# TURKS ARE WITH US AGAIN

## BAKER AND OSTDIK VS. JOSS AND HEMENWAY

Today's feature was the appearance of Russ Hall as umpire. Hall is the "kuy" who made the decisions at Vancouver which so riled Big Chief Cohn and Spokane fans in general. Hall was the target for the fans this afternoon. When he called "strike" the crowd would yell "foul," etc. To keep warm Hall wore a heavy black sweater. But then, he only weighs something over 200, and the perature was only about 90 degrees.

## TODAY IN HISTORY

July 11, 1804, Aaron Burr, vice president of the United States, shot Alexander Hamilton at Hoboken, N. J. Since then neither Hoboken nor a vice president of the United States has been conspicuous in history. Indeed, many people insist that New Jersey has always felt itself a little different from the United States, and everybody admits that a vice president has nothing to do with the general government.

Reading of letters of regret.

## JOHNSON IS WELCOMED IN NEW YORK

(By United Press Leased Wire)  
NEW YORK, July 11.—John Arthur Johnson, negro heavyweight champion of the world, was given a reception by 25,000 of his own race upon his arrival here at 2 o'clock this afternoon. Johnson's train was five hours late and the delay permitted thousands of negroes from adjacent towns to join New York's colored population.

**100 AUTOS AT DEPOT.**  
Before the train pulled in and the colored champion showed forth resplendent, the mob about the station caused the police authorities to rush mounted reserves to reinforce the 100 officers on duty. The crowds about the station entrance were driven back by blue-coats, who established police lines. The 100 automobiles held in readiness to join in Johnson's triumphal tour through the streets were centers of disturbance, and the police decided that they should be moved outside the lines.

The chauffeurs were told to "move on." The order was obeyed literally, and soon the machines began circling through the streets adjacent to the station. This continued for more than an hour. Finally the police forbade the automobile parade, and ordered the drivers away.

When Johnson emerged through the depot entrance the crowd gave him a noisy welcome. He was bundled into Baron Wilkins' automobile, while broad-shouldered patrolmen kept the champion's enthusiastic admirers from mobbing him in their eagerness to shake hands. Johnson was carried along Forty-second street to Ninth avenue and thence to Wilkins' saloon. There he was the guest at an elaborate luncheon, and later was motored to Hammerstein's for his first theatrical appearance in this city.

## ALARMING SHORTAGE OF WATER

Larger Mains Will be Installed—Present Ones Too Small to Give Necessary Pressure.

The alarming water shortage which was shown so vividly to exist in some parts of Spokane by the fire which last night destroyed the Springston Lumber Co.'s plant and eight residences, has administered a rude jolt to the officials of the water department, and steps will be taken to remedy conditions immediately.

When interviewed by a Press reporter in his office this morning, Alexander Lindsay, superintendent of construction of the water department, said:

## MORGAN'S DAUGHTER MAY MARRY THE SPANISH PRETENDER

LONDON, July 11.—The engagement of Anne Morgan, daughter of J. P. Morgan, and Don Jaime, pretender to the Spanish throne, is regarded as not unlikely, according to a writer in a London newspaper today. The statement is creating much comment among the American colony here. The story goes that Miss Morgan and Don Jaime have recently been seen so much together that it is quite reasonable to suppose a match might result.

## NO COMPROMISE, CHIEF

Through various channels, all more or less "underground," it has come to the ears of The Press that Acting Chief of Police Sullivan would be glad to forget his bad feeling toward this newspaper if The Press would, on its part, forget that the said acting chief was inefficient and his whole police system rotten.

The Press paid no attention to the first hint. The second suggestion caused a smile, but a third intimation brought about a decision to refer to the matter. The hint has been hinted that the police would be mighty glad to see The Press stop exposing 'em, and that if this newspaper would stop in its campaign for better conditions in the city hall, there would be no filing or prosecution of libel suits, petty persecutions, etc.

Well, this is all there is to say in reply: The Press is right on the job to continue its fight, not only to secure a better police chief, but also better conditions in other municipal departments, and to help in the consummation of the plan to secure the commission form of government.

The Press will not stop this fight, under any consideration whatever, as long as it believes it the right thing to do, as an independent citizen of Spokane. All sorts of means have been devised to cause The Press to stop, but it does not think any will succeed—BECAUSE THE TRUTH IS BEING PRINTED.

The Press will have something more to say ament this general subject tomorrow.

## WHY NO ACTION BY POLICE DEPARTMENT?

Twice within the past week has the allegation that an immoral resort is being conducted in some of the rooms of the Weldon court, Second and near McClellan, been reported to the police, but nothing has been done. The matter was first called to the attention of the officer on the beat, who reported it at the station. The officer was told that three women in the hotel have conducted themselves with less regard to public decency than the resorts on Front avenue, and that one of the girls had on four occasions been visited

## GIRL DISAPPEARS, FOLLOWING PREDICTION OF A SEERESS

LOS ANGELES, July 11.—The strange disappearance of Miss Charlotte Hitchcock, following the prediction of a seeress that she would meet her death in the sea, and the discovery of a complete outfit of women's clothing in a bathhouse at Venice, are responsible today for her relatives' fear that she was drowned. Miss Hitchcock disappeared last Friday from the home of her sister, Mrs. E. J. Booth, who notified the Venice police and a patrol is being maintained along the strand.

**PUT YOUR HEAD OUT OF THE WINDOW.**  
So Uncle Josh promptly put his head out of the window to see if he could see the danger.

Everybody said the corpse would have looked very natural if the head hadn't been so mangled. (The End.)

## SWEDISH EXPERT HERE.

Mayor Pratt and Health Officer M. B. Grieve will escort Prof. Bernhard Boeglid of Sweden, around to the various dairying and milk plants of Spokane and vicinity when he arrives in the city tomorrow. It is expected that severable valuable suggestion may be received from this European expert, who is at present making a tour of America. He will lecture in the city Friday. While here he will be a guest of the Scandinavian Brotherhood and the chamber of commerce.

## OVERFLOW AT RESERVOIR.

There was an overflow at the reservoir this morning, as telephonic connection between the water department and the pumping station was cut off by the fire, and the 14-inch pipe was not sufficient to carry off the excess water.

## LOEB WILL BE HELPED SOME FOR GOVERNOR

(By United Press Leased Wire)  
NEW YORK, July 11.—That William Loeb Jr. will be an open and avowed candidate for the gubernatorial nomination, and that he will have the endorsement of Taft, Roosevelt and Hughes is the rumor that has gone the rounds here today. It is authoritatively declared that Taft today promised his support to Loeb in the coming contest for the nomination, and that Roosevelt and Hughes will agree tomorrow that Loeb is to make the race.

## DANGER OF RAILROAD GRADE CROSSINGS

During each 19 hours of the business day 5200 cars of the Washington Water Power company pass railroad tracks in Spokane at grade. That more accidents do not occur is probably due to the care of the street railway company employees and not the steam roads, which seem to think little of the rights of the ordinary citizen.

An O. R. & N. outbound train, moving at a slow rate of speed, collided with a city car of the W. P. P., demolishing the front end of the car and giving the passengers a severe shake up and a bad fright. By a strange coincidence the accident happened at the crossing where a flagman had been stationed for two months by the company while Division street was being paved. During that time the cars have run on one track and a flagman was stationed at each of the three railroad crossings to keep the cars moving. Saturday night the second track was in readiness, but a few hours before it was completed the accident occurred. Both tracks are in service today and the flagging for the street cars is done by the conductors as of old.

## PHONE CO. TACKLING ON 50 CENTS

Afraid to Do It All at Once, They Are Imposing Higher Tax Gradually.

Fearful to inaugurate the 50 cent increase in telephone rates simultaneously on all phones in the city would arouse too great a storm of protest, the Pacific States Telephone Co. is making the raise gradually. It waits until a patron gets into a predicament, either has to contract for a new phone or to have one moved, and then the other 50 cent charge is tacked on, bringing the price for the four party phone to \$2—the highest fee for this class of service in the northwest.

If the company thinks the 50 cent (Continued on Page 2.)
