

"You call them a well matched couple." "I certainly do."  
"Why, she is so short and he is so tall!" "He is very short with her."—Houston Post.

# THE SPOKANE PRESS

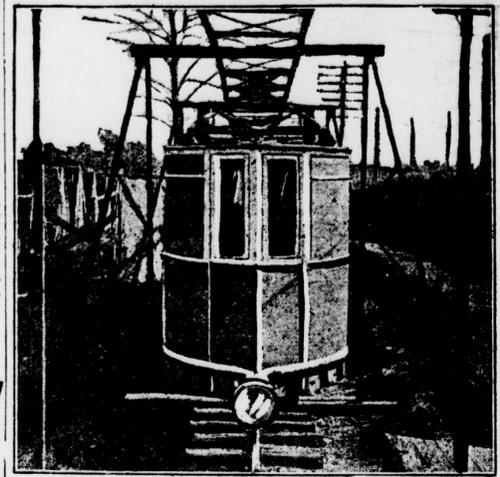

SPOKANE, WASHINGTON, SATURDAY, JULY 2, 1910.

Father—What! You want to marry my daughter? Why, sir, you can't support her. I can hardly do it myself.  
Sutor—Can't we chip in together?

## LITTLE GIRL DIES AFTER EATING CANDY HERE

Within 15 minutes after eating some candy or berries gathered from the wayside, little Rosie Morrow, age five years, lay cold in the grasp of death. Rosie had been playing in front of her home at 2172 1/2 Eighth avenue yesterday afternoon with several other children, when she shrieked for her mother and cried, "Mama, I'm sick; awful sick."  
Dr. N. M. Baker responded to the hurried call, but before he could arrive little Rosie was dead.  
Some of the playmates of the little girl say that she was eating candy, while others claim that she was eating some blue berries which she had gathered by the wayside. Coroner Schlegel, who diagnosed the case, stated that the girl was poisoned, the exact cause he could not determine until an autopsy was held. Intense pains in the stomach and the head were suffered by the child and convulsions, rigidity of nerves and muscles which preceded death point to strychnine as the cause of the girl's death.  
Rosie was the youngest member of a family of four and her mother is inconsolable.

## MONORAIL CARS WILL BREAK ALL TRANSPORTATION RECORDS

CAR OF NEW MONORAIL LINE, AS SEEN FROM AHEAD.

July 4 will mark the beginning of another epoch in man's race against time.  
On that day a monorail road will be put in operation between City Island and Bartow station, New York, a distance of about four miles. This new line, which proposes to fan the very whiskers of old Father Time, will be the first monorail line built and operated in the United States for commercial purposes.  
The cars that are to be used are kept upright on the one rail by means of a gyroscope, or series of wheels mounted in a series of rings, all revolving in opposite directions. The motive power will be gasoline engines similar to automobile motors being used.  
The car will be capable of running at a speed of 80 miles an hour. In a little more than three minutes it will hurt the City Island folk into Bartow station for the early morning train on the New Haven road. It will save these country dwellers who work in the city about 30 minutes every day, or three hours a week, 12 hours a month—a total of six days every year.  
The builders of the road are confident of success, and are already planning to extend the monorail line about three miles west to connect with a trolley line now being built. An elevated monorail from the city hall, Manhattan, to City Island, making the trip on a 15 minute schedule, or less, is also part of the plan of Bion Burrows, head of the monorail company.

## BRIGHT LITTLE NEWS ITEMS WHICH SHOW JUST WHAT SPOKANE IS DOING

July got a good start in the divorce line yesterday, six couples being separated by Judge Hinkle.

The prosecuting attorney's office is in receipt of a letter from the Great Northern railway asking them if it is legal to accept shipments of "near beer" into dry territory.

An excited man rushed up to Patrolman H. C. Roff yesterday and reported that he had seen a woman lying dead on the bank of the river west of Monroe street. Upon investigation it was found that all he had seen was a pair of French heeled, bright red shoes, which were lying on the bank.

Judge Hunke yesterday refused to remove Mrs. Boone as administrator of her dead husband's estate upon the petition of three alleged creditors. James Boone was murdered April 29 by Arthur Ash and Mrs. Boone is held in jail as an accomplice.

All the officers on the city police force will be required to work four extra hours on the Fourth. Chief Sullivan has ordered that anybody shooting off crackers before the Fourth shall be arrested and that no fireworks will be allowed shot off within the business district.

That her husband was mean and cranky and that the household bills had not been paid five months was the cause for divorce filed yesterday by Leona Merk against William Merk.

Notice has been given to the dog owners in Spokane that unless their dogs have licenses by July 15 they will be picked up by the pound master.

Mrs. W. F. Leslie, wife of W. F. Leslie of the Shaw-Wells company, died yesterday afternoon at the Sacred Heart hospital, following an operation.

L. C. Brown, a former city councilman and a well known real estate man of this city, was yesterday bound over to the superior court on a charge of obtaining money under false pretences.

Edward Manchester, janitor of the Washington school, was yesterday sentenced to serve a ten-day sentence in the city jail for fighting. His antagonist, J. L. Luther, was released, as the evidence showed Manchester to be the aggressor.

The city patrol wagon yesterday probably carried the richest load in its career, when it transferred \$60,000 from the Old National Bank to the city jail. The money was to pay the city employees.

Claiming that her husband would wake up in the middle of the night and abuse her and wish that she were dead and that on one occasion he had attacked her with a knife was the cause for a petition of

George Turner of Spokane yesterday concluded his argument on behalf of the United States before the international peace congress at The Hague in the fisheries dispute with England. He spoke for eight days, during which he reviewed fully all of the many phases of the case.

Go a fishing the third and fourth. Tyler-Little Hardware Co., 110 Washington street, has special prices on fishing tackle for Saturday.

LOOK  
All kinds of repairing—stoves, furniture, musical instruments; carpet and linoleum laid, shades hung, picture framing, etc.; work guaranteed. C. O. D. Repair Works, Dwyer & Son, Props., 1028 Riverside, Main 3749.

The fact that the railroads have appealed the rate decision of the interstate commerce commission to the supreme court of the United States, meaning a long legal battle yet before the rates become effective, has caused the desire among shippers to jolly over the rate victory to subsidize. The fight is not considered won until the last court has passed on the case.

Horace Guth has sold an orchard tract of 8 1/2 acres near Kelsing station on the Palouse electric line to Gustav Zabel on a basis of \$18,000, taking in trade a brick house and garage at Shannon avenue and Mill street, valued at the same figure. The trade represents an increase in the value of the orchard property of \$5000 in one year.

Wallace, Idaho, is planning a big time for the Fourth. There will be horse and foot racing and other sports and a total of \$5000 in purses has been offered. One of the big events of the day will be a rock-drilling contest among miners for a prize of \$800.

Deputy Prosecutor A. C. Clausen has handed down an opinion for the county commissioners in which he holds that the commissioners and not the township supervisors have the appointment of the deputy health officers. Some of the townships have appointed their own health officers.

Former United States Senator

## Oddities in the News All Over the World

Gold and other fishes instead of oil will be used to exterminate the mosquito pest in New England if the advice of Dr. Samuel Garman of Harvard and other scientists is followed.

Gold fish are very fond of mosquitoes and their larvae, but some of the breeding places of the insect cannot be reached by the larger fish, so smaller species are to be introduced.

It is claimed, but not scientific ally, that the mosquitoes not devoured may be scared to death by the terrifying names of the fish.

There are many gold fishes in the Charles river, but among the smaller and less slugget varieties proposed to help in the work of preventing 300,000 deaths annually from germ infected mosquito bites are the cyprinodont, the fundulus magals, zygocetes notill and the zygonesotes olivaceus.

If these don't do the work the y can trot out the heterandria formosa and the gambusia holbroki, which are said to be capable of putting on the finishing touches.

**EIGHT MONTHS' OLD BABY WEIGHS 48 POUNDS.**  
Helen Mantle, eight months old, daughter of Mr. and Mrs. Thomas Mantle of Belleville, Ill. is the fattest baby of its age in the world. The child weighs 48 pounds, and is healthy, and still growing rapidly. All its ancestors were of normal weight. At its birth it weighed but eight pounds.

**PRaises THE ERIE FOR "MEANING WELL."**  
The Erie, railroad, estimated to have been responsible for 37 per cent of all the bad language in the United States, has been officially praised by the village of Ridgewood, N. J.

The village sent out through its board of trade a letter expressing the kindest feeling for the railroad, one of the phrases being "The Erie railroad means well."

**TOOK RIDE ON A BEAR AND BROKE RECORDS.**  
By negotiating a 100 yard dash in six seconds (estimated), T. C. Wilson of South Robinson, Me., copied the record for riding a bear bareback.

It was an impromptu affair, and was pulled off without any preliminary training or rehearsals.

Wilson and a friend were serenely treading an old, secluded footpath in the woods near Bangor, Wilson leading the way.

When they came to a fence Wilson lightly vaulted it, but failed to reach terra firma on the other side. His friend saw a streak and then no more Wilson for a while.

What happened was that Wilson landed on the broad back of a bear taking a siesta. The bear was off with a bound and a rather disconcerting "Woof." Down the path they streaked it, Wilson clinging aboard his steed until he came to his senses.

Notwithstanding the speed at which he was going, the hunter then dropped off. The bear did not wait for him.

**HAIRPIN SAVES 200 STALLED ON RAILROAD.**  
A hairpin enabled 200 persons to ride into Coney Island after they had been hopelessly stalled for some time by a fuse blowing out on an electric train at Eighty-fourth street, Brooklyn.

John Brady, the motorman, tried on three trains that came up to get a fresh fuse, but there was not one to be found. Then he entered a car and asked which lady would give him a hair pin, so the train could get a fresh start.

One facetiously said she would give her hair itself to be on her way—it didn't cost but \$2.39 anyhow. Three offered hairpins and Brady selected the longest. Fashioning it into a sort of horseshoe, he produced a new fuse and the waiting trains were off again.

## PLAN TO DISCONTINUE REDUCED RAILWAY RATES

(By United Press Leased Wire)  
CHICAGO, July 2.—It is reported here on good authority that western roads are considering a proposition of abolishing all special rates and making two cents a mile the minimum. This would mean the abolishment of colonist rates and reduced summer rates. It is said that the executive committee of the Western Passenger association has taken the matter up at the instance of various western railway presidents. The proposal is in line with general retrenchment policies recently adopted by the several western lines, following the passage of the railroad regulation bill.

The movement, however, is the revival of a movement started over a year ago. Beyond agreeing that it would be sound economically to go away with all reduced rates for special occasions, all summer tourist and all homeseeker and colonist rates, the executive committee has done nothing, it is reported.

(By United Press Leased Wire)  
ABERDEEN, Wash., July 2.—J. K. Kligenberg, confessed accomplice of William Gohl, former sailors' agent, recently convicted of the murder of Charles Hatberg, will be tried as soon as possible, according to District Attorney Campbell today.

To Box Canyon July 3-4  
Avoid the noise and jam of the Fourth by taking the delightful train and steamer outing down the mirrored Pend Oreille river to wonderful Box Canyon. Special L. & W. N. full vestibuled train of elegant coaches leaves O. R. & N. depot both Sunday and Monday at 8:40 a. m., stopping at Twin and Spirit lakes and connecting with big steamer lone at Newport; 240 miles of scenic grandeur; round trip, \$3. Only limited number carried on the lone, and no crowding assured. Call I. & W. N. R. R., 705 Sprague; phone 597.

## THINK TWO MEN MURDERED YOUNG GIRL

(By United Press Leased Wire.)  
JEFFERSON CITY, Mo., July 2.—Coroner Amos, following an examination of the body of Miss Wendler, found yesterday in Rising Creek, today declared his belief that the young woman was murdered. The coroner stated that he found a strand of wire wound tightly about the girl's neck. He said the evidence showed that Miss Wendler was made a prisoner about three miles above the place where the body was found. Her torn stockings and soiled clothing the coroner said, were evidence that she had been compelled to tramp some distance along the bank of the creek before she was killed.

The state will offer a reward of \$300 for the capture of the murderer. The girl's father, it was stated today, will offer an additional sum. The officers believe that at least two men were participants in the crime.

\$5,000,000 TO BUY OUT INTERESTS  
(By United Press Leased Wire.)  
SAN FRANCISCO, July 2.—Announcement was made here today that the Bank of California has financed in New York a \$5,000,000 bond issue to enable Henry Miller, majority owner in the company of Miller & Lux, to purchase all interests in the company which are held by 27 heirs of Charles Lux, his late partner, who died in 1887. The bonds are 5 per cent and are to run for 25 years.

All the heirs have agreed to sell their interests in the great land and cattle company to Miller. The company owns 600,000 acres of land in California; 200,000 acres in Nevada and 200,000 acres in Oregon.
