Wheels sold on installments at Arthur Baily's Gun, Bicycle and Sporting Goods Store, 1610 Hewitt avenue.

The directors of the Labor Temple association at their last monthly meeting voted to donate the use of the building for strike headquarters to the switchmen during their strike.

The benefit program which the man-

agers of the Scenic Theatre had arranged for the striking switchmen which was to have been given last night, has been postponed until next Tuesday night, December 21st. The net receipts of next Tuesday night's entertainment will go to the aid of the local switchmen. Members of organized labor should show their appreciation of the theatre manager's generous action by packing the house on that night.

We are now in our new location, 1610 Hewitt avenue, with a new, fresh stock of Guns, Bicycles, Fishing Tackle and Sporting Goods. Arthur A. Baily.

We carry a full line of union made suits, hats, and gents' furnishings. Also a fine line of summer underwear. Edward Wahl, 1907 Hewitt avenue.

Now is the time to take those country drives. Call up Robbins livery barn for a rig. Both phones 371.

We are from Missouri. If anyone can furnish you the same quality and quantity of goods that you get under Everbest and Quality brands we have to be shown. Pacific Grocery Co.

LABOR EDITORS AT CONVENTION FORM NEW ASSOCIATION

The Railway Telegraphers, is president, is to be held in Chicago next Sunday to discuss the situation.

Conditions are looking brighter every day for the ultimate success of the switchmen. Commercial clubs in different sections of the country are urging a speedy settlement, claiming that business is being paralyzed and that the losses being sustained are enormous.

Public sympathy is with the switchmen, not only for the splendid fight they are making but because the public has been brought to realize the simple justice of their demands. Organized labor is standing solidly behind the strikers and have offered not only their moral support, but what is more to the point, their financial assistance if needed. Several unions in the city have already voluntarily donated money to the boys to aid them in carrying on their conflict.

The switchmen locally are as enthusiastic as the day they were called out. They have not lost a man and are determined to remain out until ordered back by their head officials. They have adopted the slogan, "This fight must be won."

One thing is certain: if the switchmen cannot win this strike, then no other single railroad organization can win one.

CHARLES R. CASE MAY RUN FOR CONGRESS.

Charles R. Case, the worthy president of the Washington State Federation of Labor, is being urged by friends to become a candidate for congress at the polls next November.

Mr. Case is a republican and every one who knows him speaks in the highest terms of him. He has "made good" as president of the great state federation and if he should run he undoubtedly would have the united support of all labor men throughout the whole state, and the labor press as well.

He said one day last week that many members of various unions had urged him to announce his candidacy but he would not be able to make a stand for some time.

If organized labor should exert themselves, "Charley" would win in a walk. —Tacoma Labor Advocate.

The price of tin has been advancing. If you buy canned water instead of Solid Pack Everbest or Quality goods, put out by the Pacific Grocery Company, you are losing money.

Federation of Labor that it use its best efforts to impress upon the officials and the rank and file of the affiliated trades and labor unions the necessity of accompanying their thanks and their resolutions of commendation with copy for advertisements of generous size in keeping with the generosity heretofore evidenced by the labor press.

The labor press purposes hereafter to stand upon its own bottom, refusing to be put in the attitude of mendicants pleading for support, but demanding from the organized labor movement a just recognition of its efforts in organized labor's behalf.

BUILDING LABORERS ELECT DELEGATES.

From the interest shown by local unions in the coming convention of the State Federation of Labor it is evident that a large delegation will attend from Everett. The Building Laborers is one of the latest of the local unions to elect delegates, they having chosen P. A. Peterson and R. H. Hopkins to represent them.

MITCHELL FOR BOYCOTT.

Labor Leader Claims Right to Buy Where He Pleases.

Indorsing a report of the committee on boycott at the federation convention in Toronto, John Mitchell said:

"I want the people of the United States to know my position. I shall not speak definitely; but, be the consequences what they will, I shall not surrender any right guaranteed to me by the constitution of our country. I am not sure how much mental and physical suffering will be necessary to make me submit, but if I know myself not any amount of suffering will persuade me that I have not the right to spend my money where I please or that I have not the right to write and speak as I please, being responsible under the law for my acts. Whether the boycott be a benefit or a detriment, each man must decide where he will bestow his patronage. I maintain that my patronage is my own and no merchant has a property right in it. It is mine to give or bestow as suits my own pleasure, and any attempt through the subtleties of the law to take from men the absolute right to do what they please with their own money must be opposed to the very limit.

"I understand that cognizance is being taken at Washington of the utterances of men on the floor of this convention, and I want clearly to state my position. I propose in the future, as I have in the past, to exercise the rights secured to me by the fathers of my country, and I propose if I am sent to jail to declare again when I come out for the rights guaranteed me under the law. I make this declaration not to tickle the ear of any man, but that I may publicly declare the conviction that it is within me.

"It seems to me that the whole proceedings should prove a lasting lesson to the workmen of the United States and Canada. If all the workmen had been true to themselves there would not have been a nonunion product on the market.

"I am proud of being an American, but I want to see the world American stand for all the sentiment that is symbolized by the flag of our country. I want real liberty. I don't believe in the liberty enunciated by some of our courts that men and women should have the right to work themselves to death. I don't believe in the liberty enunciated by Judge Tutthill of Chicago, who declared unconstitutional the ten hour law for women and by that act compelled them to work four-teen hours a day.

"Is the time going to come on our continent when the badge of faithfulness to labor must be the brand of imprisonment?" he said in conclusion.

The report which drew forth Mitchell's speech and which was adopted by the convention is as follows:

"We say that when your cause is just and every other remedy has been employed without result, boycott; we say that when the employer has determined to exploit not only adult male labor, but our women and children, and our reasoning and appeal to his fairness and his conscience will not sway him, boycott; we say that when labor has been oppressed, browbeaten and tyrannized, boycotted; we say that when social and political conditions become so bad that ordinary remedial measures are fruitless, boycott, and, finally, we say we have a right to boycott and we propose to exercise that right. In the application of this right to boycott, to paraphrase the president (Gompers), we propose to strive on and on."

Douglas Shoe Strike Settled.

The controversy over the use of the union stamp between the Douglas Shoe company and the International Boot and Shoe Workers' union, whereby the former discarded the stamp in its several New England factories and the latter went on a strike of several months' duration, has been settled to the satisfaction of all concerned. This strike has been the occasion of much interest throughout the entire movement in this country, and the settlement reached does credit to those who engineered it.

Labor and Politics.

We must be partisan for a principle and not for a party, but we must manifest the fact that we have political power and that we intend to use it; otherwise the ballot will become an impotent weapon.—Samuel Gompers.

GEMS FROM GOMPERS.

In the whole history of our movement no greater struggle has taken place than that for the preservation and the maintenance of the right of free press and free speech.

The people of our country have with the men of labor made it clear to the whole world that no curtailment of the rights of free press and free speech will be tolerated.

The herculean efforts of the men of labor to arouse the people of the country to a realization of the danger which threatens our constitutional liberties will go down in the annals of history as one of the great crusades for the maintenance and advancement of human rights.

There is no persecution, no injustice to a great movement, but if met in the right spirit bears its harvest of good.

Out of this attempt to seal the lips of the men of labor I believe will come good.

We have come too far in the march of human progress for any set of influences to drive us back into slavery. I see a silver lining to the clouds and a bright star of hope in the heavens, and I see ultimately the spirit of humanity, justice and the brotherhood of man obtaining in the minds and hearts of the people of the country.
