

JABOUR TALKS OVER HIS WOES

Thinks Spokane Will Put Him On His Feet Again Next Week.

"Colonel" George Jabour—the man on whose shoulders rests the responsibility of providing the evening entertainment for the thousands of people who will be here during the period of the Interstate fair, arrived from Portland yesterday evening via the O. R. & N.

This morning, over his coffee and cigarette, Jabour, who, by the way, claims to be the representative in the city of New York of Abdul Hamid, sultan of Turkey, discussed with a Press reporter his recent financial troubles, his show and the political situation of Turkey as it affects the old-world politicians. He said:

"My financial worries have nearly driven me to distraction. Up till now the season has been one of disaster upon disaster. But I have kept the show together, and with good weather here will pull out all right. Spokane treated me royally last year and I have come back to you with a show that is bigger and better than ever before. Oh! but they have nearly driven me to distraction at Portland. Those newspaper boys, who said they were my friends, they have written so many foolish things. I did not make money there. Why? Because the attendance was not what it should have been. But I am here. That is

of the past. My show? Let me tell you I have the biggest feature act in America today. It is Edwards, the man that makes the high dive on a bicycle. It is true I saw it once, but never again. That act beats the loop the loop for a sensation. It is the highest price act in the business. My other specialties are all the very best, what you call A1.

"I came over from Portland to see that everything was prepared in readiness for the arrival of the circus. It will arrive here Sunday night and be open for business on Monday."

Speaking of the troubles that his mother country—Turkey—is having with the Macedonians, the colonel thought that if the powers stopped their meddling Turkey would speedily bring the revolt to an end. The insurrectionists, he said, were encouraged by the pretended friendliness of the powers, and that made it all the more difficult for his government to suppress the disorders. He did not think that the trouble would lead to any conflict between Turkey and Bulgaria.

Mr. Jabour will stay until the arrival of the circus and personally supervised the erection of the many platforms and structures needed for the show.

WANTS TO BE PAID FOR TIME IN JAIL

Attorney Alex M. Winston announced to Police Justice Hinkle today that he will put in a bill with the city council for \$13.50, which sum he claims is due one of his clients, Louis Dethridge, for over-imprisonment.

If the council does not allow the claim Mr. Winston says he will sue the city for the amount.

Dethridge is the young man who has been repeatedly arrested for vagrancy, and who at one time served on the city rock pile.

During the payment of one of these fines Dethridge was taken over to the county jail, and his attorney claims he served nine days after the case had been settled. It is payment for these extra nine days that Mr. Winston demands from the city.

Justice Hinkle did not know how the error had been made, and told Mr. Winston the latter might get a refund from the city of the money alleged to have been earned by Dethridge staying in jail.

FRIENDS OF SPIVEYS WILL SHOOT TOWN UP

OXFORD, Ohio, Oct. 2.—All the victims of last night's riot are alive but critical. A telephone message this morning says the friends of the Spivey brothers are coming here to shoot up the town. The mayor has sworn in 20 special policemen, and if the Kentuckians come a desperate battle will undoubtedly ensue. The students of the three colleges have been warned not to participate.

HAMILTON, Ohio, Oct. 2.—The Spivey brothers, who cause the riot and attempted lynching at Oxford last evening, are resting easy in jail here and both will probably recover. Joe Spivey escaped hanging by clutching a rope with his hands when it sprung up. His skull was not fractured as reported this morning, but his ribs are broken where he was kicked.

CONSERVATIVES SEEM TO HAVE A MAJORITY

VICTORIA, B. C., Oct. 2.—The provincial campaign which, though short, has been one of the most interesting in the political history of British Columbia, closed today and the people are looking forward eagerly to the election, which takes place tomorrow. A careful canvass of the situation leads to the conclusion that the present liberal-conservative government will probably be sustained by a small majority over its liberal opponents. The socialists and the labor party may return five or six members to parliament between them, leaving a small working majority for the McBride conservative government. The latter's railway policy, which is an important issue of the campaign, is understood to be distinctly favorable to the Great Northern extension by way of counterpoise to the Canadian Pacific quasi-monopoly.

McBride has also swung the vote of the mining camps in the upper country in his party's favor on his promise that if returned to power

the reserve on the East Kootenay coal locations will be lifted.

The mining constituencies now hold the balance of voting power, and the fight for supremacy is being made in the interior. If the conservatives can elect the following ticket in the two Kootenay tomorrow, McBride will remain premier for another four years: Hon. Robert F. Green for Kaslo, Thomas Cavin for Cranbrook, W. R. Ross for Fernie, John Houston for Nelson, Harry Wright for Ymir, William Hunter for Slocan, Thomas Taylor for Revelstoke, George Fraser for Grand Forks, E. G. Spankle for Greenwood, Hon. A. S. Goodeve for Rossland.

Opposed to these bearers of the conservative standards on the other side are the following liberal candidates: S. S. Taylor, K. C. for Nelson, Alfred Parr for Ymir, John L. Rettallack for Kaslo, James A. Macdonald for Rossland, J. R. Brown for Greenwood, W. H. P. Clement for Grand Forks, E. C. Smith for Fernie, Dr. J. H. King for Cranbrook, J. M. Kelle for Revelstoke.

PACES FAST MILE WITHOUT A DRIVER

"Doc M.," the famous Canadian guinea pig, has been secured for six performances during the race meet of the Interstate fair.

A telephone message was received yesterday evening from Colville from Harry McIntosh, the owner, stating that the horse would be ready for the opening day performance, October 5.

One day during the meet he will go against his own record of 2:20, a record, by the way, that has never been approached by any other horse, trotting or pacing, without driver.

"Doc M." is one of the most intelligent horses ever seen on the track. At the word "go" he swings off from the starting post at a nice easy gait for the mile test, and entering the last quarter, where Harry McIntosh generally stands to coach his pet, the raise of the latter's hand is sufficient to bring out all the speed the horse can muster for the sprint home. The exhibition is regarded as a phenomenal one, and shows the high intelligence a horse is capable of when properly trained.

Old timers at Rossland, especially among the local mining men, will be pleased to hear of "Doc M." The horse was on exhibition during the recent Stevens county fair at Colville.

Milner Refused Colonial Place.

LONDON, Oct. 2.—Lord Balfour officially announced this afternoon that Milner declined the colonial secretaryship and had returned to the continent.

A BUCK'S HEATER AT NOME....

would certainly be worth its weight in gold. People say that about them right here. The colder it is, the more you appreciate Buck's, the better it does its work. If you're not particular about the cost of fuel, and like the exercise of feeding the heater three or four times an hour, almost any heater will do. But if you appreciate a saving of at least one-third of your fuel bill, there's just one thing to do, buy a BUCK'S. Seven dollars and fifty cents buys one—others as low as three dollars.

\$1.00 down and \$1.00 a week.

until its paid for. That's pretty easy.

Your credit is good. Make your own terms.

EUGENIA BURCH IN HER OLD FORM.

Eugenia Burch, winner of the Dolphin stakes, gives promise of regaining her form of a year ago before long. The filly is owned by Mrs. L. Curtis, one of the few women who

race under their own names. Eugenia Burch is by Ben Strome—The Humbler. At Morris park last fall she captured the rich Matron stakes, and at the end of the season her winnings totaled \$27,000.

WOYDT ASSIGNS MEN TO POLICE THE FAIR

Chief of Police Woydt said today that Officer "Tom" Herndon will be in charge of the police squad at the Interstate fair next week.

Officer Herndon will be assisted by Officer Thompson and a dozen of the uniformed squad, by six specials yet to be chosen from outside sources, and possibly by the specials who are now on the police rolls.

At night Officer Herndon will be in charge of the police assigned to the Jubour carnival.

Officer Herndon will make his headquarters at the race track in the neighborhood of the betting ring. A telephone line to connect with the police station will be at his disposal. The other officers are to be assigned to different buildings and streets on the fair grounds to yet be selected.

Tog Up for the Harvest Festival

We are going to give you an opportunity to dress up to receive your friends from the mining camps and adjoining towns for a very little money.

For Today and Tomorrow we place on sale hundreds of men's

MRS. PRESTON AVERS BOARDER IS ARDENT

With the forfeiture of a \$25 bond in police court by Robert Logue, a story was told the court officials that would seem to make Logue one of the most ardent young men in town.

Logue was arrested on complaint of Martha Preston, who charged him with disorderly conduct in breaking the windows of her home and taking possession of a lounge in her front room, while she was absent.

According to a story told the authorities Logue boarded with Mrs. Preston and refused to leave when she did not care longer to board him. He was not ready to quit.

In Desperation Mrs. Preston sold her home to get rid of him. Then she bought another home. It was this new home that Logue was charged with entering during her absence.

Mrs. Preston was in court to push the case against Logue, but when he did not appear the court advised her to immediately obtain a warrant for his arrest if he bothers her any more.

The parties concerned live on the north side.

Whitney's Horse Wins in St. Leger.

LONDON, Oct. 2.—The St. Leger stakes were won today at Newmarket by W. C. Whitney's "Uncle Reggie," Danny Maher up.

TOO LATE TO CLASSIFY.

Boys and girls wanted to strip tobacco. If a good boy, he can learn the trade. In rear of 1110 Second avenue.

BEGIN DEVELOPEMENT ON A PLACER CLAIM

Thomas G. Leavell has sold a two-thirds interest in the Spokane Falls placer claim to R. E. Shepard and W. L. Tipton, and an effort is now being made by the three to organize a company to develop the claim, which is located on the road up to the famous Poplar Creek district, on Lardo creek, about a quarter of a mile from Trout Lake City. The claim is a half mile long, with a width of about 250 feet. The gravel or pay dirt will average about three yards in depth over the entire claim, which gives a total of 250,000 cubic yards in round numbers. From a panning test made of one yard of this dirt taken at the surface from a pit dug on the claim the result was \$2.50.

The development on the property thus far consists of a number of small pits and the natural development caused by the stream cutting through the ground. On the claim above this one 160 yards of dirt shoveled into a sluiceway netted \$280. From another pit on the same claim, about 50 feet by 10 feet by 10 feet deep, \$2500 was taken. The gold dust taken from this district is worth \$18.50 per ounce.

When the company is formed it is proposed to hydraulic the claim. A flume will be built commencing at the high water mark at a point just above the upper end of the claim and continued down to the foot of the claim and a pen stalk will be built to connect with the end of the flume, to which will be attached the hose and nozzle. It is estimated this work will cost about \$4000.

Attorney Charles Wolf returned last evening from a week's trip to Roseland and other northern mining camps.
