

MILLIONS CHANGE HANDS AT KENTUCKY HOME OF GAMBLING

BOOKMAKERS RULED OUT OF OTHER CITIES HAVE FLOCKED TO LATONIA—RACE MEET TO LAST FOR THREE MONTHS.

A BOOKMAKER.

COVINGTON, Ky., Sept. 2.—Latonia, the picturesque race track near this city, for years the pride of true lovers of horseflesh, where thoroughbreds were raced for sport rather than for profit, has been turned into a great gambling machine frequented for the most part by professional race track followers.

Every day, except Sunday, rain or shine, either he or one of his representatives appear on a certain corner near his machine shop and 100 children of all ages, color and sizes are given their penny. Christmas there is a special fee of a nickel given to each of his little charges and the penny giving has become an event of great note in the lives of each of the little ones.

INTEREST INCREASING IN COLLEGE FOOTBALL

Coach F. H. Yost Declares Game Has Improved Greatly in the West and South and That Interest Is Greater Than Ever Before.

TACKLING FROM THE FRONT.

ANN ARBOR, Mich., Sept. 2.—Knowing the woes of the average foot ball coach and comparing them with those which must beset "Hurry Up" Yost that he may turn out winning combinations as he has since making his debut at Michigan, the announcement that Yost has shouldered the responsibilities of authorship may be received with more or less of a shock.

FIELDING HARRISON YOST. said Yost. "There is everything to support my statement. I have here (and he pulled a bundle of letters out of his pocket) letters from the presidents of 15 uni-

thing. My intention is to see that a copy goes into every high and preparatory school in the country. I know it will be of value to all young foot ball players. That was my chief reason for writing it. I have the name and address of every high and prep school and college in the country and intend to see that the foot ball captain of each gets in touch with the book.

the pennies go toward keeping the little tribe. It is not unusual to see four or five tots of a family in line. The idea came to the veteran machinist long ago. Then crowds used to congregate around his door to watch the furnace glow and the sparks fly. They became so much a part of his daily life that to keep them coming he began giving them pennies. He has given away about \$6000.

HYPNOTIST FOUND.

WHO WROTE THAT MOST WONDERFUL MENTAL FREE BOOK. Reveals Startling Secrets That Have Been Jealously Guarded for Ages by Mystic Adepts.

Tells How Any Person, Young or Old, May Heal the Sick and Banish Disease and Habits as If By Magic and Wield a Powerful Influence Over the Minds and Lives of Others.

Overlooked by Doctors and Scientists for Centuries Past. Why Does He Give Away Without Charge This Strange Book the Like of Which Has Never Been Fed to the Eyes of the Public?

Sends Them by Mail Absolutely Free to Those Who Write This Peculiar Poem.

New York.—(Special Correspondence.)—It has been learned on good authority that Professor F. T. McIntyre, a well-to-do scientist of this city, wrote that wonderful book which is being sent out broadcast absolutely free to persons who wish to wield a mysterious power for good. He has created a sensation in the scientific world by giving information to thousands of people, enabling them to perform feats that astonish and mystify physicians and scientists in many parts of the world.

Through delving down in the realms of nature's mysteries he has discovered a delicate but powerful law that seems destined to revolutionize the theories of the most noted authorities on Mind Force. Many people look upon him as a man possessed of divine power, for he has told them how to influence people far and near, and to heal themselves and others of all ills, as if by magic. He tells them how to project their thoughts, develop a powerful mentality and build up the mechanism of the body and brain. Doctors and magnetists who have tested the workings of this new discovery admit that it surpasses anything in the history of psychic power.

In explaining the method to a reporter Professor McIntyre said: "I am convinced that anybody can accomplish the things I have done if they understand the system. It would be a gratifying if every man, woman and child in this country learned the use of this wonderful force. There should be no more diseases, immorality, drunkenness, pernicious habits, poverty or failures in life. There is no reason why we should not be able to prevent murders and suicides, separations and insanity, for through its uses almost any phenomenon seems possible. I have sent my carefully prepared book to people in many parts of the world, which explains the principles of this discovery, and I find they can do the same wonderful things I have done, and for which many people think I possess some special power. I have sent these expensive books out without any charge whatever, as I am anxious to have every one benefit from this new discovery. The letters received from each person who tries to do the same as they are all loud in their exclamations of surprise, and say they never dreamed such things possible. Many offer me fine presents, but I refuse them. I am working for the uplifting of mankind and science. The kind letters received from grateful hearts more than pay for my services. I will send a copy of my free book to every person who writes and sends to me the following odd little poem:

"I want power of mind. Force and strength in look. If my writing is satisfactory, Please send me the book." Professor McIntyre says that he can tell by glancing at a person he receives just what the one who penned them is best fitted for in life; what the writer's characteristics are; what he is to do with his life; if he is weak, run down, physically or mentally, and whether the writer will succeed in what he attempts to do. He does not wish to seem to any person who would use the system of personal control for any other than an honorable purpose. Like Andrew Carnegie, he believes in the distribution of good books. No book in this age of scientific progress has so many such a well-merited furor of interest. It is full of startling surprises and many pictures, showing how one mind controls another. It explains how the strange phenomena of developing Personal Magnetism, Hypnotic Influence, Magic, Clairvoyance, Discerning Reading Characters and Minds, Projecting Thoughts to Distant Places, are accomplished. It shows the key to the development of the Inner Forces, concentration, force of character, memory and powerful means of swaying the minds of others; how to overcome the most obstinate disease or habit, through an inward, subjective power, as the Hindu banish disease and dependency at will. It is by far the most wonderful book of the age, and who will receive free copies of it can be thankful. It points out the road to social and financial success, reveals many mysterious phenomena that have baffled scientists for centuries past.

If you wish a free copy of this wonderful book, sit down and write the above verse and send it to Professor F. T. McIntyre, Dept. 332, No. 128 West Thirty-fourth street, New York, N. Y.

All who write will receive it; no one will be disappointed. It is sent by mail, postage paid, absolutely free.

You will be amazed at the workings of this truly wonderful discovery. It will open the way to success in life, enable you to control and sway the minds of many, startle your friends far and near, and make for you a position in life. It is more than words can explain. Send today. A postal will bring it.
