

# CLEAN UP THE TIGER BUNCH

Tacoma opens in Spokane tomorrow for a series of five games. The Spokane team is still adding around in the cellar trying to crawl out of the hole. Some help resulted in the series with the Miners when three out of five were won by Spokane but it will take several games for the Indians to get within "thinking" distance of Tacoma, the leaders.

And talking about Tacoma, what is the matter with getting in during the next series and making

Samuels Will Make Good.

them look like condemned bologna sausage of a Chicago packing establishment. There is no reason now why Manager Ferris' men should not proceed to take the measure of the Tigers. With Terry McKune back in the game and relieved of his bum ankle and Matt

Stanley behind the bat after a good rest, and the other men in more suitable positions. Tacoma should prove easy money.

The Indians defeated Palouse yesterday by a score of 19 to 7 in a very poor game. Both teams played indifferent ball, particularly the Palouses, and this caused the Spokane team to mix a little face with their playing.

Lee Samuels is to be given a trial by Manager Ferris of the Indians. The announcement will please Lee's friends who were rather surprised when Rush was given a situation with the team and not Samuels. It is predicted that Samuels will make good like a house afire.

### MINERS SCRATCH.

At Sandpoint, Idaho, yesterday, the Butte professional baseball team defeated Sandpoint 3 to 2. It was only a scratch which allowed the miners to win in the ninth and that was when Ford helped the runetting with a homer. If this hadn't happened the game would have gone 10 innings and at that the amateurs might possibly have slipped one over and won.

### WILL SEE THE POPE

(Scripps News Association.)

NEW YORK, July 10.—A large pilgrimage of Catholics under the spiritual direction of the Right Rev. Henry Gabriels, Bishop of Ogdensburg, N. Y., and John J. McCrane of New York sailed for Europe on the Cunard Slavonia. The members of the party will enjoy the rare privilege of an audience with the holy father.

# UNSAFE BRIDGES COSTLY PROPERTY

ESTIMATES FOR THE REPAIRS THAT CAN NO LONGER BE NEGLECTED CALL FOR EXPENDITURE OF \$210,000.

Bridge repairing is now in full swing in the city, and as soon as men enough can be employed and the work of fixing up the collapsed Howard street structure is finished the structures condemned by G. T. Forsyth, the O. R. & N. expert, will be reinforced according to plans now being compiled in the office of the city engineer.

The board of public works will

not wait on any further action of the city council on recommendations from the investigation committee, but will go ahead with its work.

The estimated cost of this work, as compiled by Commissioner Roy, is as follows: Mission avenue, \$45,000; third and fourth bridges on Howard street, \$35,000 each; second Howard street bridge, \$20,000; Havermale island bridge, \$20,000; lower Hangman creek bridge, \$20,000; North Washington street bridge, \$35,000; total \$210,000.

# NEW RULES GET RESULTS

"What a roar has gone up over the new water regulations," said Commissioner Omo this morning.

"However, it has caused people to sit up and notice conditions somewhat. In making the request to the city council to stop sprinkling altogether I did it only with a view to having the council make some radical change, which was done."

A great deal of complaint is caused by the cutting down of the sprinkling hours and some people maintain that two hours a day is not long enough. But already there has been a noticeable difference in the pressure on Cannon Hill where, with the old rules in effect, places would go for two or three days without water for household use.

The fire department fortunately has not yet had an opportunity of testing the present pressure in a practical way.

# WITTE KEEPS OUT OF REACH

VICHY, France, July 10.—Count Witte, who has been resting here for some time away from the turmoil of Russian politics was sufficiently recovered today to leave for Aix-les-Bains, where he will spend another month, after which he may go to Italy or Switzerland preparatory to returning to Russia in the fall to take up the works of state. He is credited with holding the view that the representative branch of the douma is doing its utmost to become a revolutionary body, delaying reforms and maintaining chaos and that the Jews by placing themselves at the head of the revolutionary movement make it impossible for their friends to assist them.

# \$10,000,000 IS CALLED IN

WASHINGTON, July 10.—The \$10,000,000 temporarily deposited with national banks throughout the country by Secretary Shaw's orders last spring will be called in today and most of it will be returned this month. It is believed that there is no longer need for the same as the demand for a large volume of currency is not now so great.

# TWENTY WILL JOIN WOODMEN

Twenty candidates for woodcraft are to be in Spokane a week from tomorrow night, for introduction into the mysteries of the craft of the Modern Woodmen of America. The candidates come from Greenacres, where a few evenings ago there was an inspection on the establishment of a camp at that place.

# ANOTHER BUNCH OF GRIEF FOR BALZER

A woman named Mrs. Knight has filed a complaint with the police department against C. E. Balzer, the florist at Manito park, special policeman and lemonade stand proprietor, because, she alleges, he mistreated her two little boys.

Balzer is the special policeman whose star has been taken away by Chief of Police Waller on account of alleged laxity in performance of duty.

# SMALL FIRE THIS MORNING.

A fire in a shed owned by F. A. Chase, at 1721 Grand avenue, called out the department this morning. The loss was small.

# NEW NAMES ON PAYROLL

At the meeting of the school board of District 81 last evening John H. Quene of Minneapolis was made assistant in the manual training department. J. F. Haber was elected high school janitor, and A. P. Kent, formerly at the high school, was made janitor at the Irving school. Loyal Gottschalk, Bessie Hall, Blanche Suing and Johanna Poland were placed on the teachers' waiting list.

# NO WATER UNTIL GRADING IS DONE

Regarding the recommendation of the health department that city water be furnished residents in the vicinity of the O. R. & N. yards, the board of public works in a communication to the city council filed with the city clerk says it is waiting on the completion of some grading in the railroad yards before it will commence laying water mains.

# FEEL IMPENDING DOOM.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Watson Drug Co.

# At the Theaters

**THE SPOKANE.**

Rather refreshing comedy is "Mary, Mary, Quite Contrary," as presented last night at the Spokane by Miss Henrietta Crosman and a very well balanced company. It is a relief and satisfying to sit through the three acts as there is just enough droll humor to keep you wholesomely entertained. Boyd Putman as "Birdie" Danvers was a bubble of fun. Eddison Pitts gives Miss Crosman excellent support. The play will be repeated tonight.

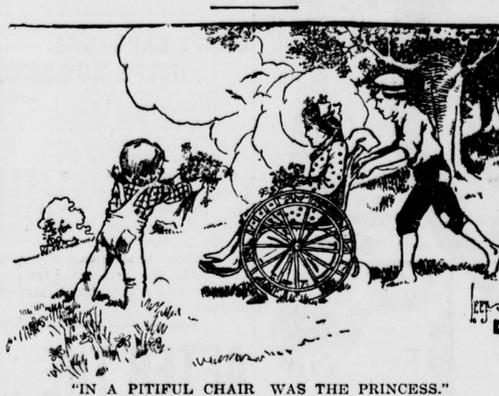

**THE COLUMBIA.**

"A New Magdalen," produced for the second time at the Columbia theater last evening by the Byron Douglas company brings out the talent of the company in an effective manner and the piece is well staged.

**THE WASHINGTON.**

A strong bill is being presented at the Washington theater this

# THE PRINCESS HOLDS COURT

"IN A PITIFUL CHAIR WAS THE PRINCESS."

# ANOTHER STORY OF THE MAN AND THE CHILDREN OF THE LINKS.

It was out on the links that I met the little party of four. I liked them all, these children, but the Princess with the Madonna face, best.

They were barefooted and brown, and cheaply clad, even the Princess, and she, Oh! the tragedy of it, had a withered leg.

"I tried to keep my eyes off it and I could not. I wondered if it hurt, and if, when the house was still at night, there was an ache and a throb and a pillow wet with tears. To me the affliction almost hid her merry smile and put sadness in her laughter.

"There was not much dignity in her suite, this day. The Princess and her followers were rolling down a little hill, and at each revolution there was the withered leg to mark the cripple and tell the world that for all the hours of a beautiful life a cross must be carried, and already God had put the seal of patience on her dear face.

Would the Princess and suite lunch with me?

She giggled and said that she would. A Princess, you know, has the right to lunch with a stanger without an introduction. It is a royal prerogative.

Too bad that we had nothing but gum for lunch. It had to serve for

# WOMAN CHAMPION TELLS THE GIRLS HOW TO SWIM

Best of all Sports for Femininity, Declares Miss Elaine May Golding—Woman Who Has Been in the Water Since She Was a Babe Says, "Come In. It's Fine."

REVISED VERSION.

"Mother, may I go out to swim?"

"Yes, indeed, my daughter. Go practice at the ladies' gym; Then plunge right in the water."

By Miss Elaine May Golding, Champion Woman Swimmer of America.

To my way of thinking the best of all sports in which women may indulge is swimming.

Being a family of swimmers, and having always lived at the sea shore, I have been an expert in the water since my 10th year, when I swam the Narrows. In fact, I have spent the major portion of my summer days, since my fifth year, in the water near my home in Bath Beach. When I was 13 I won a race from Sea Gate to Bath Beach, 2 1/2 miles. Since then I have been in many contests, and have many beautiful trophies won in New York and at the St. Louis exposition.

I believe that every girl should know how to swim, mainly for her pleasure and health.

Just to give the girls of Spokane an insight into the art of swimming, I have prepared expressly for The Press five illustrated articles, the accompanying one being the first.

Girls made better swimmers than those of them suspect who have never tried it. After a little practice these directions can be followed as easily as read:

# WOMAN CHAMPION TELLS THE GIRLS HOW TO SWIM

CHAMPION MAY GOLDING'S FIRST LESSON TO GIRLS ON SWIMMING.

THE PROPER WAY TO FLOAT (POSED BY MISS GOLDING)

TO FLOAT is the first thing a girl desiring to swim should learn. Lie flat on your back with as much confidence in yourself as if you were lying on the sand. Keep your feet together and relax perfectly. Breathe normally, just as if you were not in the water. Let your head rest on a straight line with your body, the water line being above your ears and around the tip of your chin. Your arms should be thrown back and by paddling with your hands you may direct your course.
