock to eliminate an individual introduction of the platform planks.

Recognizes Defeat. The Bryan adherent denounced Hitchcock as a gag rule and the Hitchcock supporters declared that individual rule must prevail. Smith ordered a roll call and silence prevailed until two thirds had been called. Bryan realized his defeat, when a wave of cheers that drowned the roll call, began.

When Smith announced the result, 465 against 294 in favor of Bryan, the modification delegates sounded a fresh volume of cheers that seemed to indicate their belief from the uncertainty that had existed as to Bryan's strength in the convention. The original motion of Hitchcock was then adopted. The motion stops speaking unless accompanied majority or minority reports.

Is Member of Committee. Bryan is a member of the resolution committee, and save for the speech he is expected to make on the minority report he submitted, the convention has practically prohibited him from making any other speech. Smith of the resolutions committee was drafting its report, Governor Shallenberger and Mayor Dahlman of Omaha, rivals for the gubernatorial nomination, addressed the convention and hurled verbal shafts at each other. Their differences on minor points in the platform however, did not prevent them showing a solid front.

U. S. STEEL EARNINGS SHOW IMMENSE INCREASE

NEW YORK, July 26.—The quarterly statement of the United States Steel Corporation for the three months ending June 30, as issued today, shows a total earnings of \$49,171,000, an amount far in excess of the unofficial estimates and greater than the earnings of the first quarter by \$3,554,000. The net earnings for the quarter, were \$33,880,000 or \$2,378,000 greater than the first quarter's returns. Both gross and net earnings are vastly larger than the corresponding quarter for last year which were \$29,340,000 and \$23,323,000 respectively.

YAKIMA FRUIT WINS FRIENDS

Texas Folk Think Stand at Depot is Best Thing They Have Seen Since They Left Home.

LAND DEALER CALLS IT A SPLENDID ADVERTISER

Says He and His Party Will Talk About it as it is One of the Surprises Which Have Focussed Their Attention.

Such enthusiasm as a party of Texas people showed over North Yakima fruit at the railroad station here Tuesday is most difficult for a newspaper man to describe. Nothing but a phonograph would do it justice. The fact is, however, that the apples and other fruit shown at the stand at the railroad station, the apples in particular, caught their fancy to a degree not equalled by any fruit they have seen since they left San Antonio, and they traveled by way of California, at that.

C. S. Fowler, who was head of the party and who is a real estate man, at once caught on to the advertising value of the fruit stand proposition and wanted to elaborate on it but the Northern Pacific train would not wait until he had the time.

Truth compels the Herald to admit that some of the words of praise of Mr. Fowler wouldn't look well in print. They were invented for a warmer tempered and more impulsive people than are to be found this far north, but such old timers as S. E. Farris and others who were standing near found no difficulty in understanding and translating them to mean something like the following: "Well, this is the best proposition I have encountered since I left home. You certainly can't back this off the board. In time, as this gets to be known, it will be talked of from one end of the road to the other. Did anyone ever hear of a place where good fruit could be purchased at such prices. Old man, this is ridiculous. Hand down that box also. And what do you care for those red ones with the white spots. Well, send them along. This is certainly putting the public

RETURNED WITH THANKS

Government Sends Home 10,000 Immigrants in Six Months.

NEW YORK, July 26.—All records in the deportation department at Ellis island have been broken in the last six months. More than 10,000 immigrants have been sent back in that period, while in the preceding years the department had sent back only 7000 a year. The 15 ships sailing today carry back 240 aliens, 65 of them going on the Greek liner Hatros.

One of the undesirable deported in the Minnesota today is a young Englishman who was sentenced a year ago to the Elmira reform school for jolting guests of a fashionable New York hotel. He was paroled from Elmira on Thursday and immediately proceeded in order of the secretary of commerce and labor and put on the Minnesota yesterday afternoon. He has served time in English prisons, the immigration authorities say.

PRESIDENT REFUSES TO TALK POLITICS

'Big Bill' Puts Himself on Record As Against a Head of the Nation Talking Politically.

PORTLAND, Me., July 26.—President Taft today put himself on record as subscribing absolutely to the principle that, as a president of the United States, he should not talk politics. He handed at Rockland this morning and made the first speech of his ten days' cruise. Taft spoke to a large crowd from an automobile. He told of his appreciation of the welcome accorded him, and then drifted nearer to politics than at any time on the trip. Alluding to the big granite breakwater in Rockland harbor and the ships within it, the president said it brought the ship subsidy to his mind. He said it suggested the importance of both of activities and foreign shipping and also suggest the importance of improving both.

TYPHOID IS BIG PUZZLE

Health Department Unable to Trace the Germ of the Disease to Its Lair

MILK HAS BEEN BLAMED BUT IS GIVEN PARDON

Dr. Nywening Says That But Two Fever Cases in the City Procure Their Milk From the Same Source of Supply.

Typoid fever cases in North Yakima, according to Dr. John Nywening, have not a common origin so far as the health department has been able to discover. This statement was made last evening in answer to an inquiry as to what steps have been taken to determine where the germ of the fever is a common one. Dr. Nywening says that officials of the health department have recently been to the homes of the various patients reported and made inquiries to determine where the germs, milk, bread, meat, and other supplies used in the homes are procured. But two of all the patients are served by the same milk route, he says, and he thinks that this disposes of the statement that the milk is one of the causes of the disease. There is but one thing in common used by all the patients and that is the city water supply. The water, however, is known not to be infected, and, on the other hand, if it was infected, there would be an epidemic instead of the few isolated cases that exist. Dr. Nywening says that this is not the first year, by any means, that an effort has been made here to trace the typhoid infection to its sources.

Blames Flies. Other efforts have failed and he is led to the belief that the flies and the general conditions are to blame. Typhoid, he says, may originate at several places, each distinct from the other, under some of the existing conditions in this part of the country and with the flies a summertime as they are here the disease started, may be carried to any distance.

That the milk, which has been blamed, is responsible for the disease, is stated by Dr. Nywening, therefore, to be "not proven." It is further stated from other sources that the practice which has been included in the past of washing milk dishes in irrigation ditches is no longer followed. Practically every city in the northwest which has had typhoid has traced it to its source. That work remains to be done in North Yakima.

Sheriff Leaves for Monroe. Sheriff Joe H. Lancaster who made his first appearance Tuesday on the streets since he was stricken with pneumonia a week ago, is leaving for Monroe, Wash., this morning on legal business. Sheriff Lancaster, upon the completion of his work at Monroe, will go on to the sound cities where he expects to spend a fortnight in recuperating.

REGULARS WIN IN STATE CONVENTION

Ohio 'Progressives' Led by Garfield, Lose Opening Battle With Standpaters.

COLUMBUS, Ohio, July 26.—The first trial of strength between the regular and progressives in the republican state convention here today, resulted in a victory for the regulars by a wide margin. Congressman Howland of Cleveland, who has charge of the progressive platform, was defeated by Senator Dick for the chairmanship of the resolutions committee by a vote of 15 to 3.

Immediately prior to the vote Howland announced that he would not quibble over phraseology, but if he platform were in substance unsatisfactory to the progressives, he would bring a minority report to the floor of the convention tomorrow. None of Ohio's republican congressmen are members of the resolution's committee and all nine supported the tariff bill which is one of the issues of the convention. As soon as the committee had gone into executive session, word was sent to James R. Garfield, leader of the progressives here that he would be heard. Senator Burton was tonight selected as permanent chairman of the convention. This will leave the chairmanship of the big Cuyahoga county (Cleveland) delegation in the hands of Maurice Muschke, vice chairman. The delegation, however, is split over the governorship and unit rule will not be obtained as far as its 95 votes are concerned. It was generally understood by those who conferred with the leaders, that nothing will be done tonight toward uniting on a candidate for governor.

Burton adhered to his statement of last night, that the fight would be settled on the floor of the convention tomorrow and not before.

New York Heat Subsidies. NEW YORK, July 26.—The mercury reached a maximum of 86 here today. Seven deaths occurred as against fifteen yesterday.

EYE DESTROYED BY PLAYFUL PUP

Little Girl Will be Blind in One Eye as Result of Most Unusual Accident Tuesday.

MAN FALLS IN SLEEP AND FRACTURES SKULL

Workman at Car Barns of the Street Railway Company Rolls Into Repair Pit During His Dreams.

A lacerated eyeball and a fractured skull are the total of the injuries sustained by two people of North Yakima in two most unusual accidents Tuesday. Hilda Gabolat, the little daughter of Albert Gabolat, a draftsman of the North Coast railroad, will be blind in one eye as the result of her accident. James McKee, a mason helper at the new car barns of the street railway company, is the man who sustained a fractured skull. The sight of the little girl was destroyed by a playful pup. The injury sustained by Mr. McKee was because he pulled over her while he woke up from his sleep.

The little Gabolat girl and her brother, were playing at their home on the corner of North Sixth and Swan avenues with their little pup when the animal, in sport raised his paw and struck the little girl on the face lacerating an eyeball. A surgeon who was summoned gave it his opinion that the child will lose the sight of the eye.

McKee is an employe at the new car barns of the street railway company. Tuesday after his noon lunch he lay down to rest and fell asleep. He was lying close to the pit which enables car repairs to get under the cars and in his sleep, or just as he was awakening, he rolled into this pit and in falling struck his head severely and sustained a fracture, it was reported. A late hour last night the injuries had not been fully determined when the Herald made enquiries.

SWEeper FINDS BULLET WHICH PIERCED BODY

Piece of Lead is Found in Room of Lodging House Where He Was Attacked by Burglar.

In response to the solicitation of Chief of Police Kinnamen, the proprietor of the Hub rooming house, Tuesday made a search of the room which was occupied by Peter Lunn, the aged man who was shot by robbers about a month ago, at the time of the shooting and soon brought to light the bullet which came near costing the life of the old man. The piece of lead is being held at the station and is expected to be of considerable value in case Lunn's would-be assassin is brought to trial.

BIRDS OF EAST SELAH PREY TO SPORTSMEN

Young Men Go After Them With Guns and Slaughter Without Mercy All Kinds.

Four or five young men with nothing better to do are reported to have been making themselves very busy in the East Selah section shooting some of the birds imported by the county at a cost of several hundred dollars and protected by law for some considerable years to come. The Herald is told that these young men went into the Selah, armed like a Japanese brigade in the Port Arthur campaign and that then they barged away right and left at every thing that wore feathers from the barnyard fowl to the pheasants and partridges and from those to the little song birds. They had a splendid time and the birds had a very poor time of it and some of the wounded ones are now off in the sage brush thinking of the kindness and benevolence of the creator when he made man and made him mean.

WIDER STILL MISSING: DETAILS MADE PUBLIC

NEW YORK, N. Y., July 26.—Pratt W. Winder, cashier of the New York branch of the Russo-Chinese bank, is still missing but details of the \$500,000 bond and stock theft with which he stands charged, are coming to the surface. Two prominent stock speculators was found acceptable on the New York stock exchange.

HUBBY DRUNK, MAULS WIFE

W. M. Campbell is Alleged to Have Beaten Pretty Spouse Into Insensibility.

HER SENSES REGAINED OBJECTS TO ARREST

Man Accused of Wife Beating, First Says He Will Plead Guilty and Then Changes Mind—Victim Unable to Leave Med.

Charged with wife beating, W. M. Campbell residing at 101 North Third street, who had previously announced to the officers that he would enter a plea of guilty in the justice court, changed his mind upon being arraigned Tuesday afternoon before Justice Hunt and demanded a trial. Judge Hunt set the case for hearing at 10 o'clock August 2.

The offense for which Campbell will be tried is alleged to have been committed shortly after five o'clock Monday evening at the above named residence. Attracted by unusual noises and a woman's scream, the people occupying a part of the house, rushed into Campbell's room where they found the man's wife bleeding from half a dozen minor scratches and her face badly pumpled, lying on the floor as though dead. Campbell they say, was standing over her and demanded that they leave his rooms, backing it up with a rush in their direction.

Woman Appeared Dead. A hurried phone call brought Officers Smith and Cherry to the scene. The patrolman finding the woman still unconscious and to all appearances, dead. Campbell at first showed fight but soon came to himself and did the officer's bidding without resistance. He was, the officers say, more or less under the influence of intoxicants when taken into custody. A bottle of whisky and a glass of water were about the only things in the room that successfully defied the police. Both of which were standing erect on a table.

Restoratives, the patrolman declares, soon brought Mrs. Campbell to her senses, but she was a pitiful sight. The officer, an attractive woman, the officers declare, but gave a broken heart to an almost unrecognizable piece of human flesh. Both eyes were badly swollen, one of them all but closed.

The officers declare that almost the first thing the woman did after regaining her senses, was to enter an objection to their taking her husband to jail, saying that he had "done nothing out of the way." Later the woman positively refused to appear against him and a warrant was sworn to by Chief of Police Kinnamen.

A physician summoned, pronounced Mrs. Campbell's condition serious and recommended her removal to the hospital. A late hour last night she was reported to have been unable to leave her bed.

CHOICE CLUSTERS ARE REQUISITIONED

Commercial Club Asks Ranchers to Provide Creditable Exhibits For N. P. Advertising Car.

Secretary James of the Commercial club is sending out to fruit growers a request for co-operation in furnishing fruit for the Northern Pacific advertising car. The immigration department of the Northern Pacific railway company, through General Agent Bricker, he says, "is preparing a car for exhibits from the various districts along their line in the Pacific Northwest. This car will make stops in all of the principal cities in the middle west. It is the desire of Mr. Bricker that the Yakima valley should have adequate representation in this exhibit, which will be made the nucleus of a permanent exhibit in Chicago. To this end he asks the hearty cooperation of the fruit growers and of the Commercial club of the Yakima valley.

Arrangements have been made to have choice specimens of our fruit preserved in jars by an expert in Spokane. The Commercial club asks all who have particularly choice specimens to bring them to the Commercial club or to leave them with Agent J. W. Hill at the Northern Pacific depot.

Apples, plums, pines, peaches, apples, pears and all other kinds of fruit are wanted. Sweet corn makes a fine exhibit. Anything that looks well in a glass jar will be gladly received. Well Colored But Not Ripe. Fruit should be gathered when well colored but before it is fully ripe. Fruit should be in the branch. Immediately after the branch is cut, place it in a box of green alfalfa and deliver as soon as possible. The Northern Pacific people are giving the Yakima fruit growers a fine opportunity to exhibit their fruit in the east at no expense to the growers, and their hearty cooperation is expected. "Each grower should place in the box a card containing his name, address and the name of the particular variety of fruit it contains. The name of the donor will be placed on the jar containing the exhibit."

EAGLES GIVE BENEFIT FOR INJURED FIRMAN

A benefit ball given under the auspices of the Eagles' ball team for Neil Hopkins, the well known local ball player who was badly burned in the recent fire which destroyed the Mac Arthur suit house, has been planned for the Eagles' hall tonight.

Reports from the hospital, indicate that the lad is improving about as well as could be expected and will, no doubt, be out again in the course of a fortnight. Tickets for the affair may be procured for any number of local cigar stores as well as any member of the Eagles' club.

SQUAWS HUNT FOR RELATIVES

Mother and Wife of Indians Who Lost Lives in Double Drowning Tragedy Seek Brothers.

DECLARE VICTIMS MUST BE BURIED AT HOME

After Weeks of Searching Along Banks of River, Women Hear of Finding Two Bodies at Prosser and Start Inquiry.

Searching for their dead relatives that they might bury them in their own burying grounds and according to the rites of the tribe, Mrs. Wild Man and Mrs. Louis Pims, both Yakima Indians, appeared at the sheriff's office Tuesday afternoon and asked for information concerning the former's husband and the latter's son both of whom were drowned in the Yakima river. Young Pims, the woman said, was drowned in the river about five or six weeks ago, going over the Sunnyside dam and the elder Indian was lost while trying to locate the body of the lad.

The women explained they had heard the bodies had some time ago, given up two bodies near Prosser and were desirous of knowing if they were the remains of their lost relatives. Not knowing that the last named place was in Benton county, they called upon the local sheriff's office for information regarding the disposal of the remains.

Deputy Sheriff Day after learning the women's wishes, called the Benton county sheriff who informed him that the bodies found near Prosser had been identified and were not the ones sought by the women. He could not remember the names of the remains but was positive they were not the relatives of the Yakima sheriff's visitors.

Think Sheriff Mistaken. When made to understand the information of the Benton sheriff, the searchers were no less hopeful than before, saying they were positive the lower valley official was mistaken and announcing their intentions of paying an immediate visit to him. They asked the deputy to give them a letter to the Benton county sheriff, telling who they were and their business.

Relative to the death of the two men, the women told of young Pims having gone over the dam while swimming and of Wild Man who was heading a searching party engaged in the recovery of the body. Having lost his life while attempting to cross the river. They gave their home as near Wapato and within a few miles of the Yakima.

The women declared a constant search among the Indians had been kept up since the double tragedy for more than two weeks and told of having read of the finding of the two bodies near Prosser, saying they could not find time to visit the sheriff's office sooner.

The two mourners left last night for Prosser where, not content with the word of the sheriff of that county, they will continue their search for the recovery of the bodies.

ENDORSE TAFT BUT CENSURES CANNON

Nebraska Republicans Favor Administration But Oppose System Known as 'Cannonom'

LINCOLN, Neb., July 26.—The state convention of the republican party of Nebraska, today adopted a platform strongly endorsing the administration of President Taft, expressing unalterable opposition to the system known as "cannonom" and in hearty sympathy with the "trust-busting" movement in and out of congress. The platform includes a declaration for county option as a method of regulating the liquor traffic and for an amendment to the state constitution providing for direct legislation.

FIND MISSING WOMAN'S BODY

Decomposed Remains of Mrs. Benjamin F. Moore Are Found in Slough Below City.

NO OTHER THEORY THAN SUICIDE IS ENTERTAINED

Pedestrian Accidentally Comes Across Startling Discovery and Notifies Sheriff's Office—Man Completes Identification.

Badly decomposed and exhibiting evidence of having been in the water for a number of days, the body of Mrs. Benjamin F. Moore, the aged Fruitvale woman who wandered from her home more than a week ago and has not been heard of since, was discovered shortly after noon Tuesday in a slough near the river about three miles below the city. Friends of the woman completed the identification yesterday afternoon when in company with the coroner and Deputy Sheriff Elmore, they visited the scene of the finding.

The startling discovery was made by a pedestrian who chanced to be passing and who immediately phoned the sheriff's office.

Deputy Sheriff Elmore and Coroner Rosser responded to the call after soliciting the aid of a near friend of the missing woman for the purpose of identification.

The startling discovery was made by a pedestrian who chanced to be passing and who immediately phoned the sheriff's office.

Deputy Sheriff Elmore and Coroner Rosser responded to the call after soliciting the aid of a near friend of the missing woman for the purpose of identification.

Coroner Rosser is authority for the statement that he circumstances and evidence of the body itself, point to nothing other than suicide. No marks of violence were found on the body aside from several minor bruises which are explained by the body coming into contact with rocks along the stream.

"That the woman entered the river near the city and was carried down by the current, is the belief of the majority of those interested although at least one of the party who visited the scene, harbors the opinion that the woman walked to within a few feet of the spot where the body was found.

No inquest was held in view of the circumstances surrounding the case it being evident that there was no other possibility than that of suicide. The body was brought to the city late last night after communicating with the husband of the female.

There will be no funeral at Elmt-Shaw undertaking rooms in the morning but there will be services at the cemetery at 10 o'clock.

FIND THIS VALLEY BUILT UPON MERIT

Eastern Investigators Recognize That Conditions Here Are Result of Solid Conditions.

Careful study of North Yakima and vicinity as a desirable place in which to establish a home is being given by S. G. Barnitz of Barabitz, Pa. Maurice Wertz of Wapato, Pa., and H. T. Weeks of Coopers Mills, Me. Plotted by Harry Baylor of the Central Washington Investment & Power company, these gentlemen have seen and heard a great deal and are surprised to find such a country as this in existence and flourishing under the stars and stripes. They did not believe it possible. The first named is a real estate dealer, the second an apple and peach grower who cultivates some 240 acres and the third a postmaster and storekeeper in Maine. They are all looking out for a newer and a better country, and have been over all the northwest except the Hood River section where they go from here. All three are young men, unusually intelligent enquirers and all willing to admit that such a substantial city and country as they found here was not built on anything but merit. They propose to buy land somewhere in the northwest and it may be that this will be the place.
