

CLAIMS A DISCOVERY BRINGS DEAD TO LIFE

CHICAGO, Dec. 19.—Dr. Hamilton Forline, the eminent scientist, formerly a prominent member of the faculty of Northwestern university, who recently resigned to make experiments in restoring life in cases of suspended animation, today announced that his experiments have been successful.

Dr. Forline claims that he has discovered the process of practically restoring life to human being technically dead.

The process consists of inserting a hollow needle into the spinal column of the corpse and draining off the effete fluid which is the first cause of death. Another fluid, made of living cells from animals, is then injected. This fluid acts as an elixir of life and restores vitality to the corpse.

Dr. Forline has notified the American Societies of Animal Therapeutics that he is ready to demonstrate his theory and he will ask permission to

experiment on paupers and criminals. The names of his two assistants are given as witnesses to the fact that Dr. Forline restored by his process life to dead animals that had been previously strangled and also to a goat that had been poisoned.

In replying to a question as to his views on the discovery made by Dr. Forline, Mayor Byrne made the following statement:

"Science has made such wonderful advances along medical lines that it is possible the statements made by Dr. Forline are true. It is a well known fact that there is no such thing as instantaneous death. The various cells of the body die gradually, and a great many hours may elapse after the heart stops beating before there is complete cessation of life in all the cells that compose the body.

"There are many authenticated cases where the heart has ceased to beat for various causes, but resuscitation has taken place several hours

after the death of the patient. I hope that Dr. Forline is not mistaken in his experiments."

Dr. C. P. Thomas, when informed of Dr. Forline's discovery, said:

"It is a simple process to draw the cerebro-spinal fluid from the spinal canal most any place, but owing to the arrangement of the valves at the upper end of the spinal canal, it has been found impossible, or nearly so, to replace the fluid back into the ventricles of the brain.

"This is a well known scientific fact, which has been thoroughly proven during spinal anaesthesia. I question very much whether the drawing of all the fluid from the cord and brain would not immediately produce death of itself.

"It has been proven by repeated experiments that the spinal fluid has but little or no functions except to act as a cushion and protector to the cord and brain. It may, therefore, be safely predicted that there is nothing in the alleged discovery."

WILL BUILD A BIG CANDY FACTORY HERE

That Spokane will have a mammoth candy and cracker factory in the near future seems a surety.

D. E. Rice of the firm of Rice & Hobbs is advancing the proposition on behalf of his brother, N. E. Rice of North Dakota, expected here today to conclude arrangements for the construction of an establishment suitable to the manufacture of fine candies and crackers for the wholesale trade.

D. E. Rice has secured an option on desirable property for the plant,

giving a ground area of 125 by 60 feet, but the location is withheld.

The plans call for a building three stories high with commodious basement where the machinery of the plant will be located.

N. E. Rice has for 16 years been a manufacturer of crackers and candies and is considered an expert. He has amassed a considerable fortune at the business and looks to Spokane to increase it.

It is possible that the Dakotan will not approve of the site selected, hence the reference as to the location.

AMONG THE TOILERS

DEATH OF ORGANIZER WHITNEY.
The sad news of the untimely death of F. Stacy Whitney, who died at Tacoma yesterday from typhoid pneumonia, has been learned with deep regret by the members of the local unions.

Mr. Whitney was one of the general organizers for the Pacific states. He was appointed to that position last June by the American Federation of Labor, and though his efforts in the cause of labor were of brief duration, his work met with unbounded success and stands as an undying monument to his ability and industry.

He was chairman of the reception committee when Samuel Gompers and party were here last August. After that he remained in the city for one month, when he was suddenly called away to organize on the sound. While visiting Tacoma he took ill there with typhoid pneumonia, from which his death has resulted.

Senator Redfield Proctor will erect a Y. M. C. A. building at Proctor, Va., for his 2000 employees.

Police and firemen of Toronto, Canada, have decided to organize unions of their respective members.

The building laborers, the Federal union, the millworkers and the waiters will meet tonight at Central Labor hall.

Mr. Hughes, organizer for the A. L. U., left for Priest River this morning, where he will establish a lumbermen's union. He will return Monday.

In the report of the strength of labor unions in Spokane published last night the following two unions were omitted: Painters, 112 members; upholsterers, 110 members.

In the account of the strength of unionism in The Press yesterday (through a typographical error the butchers' union is credited with but 40 men, while its membership is 140).

Rev. Carl D. Thomson, colleague of J. Stett Wilson, will shortly make a lecture tour through eastern Washington and north Idaho. The American Labor union is arranging his itinerary.

The labor movement in Canada has made phenomenal strides during the past three or four years. Previous to 1900 there were few unions in the dominion. Today Canada can boast of 1100 unions and the membership will aggregate 100,000.

Labor unions at Telluride, Col., have posted a boycott on Chinese laundries.

Hoboken school teachers contemplate affiliating with the American Federation of Labor.

The lumbermen were organized under the A. L. U. last Monday with 80 members for a start.

There are 20,000 children under 14 years of age working in Illinois factories, mainly in Chicago.

SKIPPED WITH BLACK-JACK POT!
The police arrested Fred Tomlinson of Sandpoint last night as he stepped from a Great Northern train. Tomlinson skipped from Sandpoint with the roll of a blackjack game, in which he was a dealer, and Sheriff O'Donnell wired the police here to arrest him. He had a big six-shooter and \$120 on his person.

HANGED.
NEWROADS, La., Dec. 19.—Willis Williams, colored, was hanged today in pursuance of the death penalty fixed at his trial during the last term of court.

Williams' crime was the murder of young Alex Hebert, a barkeeper at Fardoche Station.

The Cornell college athletic team will tour the middle west this winter for practice preparatory to its meets with Pennsylvania and Princeton.

MANY REALTY SALES.
M. D. Wright has sold to Charles E. Severance 640 acres of what is reported the cream of Idaho yellow pine land. It lies close to Granite and comprises some of the heaviest timber belts type in the west.

Mr. Severance owns several saw mills in the vicinity of Granite and will immediately begin turning the trees into building material.

The sale was consummated through Phil T. Becher & Co. of the Exchange Bank building, who have yet the possession of many excellent timber lands. The consideration was \$5000.

The Becher company has also sold for Charles Johnson to D. Crandall of Indiana a 160-acre tract on Wild Rose prairie, near the city, the consideration being \$3500.

The property is well improved and the intention of the purchaser is to make it his home. Mr. Johnson will engage in mercantile pursuits.

The sale is also reported of an entire block in Carthage's addition to the city to G. Hines of Iowa from the estate of Mary McCrean, lying just east of Union Park. Mr. Hines will make it his home, there being excellent improvements thereon.

GANS VERSUS WILSON.
The spectacle of a lightweight champion of the world battling for the small purse of \$500 will be seen at Providence, R. I., tonight, when Joe Gans will meet Howard Wilson of Philadelphia in a 20-round bout. It is a well-known fact in sporting circles that Gans, or perhaps his manager, is of a thrifty turn of mind and believes in making hay while the sun shines, but the purse to be fought for tonight is about the smallest since after since the colored boy reached the front ranks of pugilism some five or six years ago. Wilson, though comparatively an unknown, is said to be a hard hitter and his friends assert confidence in his ability to make a good showing before the Baltimorean.

THE CUP DEFENDER.
The new yacht which will defend the cup is being built in the south shop of the celebrated Herreshoff's shipyard at Bristol, R. I. There are two of these shops from which yachts, both steam and sail, are turned out, but from only one can a vessel of the draught of a cup contestant be launched. Only a very few privileged persons are allowed to enter the works.

Vigilant, Columbia, Defender, Columbia and Constitution were all built in this same shop and these yachts revolutionized modern designing and building.

The yachts are built with much secrecy and great care is taken that none of the details of the construction or design become known. The Columbia and Constitution were both launched at night and it is probable the new defender Eagle will be launched with the same precautions.

SOUTHERN ATELETES.
ATLANTA, Ga., Dec. 19.—The Southern Intercollegiate Athletic association, to whose efforts is due the present high standing of college athletics in the south, began its annual meeting today with a full attendance.

Reports submitted show that the association is in the most flourishing condition in its history. Several of the colleges were suspended last year, due largely to the fact that they were unacquainted with the rules, and all have been reinstated with the exception of the University of North Carolina, which stands suspended on account of professionalism on its baseball team last year. The case will be brought up for action.

The cause of Pat Donovan, the star St. Louis player, retirement from baseball is said to be due to the fact that he is about to become a benedict.

SPORTING NEWS.

George Towns, the sculling champion of the world, who has spent the past six years in England, has sailed for his home in Wales.

It is more than likely that an English football team will visit America. The team will also tour New Zealand, South Africa and Canada.

Robert Fitzsimmons, the ex-champion, is writing another play and it is said to be of considerable dimensions. He and his wife may star in it. The plot and title are kept secret.

J. Rieff will apply to the stewards of the French Jockey club for a restoration of his license. If he is reinstated, the young American will ride for M. Blanc, one of the most notable trainers in the country, at a salary of \$15,000.

John Beaton, boilermaker, rancher and said to be the most powerful man in Montana, has sent a challenge from Missoula to fight Jeffries and agrees to stay five rounds or forfeit \$50. Lanky Bob, who is with the champion, is of the opinion that Beaton is no more than a common fake, as he wants fought with bare knuckles or two-ounce gloves, which is against the law.

TERRY MCGOVERN.
Terry McGovern will spend a week at Hot Springs, Ark., before he starts training at Cincinnati for his fight with Young Corbett. Jockeys Wonderly and Danny Maher and Joe Humphreys accompany him. McGovern will be trained for the match by Charley Mayhood, Johnny Reagan, Gus Gardner and his brother Hughie.

The Pacific Northwest league has secured baseball grounds at Portland and a better and more accessible location than that used last year.

The University of Pennsylvania will soon commence work on their proposed \$500,000 gymnasium. It will be one of the finest and most complete in the country.

Late developments are looking bad for the fighting game in Seattle. After January 1 prize fighting will only be tolerated to a very limited extent as per Chief of Police Sullivan's decree, which, it is said, is leveled principally against hoodlumism in the ring. The bouts scheduled for this month will not be interfered with.

Great Reduction Sale of FRAMED PICTURES
40 Per Cent Discount.
