MARY PHAGAN TALKS

By Mary White Ovington, in the New Republic

You care a lot about me, you men of Georgia, now that I am dead. You have spent thousands of dollars trying to learn who mutilated my body.

You have filled the columns of your newspapers with the story of my wrong.

You have broken into a prison and murdered a man that I might be avenged.

But why did you not care for me when I was alive?

I was a child, but you shut me out of the daylight.

You held me within four walls watching a machine that crashed through the air, endlessly watching a knife as it cut a piece of wood.

Noise fills the place—noise, dust and the smell of oil.

I wish some of the thousands of dollars that you spent on the trial might have kept me in school.

A real school—the kind you build for the rich.

I worked through the hot August days.

When you were bossing the girls, or shooting birds,

Or lounging in doorways cursing the nigger;

And you never paid me enough to buy a pretty dress.

You sometimes spoke coarsely to me when I went to and from my work;

Yes, you did, and I had to pretend I liked it.

WHY DID YOU DESPISE ME LIVE-ING AND YET LOVE ME SO NOW?

The world is full of Mary Phagans. And the world is full of men and women who are ready to rise in pity and protest against flagrant individual wrongs. But how many are working to abolish the cruel economic system which makes of hundreds of thousands of helpless children victims of rapacious profit-mongers? The Socialists only!

FAKE SHIP PLEA

The Pacific Steamship Company claims that it is disbanding because the seaman's act forced it out of business. Justus Wardell, surveyor of the port of San Francisco, has produced figures to show that the Pacific Mail liner Mongolian made \$128,000 net for her owners on every trip she made.

APPROVE DEBS' STAND ON WAR QUESTION

Tacoma, Oct. 7, 1915.

Eugene V. Debs, Dear Comrade:—In the Socialist press of recent date appears your reply to those who have questioned you in regard to your stand on war. We feel that it comes from the heart of an internationalist, a revolutionist, a true Socialist. For the noble principles you advocate, and the clearness with which you present them, we wish to offer you our sincere thanks. We feel that the statement you make could well be incorporated in a declaration of principles of the Socialist Party and so sure are we of your consent, that the locals of this city have already taken steps to initiate such a national referendum.

You have once again endeared yourself in the hearts of those who already loved you, "OUR GENE," and it is indeed a pleasure to call you comrade.

Sincerely,
LOCAL TACOMA NO. 4.
C. W. Deuel, Local Sec'y.
2068 E. 34th St., Tacoma, Wn.

WAR TRUST REAPS MILLIONS

While 13 war stocks in America have increased in value \$462,000,000 since the beginning of the war in Europe, American workingmen, whose labor has produced this vast wealth, have received but a minor share.

FORD FOR PEACE—AND EXPLOITATION

James Couzens, vice president and general manager of the Ford Motor company has resigned, giving as his reason that he could not agree with Henry Ford in his public utterances on peace. Couzens retains his \$25,000,000 worth of stock in the company and remains a director. The annual financial statement shows that the company has a surplus of \$89,135,770 and a cash balance on hand and in banks of \$43,788,151. In addition to this record breaking surplus it has an item of \$15,000,000 as a reserve for profit-sharing payments to purchasers of Ford cars.

C. E. Ogrosky, Glove and Shoe Repairing, 2001 Hewitt Avenue.

WIRELESS FLASHES

By Watts

Prosperity is conspicuous by its absence.

Gunfire is destroying cities in Europe. Unemployment and underconsumption is destroying cities in America.

Unemployment is the result of the increased productivity of the machine. Unemployment brings about underconsumption. Underconsumption brings about more unemployment. Where do you get off?

The increased productivity of the machine would have no bad effects on the users of the machine. The owners of the machine today have the machine kept in operation only when they can make profits.

Profits can only be made by buying and selling commodities at their VALUE. Your mental and physical energy, your labor power, is a commodity and it is bought and sold on the open market at its value. Its value is not what it can produce, but what it costs to produce it.

Three square meals a day, a suit of shoddy clothes and a shack to protect you from the elements, a dollar or two to buy a marriage license and to raise a family, is what it costs to produce your labor power, or in other words to fit you for your work next day and to prepare another to take your place when you are too old, crippled or dead.

The greater the number of unemployed, the greater and more vicious becomes the scramble for jobs. The greater the scramble the lower the bid. The lower the bid, the lower the standard of living. The lower the standard of living, the less there is to produce. The less there is to produce the more there are thrown out of work. Again, where do you get off?

The introduction and improvement of machinery makes it possible for you to produce a greater value in commodities than that of your labor power. Statistics compiled by government experts show that the value of commodities produced on the average is five times greater than that of the labor power that produced

them. The same statistics show that the accumulated wealth would provide every family with the sum of \$10,000, whereas the average income per worker in the manufacturing industries is but \$518 a year.

We find that the worker who has produced commodities valued and sold at \$15 only receives enough in wages to buy back \$3.00 worth. If the workers can only buy back one-fifth of what they have produced, then it is up to the owners of the commodities to find a market for their goods elsewhere. Hence we have war. If foreign markets are not available then the factories, mills and mines are closed down and the workers who have produced too much are thrown out of employment.

You have produced more than your wages will allow you to consume. Your not being able to consume what you produce means the flooding of the market. The flooding of the market means the suspension of production. Suspension of production means unemployment. Unemployment means less consumption. Less consumption means more unemployment. More unemployment means poverty, misery, disease, prostitution, crime, jails, murder, suicide, in other words it leads to all the present evils of society. So again we ask: Where do you get off?

Have you a solution to the problem? If so, let us hear it. All kinds of remedies have been suggested and tried in order to reform the system, but all to no purpose. As far as we Socialists are concerned there is only one solution and we have it. We know it will work because it is the inevitable outcome of the changes in the evolution of society. We propose that the machinery of wealth production shall be collectively owned by those that collectively operate it and that it shall be democratically managed by those that must have access to it. That the products of the machinery shall be owned by the producers. All that is then produced will be used by those that produce it and those dependent upon them. The increased productivity of the machine will then be a boon and a blessing to society. What are you for—Capitalism or Socialism?

LOCAL CEDAR VALLEY WILL CELEBRATE

The comrades of Local Cedar Valley will have a big propaganda meeting and festival Saturday evening, October 23, at 8 p.m. Pumpkin pie and a host of other good things are promised. Following the program Carl Ulonska will speak on "The Power of An Idea." All are invited.

LIKED THE NUMBER

October 10, 1915.
Northwest Worker.
Dear Comrades:—No. 248, October 7, of Northwest Worker contains some of the best and ablest editorials and other articles since it has been published. Keep on in that strain, comrades, we will finally reach the workers' brain. Our common enemy is worthy of our best steel. We do not wish to try that steel against ourselves.

Your comrade,
DON FEDDERSEN,
Austin, Wash.

THOSE SOCIALISTS AGAIN

The Anaconda Standard gives editorial notice of a joke played by a Chicago alderman on his associates. He introduced into the city council a resolution "to prevent the use of patronage or the promise of it in influencing the vote or action of any persons."

The indignant and righteous city fathers promptly voted against the resolution, whereupon the enterprising alderman who fathered the document, notified the councilmen that they had voted down a section of the state law, and he merely wanted to find out if the aldermen knew what it was!

The Anaconda Standard failed to give the identity of the facetious one, but we are willing to wage a \$4 dog against a hay rake that it was one of the Socialist aldermen who turned the trick. Socialists are always up to that sort of inconvenient and discomforting stunt. One never knows what they will do next. 'Raus mit 'em!

Get your tickets for the Mills meeting, October 24th, 2.30 p.m., People's Theatre. Here is what the Appeal to Reason says of him: "Mills has no equal on the platform, living or dead, in this or any other country." Tickets 15 cents.

Now is the time to boost the subscription list.
