

JUDGE MANN, CANDIDACY FOR CONGRESS, IS A STANDPATTER

Judge Samuel A. Mann, magistrate of the police court, in blossoming out into the higher planes of politics for the congressional race in this, the Third district of Washington, to succeed the Hon. Miles Poindexter, the famous insurgent, seems to have earned the rating of a "stand pater" in the political category. He is an admirer of President Taft and, while the candidate himself seems undecided as to the species of politicians to which he belongs, his platform, which follows, would tend to label him with the "stand pat" brand. Judge Mann has picked many good planks for his platform, which he is giving to the public today. The platform, in part, follows:

"In seeking the nomination as the republican candidate for congress to succeed the Honorable Miles Poindexter, I shall go before the people of the Third district as a thorough republican. I expect, during the campaign, to be always supporting the principles of the republican party, advocate the platform as adopted at the last national republican convention, and if elected will continue to uphold those principles which have made the republican party the greatest political organization in the world—the party that destroyed slavery, preserved the Union, restored credit, expanded the national domain, established a sound financial system, developed the industries and resources of the country and brought about a condition of prosperity the like of which has never been enjoyed by any other nation in the history of the world.

I unequivocally endorse the administration of President Taft, who, despite the tremendous opposition of those political manipulators who were at all times promoting the interests of the favored few to the detriment of the whole people, has brought about legislation by which the promises made in the national republican platform are being fulfilled. Under his guidance this government is day by day becoming

more a government of the people, by the people and for the people. "I favor the appointment of a commission for the purpose of making a scientific investigation with reference to tariff legislation so that the true principles of protection may be best maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, and at the same time give a reasonable profit to the American industries. "I am unalterably opposed to the methods advocated by those who endeavor to control legislation by machine politics in order that the special interests may be favored to such an extent that the principles of justice, fair dealing among men are relegated to the background. "I shall advocate the adoption of laws which will provide for the national conservation of our natural resources and the issuance of bonds in order that the government may, without delay, complete the plan of reclamation of arid lands by irrigation thereby doing justice to many thousands of settlers who have gone into the arid regions for the purpose of improving the land. "I shall advocate the adoption of laws which will provide for the national conservation of our natural resources and the issuance of bonds in order that the government may, without delay, complete the plan of reclamation of arid lands by irrigation thereby doing justice to many thousands of settlers who have gone into the arid regions for the purpose of improving the land.

Moderately low pressure, with lowest barometer in the northern Rockies, prevails from the Pacific to the middle of the country; thence eastwardly normal pressure obtains with slow and moderately low area with center over the District of Columbia. Fair weather prevailed during the last 24 hours, with rain on the Pacific and Atlantic seaboard. Slightly higher temperature prevails excepting on the Atlantic coast. Cincinnati's pitching staff is causing Griffith to lose sleep. With fairly good pitchers, the Reds would be higher in the race. Mel Sheppard, about the fifty-five runner on this side of the big water, is going to Italy next month, to meet some of the Italian cranks. Sheppard has been offered 10,000 lire, whatever that is, and his expenses. Now if that lire stuff came from the west coast what a beautiful chance some of the humorists would have. Jem Driscoll, clever English boxer, is seriously ill and his match with Abe Attell will be postponed.

effort to land the big exposition for San Francisco. His trip east was undertaken with that view. He personally believes San Francisco the only logical site for the commemoration of the Panama canal. He believes that New Orleans is not the logical place. He has headed off the greatest single sporting event ever planned on the ground that the fight would, if held at San Francisco, send that exposition to New Orleans, according to a statement by a friend of the governor. "WILL STOP IT," SAYS WEBB SAN FRANCISCO, June 16.—Attorney General U. S. Webb and his staff spent the greater part of the day in preparing legal papers for the purpose of preventing the Jeffries-Johnson fight on July 4 and the Kaufman-Langford fight Saturday. In an interview granted the United Press, Attorney General Webb said: "The papers require considerable preparation and care, and will not be presented in court before tomorrow. That will be in plenty of time to prevent the fight. I think the court will grant the desired restraining orders. "Although I do not apprehend a refusal by the court, a refusal would result in the following procedure: The fight probably would be held, but just as soon as I became convinced that it was a prize fight and not a sporting exhibition, I would lodge an information with the court to that effect and secure warrants for the arrest of the principals and promoters. The fight would be stopped within a few rounds after I had come to that decision and the

was issued to raid it, and it was done. The Montana club should get onto the ropes. No man is allowed to turn a card under the eye of either upstairs or down. Under John T. Sullivan and Martin Burns have never had any love for Harry Green of the Club, and Green wisely remains good. Gambling is running open in the Chinese joints on Front avenue. They have not been raided since December. At that time the "chinks" who put up the money in the Sam Fong case were well treated, according to Chief Sullivan, that he returned to them \$175 of the funds they were about to forfeit on bonds. And the chief says that he has the receipt of a "chink" to prove this. "There are five big games running not far from Howard and Riverside," said a well known sporting man last night. "I can't afford to tell where they are, because some of the men are friends of mine. I don't think it is wrong for a few gentlemen to get together in a little friendly game of draw, but I don't approve the idea of having first to see the police about it."

STOCK MARKET

NEW YORK, June 16.—Market getting stronger. Barney bought Union Pacific, which started the rally. Market slowly gaining strength. The short interest said to be large and those prominent on the short side yesterday are buying today, indicating that yesterday's decline was due almost entirely to bearish attacks. Grain News. More or less buying of wheat is going on on damage reports from Russia. Russia reports state that crops in Volga district being damaged by hot winds and drought. Winter wheat has steadily improved during the past week and conditions exceed previous expectations. Complaints of damage by enemies to plant nearly vanished. Harvesting in Oklahoma has commenced and Texas and results are very satisfactory. Light rains have advanced spring wheat conditions. Warm weather improving corn prospects; very fair stand and good color generally. Oats prospects are very encouraging, making rapid progress toward maturity. Packing hogs, 460,000, against same number last week, and 565,000 last year. KANSAS CITY, Mo., June 16.—Purchases of small lots of No. 2 hard wheat for the first of July shipment have been reported at 89 to 90 cents, Kansas City, but buyers said they were just taking a chance. MINNEAPOLIS, June 16.—No rain fell over the northwest last night and there is nothing to indicate rain in the near future. Mel Sheppard, about the fifty-five runner on this side of the big water, is going to Italy next month, to meet some of the Italian cranks. Sheppard has been offered 10,000 lire, whatever that is, and his expenses. Now if that lire stuff came from the west coast what a beautiful chance some of the humorists would have.
