

PAPA, THE GOV., IS A PROHIB, BUT SHE MUST USE A BOTTLE OF FIZZ

Miss Hoch Will Break Champagne Over the Battleship Kansas When it is Launched—She Was Brought Up in a Stronghold of Temperance Advocates.

(Scripps News Association.)
TOPEKA, Kan., July 28.—Crude oil which the Standard declined to buy, water from the spring of John Brown, corn juice made from kernels ripened in the Sunflower state have all been passed up by the navy department in planning for the christening of the battleship Kansas at Camden, N. J., next fall, and Miss Anna Hoch, daughter of the prohibition governor of Kansas, will handle for the first time in her life a bottle of champagne when she officiates at the ceremony.

PHOTOGRAPH INVENTOR DIES

PHILADELPHIA, July 28.—John Garbutt, the well known photographer and inventor of "Garbutt dry plates," which revolutionized photography, died at his home in this city this morning at the age of 73.

MUST MUFFLE SEATTLE AUTOS

SEATTLE, July 28.—Automobiles that chug-chug down the city's streets and boulevards must stop the disagreeable noises they make during their rapid progress. Such unpleasant disturbances of the peace must be discontinued, is the fiat of Chief of Police Delaney, who says all autos, chiefly gasoline ones, must be equipped with mufflers, to reduce the noise.

Hereafter, when they traverse the streets, so orders the chief, they must do so noiselessly. Many people think the order should also go as far as to say odorlessly, for of all disagreeable smells, that which trails behind a gasoline automobile is the limit. However, everything may come in time. Those with supersensitive ears will be satisfied first. The possessors of supersensitive noses must wait.

The chief also has told all policemen that they must see that automobile drivers obey the driving ordinances, and always turn to the right when passing vehicles or passengers. The special privilege autoists have assumed in this city of turning any way in their hurry must be discontinued.

When asked this morning whether or not they approved of Chief Delaney's orders, several prominent automobile enthusiasts said they thought they were right and proper. They said that though mufflers were cumbersome and a hindrance to speed, it would be no particular hardship to use them on machines within the city limits. Besides that, they thought motors would go a long way towards rendering automobiles popular with the public.

BROTHER MUST TOE THE MARK TO GET MONEY LEFT HIM

NEW YORK, July 28.—In his will Deane Miller, who died at No. 12 West Forty-fourth street recently, leaving a large estate, directs that one-half his residuary estate be held in trust, the income to be paid to his brother, Clark A. Miller of New Rochelle for life. In the event of Esther Singleton Miller, the wife of this brother, being compelled to leave his bed and board by reason of his convivial habits the executors are to pay him only one half the income, the other half going to her.

Dr. Charles G. Miller of this city, a brother, and Albert C. Spann of Buffalo are executors, with absolute authority and discretion in the matter of the share of Clark A. Miller. If Clark A. Miller abstains for three years from alcohol or drugs the executors are to convey to him a part or all of his share, and they are to be the sole judges.

The other half of the residuary estate is bequeathed to Dr. Charles G. Miller, with the contents of Deane Miller's apartments, his jewelry, silverware, automobiles, horses, carriages and personal effects.

PURE COPPER FROM NIBBLACK

(Scripps News Association.)
TACOMA, July 28.—Products of northern mines valued at almost \$75,000 were received by the Tacoma smelter yesterday. The valuable cargoes were brought by the steamer Leelanaw, Captain William Meyer, towing the barge John C. Potter, Captain P. McCarthy.

THEY WILL MAKE SWITCHES

The Carlson-Taber Switch company this morning in the county auditor's office filed articles of incorporation with a capitalization of \$250,000. The incorporators are Herman J. Taber, Carl J. Carlson, J. H. Robbins, W. W. Robbins and C. C. Robbins. It is the intention of the new company to manufacture switch appliances.

THREE GIRLS DROWN IN COLUMBIA RIVER

(Scripps News Association.)
VANCOUVER, Wash., July 28.—Lillie and May Seigler, aged 22 and 18, and Edna Fisher, aged 19, of Fisher's Landing, were drowned last night while bathing in the Columbia river at Governor's island. The bodies were recovered.

SUNDAY EXCURSION, ST. JOE.

The Northern Pacific will continue the Sunday excursions to St. Maries, Ferrell's and St. Joe during the summer. Train will leave Spokane 8 a. m. for Coeur d'Alene. Steamer Oakes leaving there on arrival of train for a delightful ride across the lake and up the St. Joe river, arriving at Ferrell's about 2 p. m., where stop of 30 minutes will be made for dinner. Those preferring to do so can take lunch baskets and eat lunch on the boat. Returning train will arrive Spokane about 9 p. m. Fare for the round trip \$2.

MUST PAY MOTHER \$3 EACH WEEK

(Scripps News Association.)
NEW YORK, July 28.—James Foye, the confidential secretary of Charles Gates, who had his mother arrested because she begged money to keep her from starving, left today for Saratoga. This afternoon Magistrate Crane issued a summons requiring Foye to appear Monday to pay the \$3 a week ordered by Magistrate Barlow. Foye will have to pay or go to jail.

EXCITED OVER EXPECTED NEWS FROM DR. MARY

Considerable consternation and expectation was experienced at the sheriff's office this morning when a man at the other end of the phone asked Desk Deputy Doust if Sheriff Doak was in. He was not, but was expected shortly.

"Who is this talking?" asked Mr. Doust. "Oh, George Messner?" thinking it was the man mixed up in the Mea arson case. The man on the phone said he was coming over to see the sheriff.

The sheriff's office waited with repressed feelings the entry of Mr. Messner, possibly with news of the lost Dr. Latham. A half hour passed. George Murphy, ex-jailer and now an employe of the Automatic Telephone company, walked into the office and sat his model telephone receiver and transmitter down on the table. Murphy explained the workings of the system to the deputies and others who happened to be in the room. He sat around 15 minutes. Finally he observed, "Mr. Doust, I thought you told me Mr. Doak would be in soon when I telephoned?"

Murphy was asked why he did not talk United States over the phone and not get the office all wrought up over developments in the Latham escape case.

Murphy's Irish came to his rescue and in his richest brogue he retorted: "If yez had a decent tellyphone, ye could have heard that it was no Messner talking wid yez."

FINCH AND HOGAN ARE REASONABLE

The city park commissioners this morning held a meeting for the purpose of discussing the improvements incident to taking over Audubon park, offered by Hogan & Finch. It developed that the donors are inclined to be more lenient. It was at first given out that Hogan & Finch, who own the park, wanted the city to expend something like \$3000 for the extension of a water main before they would agree to make over the deed to the city.

Mayor Daggett, City Engineer McIntyre and Councilman Koontz today took a trip out to the section in question for the purpose of looking over the ground. The commissioners were accompanied by Messrs. Hogan and Finch. The latter agreed to the city paying but \$500 toward improvements.

This matter was brought up at the last meeting of the council, at which time it was turned over to the park commissioners. The commissioners objected to expending such a large amount of money at this time, though it admitted that now is the best opportunity for the city to acquire its park grounds.

The park commissioners stated today that some plan satisfactory both to the city and the donors of the property would likely be reached.

CORN CROP LARGE, WHEAT UNCERTAIN

WASHINGTON, July 28.—While reports regarding the outlook for the wheat crop are considerably at variance the reports concerning the corn crop for 1905 are nearly all to the effect that the outlook is favorable for a large crop. The total estimated acreage of corn this year is 94,238,000 acres, an increase of 1,500,000 acres over last year. The condition of the crop the opening of the month was 88.4. The harvest will, of course, depend upon growing conditions the remainder of the season. Throughout the corn belt the crop has so far progressed nicely.

The oats crop gives every indication of being up to normal, under the slightly increased acreage. It seems safe to anticipate a yield aggregating in the neighborhood of 900,000,000 bushels, but this, of course, may have to be modified later. The rye and barley outlook is good.

MAKING THE LONG SWIM

(Scripps News Association.)
DOVER, England, July 28.—T. W. Burgess this morning started to swim the English channel. At 2:30 he was half way across with good prospects of finishing his long swim.

PENNY FOR YOUR THOUGHTS.

MARQUIS ITO CHANTED POEM

(Scripps News Association.)
TOKIO, July 28.—Minister of War Terauchi today entertained Secretary Taft and party at luncheon in the famous garden surrounding the arsenal. The cabinet and many officers of the army and navy were present. Marquis Ito chanted an original poem composed in honor of the visit of the Americans.

WILL VOTE ON THE DISSOLUTION

(Scripps News Association.)
CHRISTIANIA, July 28.—The special committee of the storting, to which was referred the government's proposal for referendum on the dissolution of the union with Sweden, has unanimously decided to recommend the acceptance of the proposal.

MERELY CHINESE TRADE BUGABOO

(Scripps News Association.)
VICTORIA, B. C., July 28.—The threatened boycott on American goods in China is a bugaboo, according to Dr. Morrison, the Pekin correspondent of the London Times, who arrived here from the orient this morning. He says the agitation is of comparatively small proportions.

HORSES DIE BY LOCLJAW

SEATTLE, July 28.—Careless contractors have caused the death of over \$10,000 worth of horses in this city in the last few months since the building season opened. Lockjaw has been the dread cause of death, and truck horses are the usual victims. The recklessness of building contractors, who burn the waste material from structures they tear down to make room for new ones, is set down by the officers of the humane society as the cause. The old lathes, shingles and joists of the torn down houses are burnt in street bonfires. Of course the old nails are not consumed by the flames. These become scattered about on the streets, to catch in horses' hoofs, bringing on blood poisoning and later the deadly lockjaw.

The Seattle Transfer company, the largest teaming concern in the city, loses horses almost daily. On an average three of their animals are brought in every day, suffering from blood poisoning caused by nails picked up in the street. Some of the horses recover under treatment, but a considerable portion succumb.

Yesterday the humane officers of the city secured blank warrants from City Attorney de Bruler against contractors who are in the habit of burning old rubbish in the street. Every contractor lighting fires in streets and alleys will be arrested and prosecuted under a city ordinance, which makes the lighting of bonfires on public thoroughfares a misdemeanor.

GAYNOR-GREENE POSTPONEMENT

(Scripps News Association.)
MONTREAL, July 28.—After a long argument today the Council for Gaynor and Greene got a postponement of the habeas corpus hearing until September 5.

BOY SHOOTS HIS BROTHER

CLEVELAND, O., July 28.—Henry Davis, aged 16, 41 Hackman street, was injured by the accidental discharge of a revolver at 9 a. m. today.

The bullet lodged near the knee. According to the reports of neighbors, he and his brother Charles had been playing about in the yard for some time before the accident. Finally there was a boyish quarrel. Henry ran into the house and came out with a revolver in his hand. Charles started to run. The weapon was discharged and Henry fell.

Charles ran to his side, thinking at first that his brother had been killed. Belstein's ambulance was called and took the injured lad to Charity hospital.

"The prosperity of the country seems founded on a rock," says a St. Louis paper. Can't lose sight of John D.
