

SHACKLETON EXPLORES BIG WILD NEW YORK

(By United Press Leased Wire) NEW YORK, March 26.—Sir Ernest Shackleton, recently knighted for reaching "farthest south," is conducting a tour of discovery in New York today. With Lady Shackleton, his wife, the former lieutenant is visiting the places of interest in the eastern city.

Asked if he thought Roosevelt would reach the south pole if he headed an expedition in search of it, he replied:

"He is a man of strong determination and strong enough to do it."

Sir Ernest believes that Captain

Henry Scott, to head the next English expedition in search of the south pole, will find it. He says Scott will follow the same route that he followed, which will take him within 100 miles of the pole, and from there he will make the rest of the journey. He intimated that he might head another expedition himself some time and said that if he made the trip he would reach the pole.

Shackleton praised Peary, saying that he firmly believed Peary reached the north pole. He refused to comment on the claims of Dr. Cook.

POLICE AID RAILROADS TO DOWN EXPRESSMEN

Expressmen of the city are fighting mad. They claim that the Hill railroads have made a deal with the Pacific Transfer company to give it the bulk of the baggage business and that the police department of Spokane is being used as a tool by the railroads to see that this monopoly of the business is maintained.

Hence, the expressmen, who pay as much license for each of their wagons as the vehicles of the Pacific Transfer company, are justly indignant at this perversion of the police department for the benefit of the big corporations.

Recently one poor expressman has been arrested three times and fined in the police court because he dared to earn an honest dollar for his family, in violation of the compact entered into by the police, the railroads and the transfer company.

The man paid the fine, but says that he will still continue to strive to get a share of the business, even if he has to risk his liberty as an American citizen to do so.

In Spokane, as in almost every large city, when the corporations need any dirty work done to sup-

press labor or enforce monopoly, they turn to the police department. As a rule most cities have some big bulldozer like Chief Sullivan at the head of their police departments for carrying out such mandates of the corporations.

It was the corporations—the railroads, big contractors, mill and mine owners of this section that, under the surface, urged on the recent cowardly and brutal treatment of the L. W. W. by the Spokane police department. The moneyed interests of the Coeur d'Alenes, the big lumber mills, the railroad contractors and the railroads themselves wanted the organization crushed out, and in Chief Sullivan and the Spokane police department found ready tools to carry out their will. Now the unfortunate men who do transfer work are getting a little dose of what the corporation I. W. W. The expressmen are fighting mad, but agree that there is no use in trying to oppose the armed bluecoats, who have every advantage in the controversy.

But the expressmen are sitting silently awaiting the opportunity when they can get in a kick that will count and propose to register this kick through the ballot box.

WITH GLITTERING TRAPPINGS AMERICA'S VANITY OF RICHES GOES ON ANNUAL PARADE TOMORROW

FROM A PHOTOGRAPH OF THE EASTER PARADE ON FIFTH AVENUE LAST YEAR.

If the sun shines tomorrow, the usual Easter parade of the vanities of the ultra rich of America will take place on Fifth avenue, New York.

Fashion, beauty, glittering trappings of great wealth, enormous wealth in this age of special privilege, are on each Easter day publicly exhibited on the main thoroughfare of the metropolis. This parade is an ancient institution and has long stood as the spring show day of the American "aristocracy of wealth." Ten years of trust methods have added

thousands to this "aristocracy," which, of course, centers in New York, and tomorrow's parade should be the most impressive display of riches that the golden avenue has ever witnessed.

Possibly 150,000 men and women will pace the street, filling both sidewalks from curb to curb, and there will be two long, unbroken streams of automobiles and fancy carriages on the drive. Of the number a possible 20,000 represent enormous wealth—riches that would make old Croesus' bank look like pin money. The remaining

DON'T OPEN TELEGRAM ADDRESSED TO ANOTHER

(By United Press Leased Wire) OLYMPIA, March 26.—The state law allowing treble damages where a person opens a telegram addressed to another was sustained by the state supreme court late yesterday in the suit of C. H. Deighton against Arle Hoover.

Deighton owned 129 acres of timber land in Oregon, which a friend was trying to sell for him in Minnesota. The friend wired that he had received an offer of \$2000 for the land.

The telegram was delivered to Hoover, who was Deighton's employer, and Hoover, instead of delivering the dispatch, traded Deighton land in Yakima county in exchange for the timber land. When Deighton heard of the delivery of the telegram, he brought suit.

The jury found the difference in value between the Yakima land and the Oregon timber to be \$1400.

URNS POOR BONI DOWN

PARIS, March 26.—Boni de Castellane, divorced husband of Anna Gould, former Princess de Sagan and now Duchess de Talleyrand, recently offered to marry Baroness Vaughn, widow of the late King Leopold of Belgium, according to unquestioned authority today. Boni was flatly rejected.

Friends of Count Boni believe that the volatile de Castellane sought to replenish a somewhat flattened purse by an alliance with Leopold's widow.

Boni is up for reelection to the chamber of deputies this year, and it is reported that he has nothing with which to make a fight for the place. His only asset is his title, and according to society's statistics the matrimonial market at the present time is extremely dull.

Boni was awarded a tidy sum recently by the courts under a contract entered into by Anna Gould before her marriage to him, whereby Miss Gould promised to pay her prospective husband a stated marriage portion yearly. The sum, however, taken in consideration with Boni's menage, is paltry.

A SCANDAL NOW THEY ARE DEAD

(By United Press Leased Wire) CHICAGO, March 26.—A thorough search of the ruins of the Fish & Co. building at 19th street and Wabash avenue today, failed to reveal more bodies and it is believed that the 12 victims, whose bodies were recovered are all who perished in the big blaze yesterday. It is believed none would have been burned to death had the building been equipped with fire escapes.

Speaking in regard to this, Fire Chief Horan said that he had notified the building department some time ago that the Fish building was

INDIANS THREATEN

(By United Press Leased Wire) YUMA, Ariz., March 26.—A serious uprising of the Yuma Indians at the government reservation near here is threatened as the result of the determination of the reservation authorities to stamp out the death rite orgies that follow the demise of each tribesman.

According to Assistant United States Attorney Horton, who is handling the matter, thousands of dollars' worth of government property is destroyed each year during these unusual funeral ceremonies.

VERBAL STORM

(By United Press Leased Wire) WASHINGTON, March 26.—The refusal of the "defense in the Ballinger-Pinchot controversy investigation to permit the questioning of Secretary Ballinger by Attorney Brandeis until Ballinger had first been examined by his own attorney brought on a verbal storm in the session today. Brandeis, who is L. G. Glavin's personal representative, demanded the privilege to question Ballinger. Attorney Verrees, for Ballinger, contended against the demand.

THREE MEET DEATH IN DIFFERENT WAYS

(By United Press Leased Wire) SEATTLE, March 26.—Three men met sudden death in Seattle this morning, one dropping dead, and two meeting death under engines.

John Simmonds, a track walker, 49 years old, was killed by a Great Northern train at mile post No. 10.

F. E. Moore, 59 years old, stepped off a switch engine directly in front of another engine at the Northern Pacific yards. Both legs were cut off and he died on his way to the hospital. Moore was a railroad man.

Daniel Wood fell dead at 8:10 this morning while walking home from the Pacific Ammonia and Chemical works, where he was nightwatchman. He dropped dead at the gate of his home.

SELL RIBBONS NOT BOOZE

(By United Press Leased Wire) PEEL, Wash., March 26.—From the saloon business to dry goods is a far cry, but with the ousting of the liquor men here, a former proprietor of a bar is fitting up his store room as a dry goods and notions house. Another has opened a confectionery store and a third is hustling loaves. The "wet" are trying to convince Judge Watson that charges made that liquor is still being sold here are untrue. William Zaekovitch, a defendant in a case brought on this charge, was found guilty and fined \$75 and costs. The judge ordered the marshal to destroy \$200 worth of liquor confiscated under a search warrant.

ALLEGED CHILD STEALING IN QUADRUPLETS CASE

(By United Press Leased Wire) LOS ANGELES, March 26.—Mrs. Catherine Smith, who was alleged to have aided in gathering the four babies for the "quadruplets" presented to an astounded world by Mrs. W. W. Wilson three months ago, must appear in court next Monday to answer to an accusation of child stealing.

She was arrested upon a charge brought by Sadie Englemann, the 16 year old mother of one of the Wilson "quadruplets" and released on \$2500 bail.

NEW LINE NEARLY READY.

(By United Press Leased Wire) ABERDEEN, Wash., March 26.—J. R. Holman, assistant manager of the Harriman interests in Washington and chief engineer of the Grays Harbor & Puget Sound railway, who is in Aberdeen superintending the preparations for the construction of a steel bridge over the Chehalis river, said today that the bridge would be ready for traffic by October, and that under favorable conditions the road should be operating trains into the city by November 1.

ATTEL AND MORAN
SIGN FIGHT ARTICLES
(United Press Leased Wire)
NEW YORK, March 26.—Abe Attel and Owen Moran today signed articles for a 10-round fight here April 1.
Moran and Attel had already been signed for a scrap on March 29. The new articles provide for a scrap to supercede the one provided for in the others, and practically amounts to a change of date for the battle.

STUNG AGAIN! POOR CUPID!

Stung again—poor, poor cupid! Asserting that because of his wife's bad temper and trying disposition, and because of indignities she has heaped upon his overladen shoulders, he has been unable to live happily with her for more than a year, M. S. Williams has petitioned the courts for everlasting relief from his incongenial mate.

According to the complaint, which was filed in the courthouse this morning, Williams and his wife were wedded in Salem, Ore., in November, 1898, and went to Seattle, Wash., to live. Here, as a climax to their frequent clashes of disposition and ill-temper, they parted, the wife going to California to live, while the heavy hearted husband fled to Spokane to live down his sorrow.

ARIZONA IS FREEZING

(By United Press Leased Wire.) FLAGSTAFF, Ariz., March 26.—Northern Arizona is in the grip of one of the severest snowstorms that has swept this section in many years. All Santa Fe trains have been delayed from three to five hours and wire communication is paralyzed.

Six inches of snow fell here and deep drifts formed in the gulches along the railroad tracks. It was impossible this evening for fire dispatchers to follow accurately the movement of trains, and it may be many hours before normal conditions can be restored.

Messages coming from Holbrook and Winslow today over the wires that have been restored indicate that the storm has abated in this section, although it was stated that rains might not be run on schedule time until tomorrow.

OLD SWEETHEART NOW PROSECUTES HER FOR MURDER

(By United Press Leased Wire) WATSEKA, Ill., March 26.—Prosecutor Pallissard, who today demanded the death penalty for Mrs. G. B. Saylor, charged with the murder of her husband, was in his youth the sweetheart of the woman he seeks to convict.

"It is true," said Pallissard, "that Lucy Saylor and I were good friends when young. Naturally, I have sworn to do my duty, and it is my misfortune that I have to forget my personal sympathy for her."

Pallissard in earlier days escorted the girl to school and later to dances. Rumor had it that they were engaged to be married. This was denied by Pallissard. He admitted, however, that they were "sweet on each other."

The revelation of the romance that places Pallissard in the position of an accuser of his former sweetheart comes in the course of an examination by Attorney Morris of the defense of Edward Meyers, the prosecution's strongest witness.

ARCHBISHOP INTERESTED

Another step toward securing the right of way for the Boulevard Park Railway company's line from some unknown point in Spokane out to Northwold boulevard to its intersection with "H" street was taken today, when a petition was filed asking that portions of lots 2, 3, 4 and 5, in section 2, township 25, be condemned for its use.

It is asked that a jury be appointed to fix the price on the property to be paid by the railway company for its right of way. The Rev. William H. O'Connell, Roman Catholic archbishop of the archdiocese of Boston, trustee under the will of John P. Noonan, deceased, is one of the parties interested in this property.

NOW, THEY GIVE 'EM BOILERS

MARE ISLAND NAVY YARD, Cal., March 26.—Following the complete failure of boilers and engines aboard the torpedo boat destroyer Hopkins within two years after her overhauling at this yard in July, 1908, the navy department today ordered the installation of new boilers and engines on the little craft.

The Hopkins will be refitted at this yard and her crew held here until she is ready for sea again.

The condition of the Hopkins on coast is such that the navy department expressed wonder that she was able to proceed up the coast without a disaster similar to that at San Diego on February 14, when several men were killed.

The Hopkins lost the tubes of both boilers yesterday when such naval engineers expressed wonder that she was able to proceed up the coast without a disaster similar to that at San Diego on February 14, when several men were killed.

LITTLE GUNBOAT VERY IMPORTANT

(By United Press Leased Wire) BLUEFIELD, Nicaragua (By wire) to Colon, March 26.—The American gunboat Paducah returned today from Greytown, from which it had been sent to investigate the reported seizure of two American vessels by insurgents. It is reported here since the Paducah's arrival that the vessels were seized by agents of the Madriz government and not by insurgents. A report of the affair has been sent to Washington by the commander of the Paducah. It is declared here the blame will be placed on the Madriz government.

The Paducah, it is believed, will resist any attempt to attack Bluefields by sea, and that it will offer protection to American citizens in case of an attack by land.
