Knicker—Nature abhors a vacuum.
Booker—But folks seldom discover it until it's in the dinner pail.

Passenger—Does this train stop anywhere for dinner?
Brakeman—No; it don't.
Passenger—Then I understand, for the first time, why it is called a "fast" train.

**MURDERER AT BAY;
DEFIES 200 MEN**

(By United Press Leased Wire) LAKEVIEW, Ore., June 16.—Defying Sheriff Albert Dent to take him alive, Ike Harold, slayer of Herbert and Walter Newall, is entrenched on an eminence in the foothills of the Rim Rock mountains, holding at bay a posse of 200 men, deployed in cordon fashion on the barren lava bed surrounding Harold's temporary retreat. Since Thursday of last week Harold has eluded capture. Without food, he has for six days dodged bloodhounds, deputy sheriffs and citizens in the sagebrush flats, swamps and rough lava undulations of the foothills. Occasional glimpses through powerful binoculars show Harold's condition to be extremely pitiable. His actions bespeak exhaustion. Not less than 50 44-caliber cartridges are known to be in Harold's possession. Sheriff Dent believes it would be unwise to risk his life when it is reckoned as only a question of time when Harold shall have succumbed to starvation. Two thousand dollars is the price on the fugitive's head.

**FATHER'S DAY
NEXT SUNDAY**

Next Sunday will be Father's day. Through the suggestion of Mrs. J. B. Dodd of this city one day in the year will be observed as Father's day. Since the suggestion was made some time ago, Mrs. Dodd has received letters and papers from all over the country endorsing her proposition. Many foreign publications have also congratulated her upon the idea and heartily endorsed the observance of such a day. The business people of the city have taken the matter up and Sunday it is expected the overwhelming majority will be wearing a badge of respect for their fathers.

**Take Advantage of
This Forced Reduction**

It is people of musical appreciation who are most impressed with the values offered in our removal sale. A good low priced piano is much better than none at all, but here is an opportunity to buy high quality for little money and pay for it a little at a time. The \$225 styles are selling at \$128, the \$325 styles at \$218, the \$375 styles at \$285, the \$425 styles at \$318, the \$475 at \$363, the \$500 at \$375, etc. Terms as low as rent, as rent. Included in this underpricing are pianos of most renowned makes that no other house in the west sell. Perhaps just the piano you have been longing for is now within your reach. You should come and look before we move. You can't help but see the difference between our values and those offered elsewhere. Our Talking Machine Department has already been moved and the pianos will go next. Better hurry if you wish to take advantage of this sale.

**CENSUS "LEAK"
AT BOISE, IDA.**

(By United Press Leased Wire) BOISE, Idaho, June 16.—Through the publication of an unofficial estimate of the population of this city as 20,250, together with 5000 inhabitants enumerated in the suburban districts not included within the corporate limits, and with the declaration that the figures were correct, Boise, in all probability will develop a census scandal similar to that of Salt Lake. The confidence with which the local newspaper heralded the figures as accurate has forced a demand that it be ascertained where the "leak" took place. After making its announcement of the figures the newspaper declared that no "leak" existed in the Idaho bureau, but it had "authoritative information" to the effect that the census it quoted was correct. Boise's population in 1900 was only 6000.

**KENNEWICK STORES
HAVE FREIGHT
COME VIA CANAL**

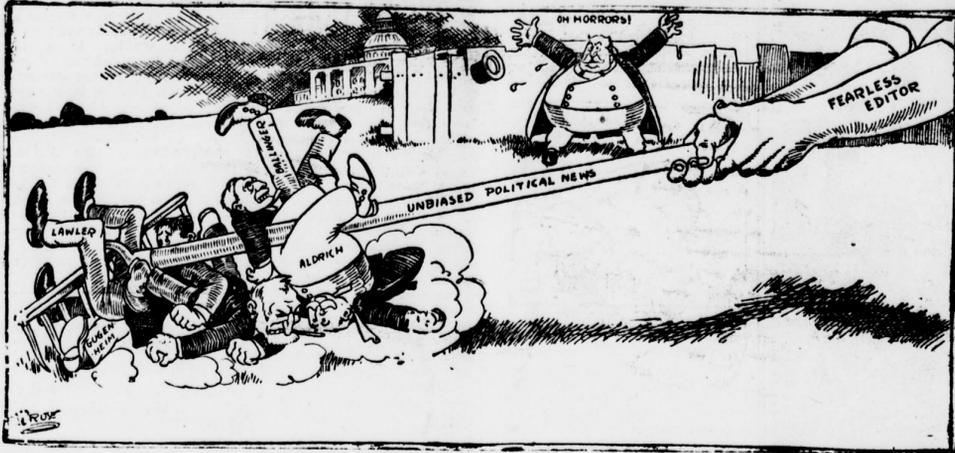

(By United Press Leased Wire) NORTH YAKIMA, June 16.—Two of the large department stores of Kennewick will order their fall stock of goods shipped from New York by water to the isthmus of Panama, via railroad to the Pacific and up the Columbia river; nearly an "all water route." A considerable saving in freight rates can be made in this way. The first large shipment over this route was made this spring, when the entire shepherds of the Coffin brothers' sheep were consigned to Boston by water.

**BIG AEROPLANE
"BUCKLES" IN AIR**

(By United Press Leased Wire) NEW YORK, June 15.—Captain Baldwin, the aviator today is receiving the congratulations of his friends upon his miraculous escape from serious injury when his aeroplane buckled while 75 feet above the earth, near Mineola. Baldwin fell in a tangled mass of silk and bamboo. He was jarred severely, but was able to walk from the field. He gave orders that the damaged aeroplane be repaired and announced that he would attempt another flight Friday.

Up to June 7 the Naps have had 14 games postponed on account of rain. It has been a lovely spring in Cleveland—not.

"Smile, d—n you, smile." This legend probably will be inscribed on the new marriage book at the county clerk's office. The old red-covered book was all used up, and the new one was covered in black. This looked so gloomy that couples began to object, and so the inscription will be put on to cheer them up.

BY FRED SCHAEFER.

Thanks to the noble conduct of our solons at Washington in adopting, or enacting as it were, a tariff measure replete with revision of an upward tendency, the generality of people will not suffer from the pernicious effects of lassitude entailed by delicate and luxurious habits and excess of tempting viands in the dinner pail.

(By United Press Leased Wire.) HOUIAM, Wash., June 16.—Kenneth, the 10-year-old son of Charles Moore, is believed to be dying today as a result of being bitten by a rat. Together with other boys, he attempted to catch the rat in a woodshed. The rodent was driven into a corner, and with its escape cut off showed fight. As the boy started to kill the rat it sprang at him, fastening its teeth in the child's hand. The wound was dressed immediately, but blood poisoning set in.

**INSURANCE AGENTS
GET TOO MUCH**

(By United Press Leased Wire) NEW YORK, June 16.—Commissions paid insurance agents and brokers are too high, according to reports from an investigating committee representing the insurance commissioners of many states, in session here today. In some states the commission is 40 per cent, while the average for the whole country is 21 per cent. The committee is endeavoring to find means for reducing the expenses of insurance organizations. It will probably recommend that commissions of agents be reduced. Representatives of several organizations are opposed to the establishment of a uniform rate because, it is said, of the keen competition existing.
