

BOX REFORM LAW PASSES THE COUNCIL

Listening for more than an hour to facts copied from the records and to Chief of Police Woydt and Police Sergeant John Sullivan, who told of the evil after evil that had been perpetrated under the protection of the saloon boxes of this city, the council last night by a vote of 8 to 4 passed the Pratt ordinance requiring the removal of curtains and doors from boxes with sexes.

Those who voted against the ordinance were Funk and Baldwin, democrats, and Foster and Lindley, republicans. The vote of the two latter is the more surprising when it is remembered that both were nominated and endorsed by the municipal party.

Chief Woydt and Sergeant Sullivan were called to the council chamber as soon as the discussion of the ordinance began. The chief was armed with a list of 13 saloons that have been notorious in catering to the trade of women and minors and he had a list of 20 girls who were taken in drunk within the past year.

There are 143 saloons in the city equipped with boxes, the chief explained, and the 13 did not include near all the offenders, but only those who in the opinion of the police were the worst.

Councilman Lindley, who has been earnestly trying to get around the Pratt ordinance by providing that the council may cancel the licenses of objectionable saloons, by doing away with the "ladies' entrance" signs over saloon doors, and by exempting hotels and restaurants from the ordinance, took up most of the time in trying to get the chief to agree with him that better results could be obtained by frightening the saloon men through threatening to take away their licenses where their places are too vile than by passing the Pratt ordinance. The chief qualified that Mr. Lindley's plan would be a good one—if the city officials would enforce it.

Councilman Burch cut in at this point with one of his characteristic brief, shrewd speeches by saying: "I do not know that we can expect much from this council which a few minutes ago gave a license to a saloon applicant on the mere technicality that some salt had been stored in the basement of a building used for school purposes. As for me, I have three children, and rather than see one of those children ruined in a saloon box I would see the license of every saloon in the United States forfeited."

In the fight Councilman Pratt asked Mr. Lindley if he expected to see the nine policemen who are on duty in this town at night carefully look after the 143 saloons and see that they did not violate the law. Mr. Lindley answered "No." Mr. Pratt also stated that a saloon man of this city told him that when he began business he had boxes in his place, and that he had torn the boxes out

Sold Liquor at Waverly Picnic.

Mr. Al. McMahon, saloonkeeper at Waverly, sincerely wishes that he had not shown so much friendliness to his fellow saloonkeeper, August Latsig, and had not come to Spokane to see how Latsig fared at the hands of the federal authorities. Some time ago there was a picnic at Waverly and the two competing saloonkeepers formed a temporary partnership and sold liquor on the picnic grounds, waiving the formality of this complying with the government statutes.

The ceremony was performed by Justice Hinkle in the Hotel Spokane at noon. Later the bride and groom and 12 of their friends enjoyed a wedding breakfast at the hotel. Mr. and Mrs. Hudson are to live at No. 1 Brown street.

Choked His Wife.

She has lived three years in Spokane and supported herself. The couple has no children but owns community property. Papers have been served on the husband at Flathead, Mont.

800 PHONES GO IN ONE BATCH

The boycott of the trades council upon the Pacific States Telephone & Telegraph company went into effect today.

A committee consisting of Messrs. Heskett and Taylor of the trades council and Hineman of the building trades waited upon District Manager Bush of the Pacific States Telephone & Telegraph company this morning and presented 800 removal orders, the balance being withheld for the present.

Mr. Bush stated he would telegraph the matter to President Sabin of the company in San Francisco and that he would meet with the committee again at 5 o'clock this afternoon to further discuss the matter.

The steam engineers of the city have placed a fine of \$25 on any member of their union who keeps a telephone in his residence until after the strike is settled.

At the meeting of the trades council last night resolutions in condemnation of the Pacific States Telephone & Telegraph company and endorsing the Doerr-Mitchell company in their application to the city council for a telephone franchise were passed.

When asked by a Press reporter if arbitration would be considered, G. B. Bush, district manager of the Pacific States Telephone & Telegraph company replied that so far as the company was concerned there was nothing to arbitrate.

"All the positions made vacant have been filled," said Mr. Bush. "The fact of the matter is, the company can not afford to pay any larger wages than they do at present, as this office is not a paying institution but is losing money."

The announcement that the telephone company is operating at a loss in this city is a startling one, but Mr. Bush stated it was a fact. He continued:

"The wages being paid by us is about the highest in the United States for a city of this size. Here we pay \$20 for the first month and raise the girls every three months. The average wages we pay is \$31.50 per month."

The girl operators now out on strike say they worked the first two weeks for nothing and the next two for \$10. After a month at the business they receive \$20 and a raise of \$2.50 every three months until \$45 is reached. It requires about three years of service to reach the maximum wage.

Stop-Over Extended.

The Northern Pacific today announced that its line has extended the time of the homeseekers' tickets from 21 days to 30 days and will also allow stopovers on the return trip.

This stopover privilege is an innovation in railroad circles. Homeseekers will be allowed to stop over on the same conditions as before, but the trip west. That is, by depositing their tickets with the agent at the point where they wish to stop.

NOTORIOUS BAD MAN ESCAPES TO MEXICO

TOMBSTONE, Ariz., July 15.—Billy Stiles, the notorious train robber and outlaw, the most famous bad man of the southwest, who was indicted yesterday on three charges of train robbery, has escaped to Mexico.

Stiles turned state's evidence against Bert Alvord, another bandit, also on trial for train robbery. As a result of Stiles' testimony he himself was indicted.

The news leaked out and Stiles said he had his horse and rode across the border.

Efforts are being made to secure the co-operation of the Mexican government, as Stiles is the terror of all Arizona. Two years ago, with a Winchester, he released Alvord from the jail where he had been placed by Stiles' confession of train robbery.

The pair committed other crimes and Stiles again turned state's evidence. For some time he has been a detective in the employ of the Wells-Fargo Express company.

AMERICAN IS FOULLY TREATED IN GUATEMALA

GUATEMALA, July 15.—Minister Combes has received a letter from Frank Brown, an American and former resident of Mansfield, O., who is in prison at Solola on the charge of assault.

Brown accidentally shot an Italian, slightly wounding him, last September. The Italian demanded \$1500. Brown is a poor man and could not pay it. The Italian caused his arrest. Brown repeatedly appealed for trial, but the government was unable to locate the complaining Italian, who had evidently left the country.

Brown in his letter says his shoes are worn out, his clothing in rags, slops cover the stone prison floor and vermin infests his cell. During the entire ten months of imprisonment his food has been inadequate and he is reduced to eating banana skins and orange peel thrown him by natives to keep him from starving. He closes by saying: "I am miserable. Therefore I implore you for God's sake to procure my liberty. If you can, give me a just and immediate trial."
